WATERLOO MANUFACTURING CO., Limited
WATERLOO, ONT.

Extract from Annual Report for 1897

of the Consulting Chemist of the ROYAL AGRICULTURAL
SOCIETY OF ENGLAND, published in their Journal, 31st
December, 1897, page 732:

"It has been necessary to call attention to the fact that under the name of 'slag' and some-
times even under that of 'basic slag,' have been sold refuse materials of a very different
character, and having little or no manurial value. These have not been the product of the now
well-known 'Basic' or THOMAS process of iron or steel-making, and have contained little or
no phosphoric acid such as basic phosphate has. In several instances the purchasers believed
that they were buying the true basic slag. It behooves one, therefore, to be careful to stipulate
for THOMAS-PHOSPHATE, and to have a guarantee of phosphoric acid contained, and of
freedom of division."

We handle the only true

Thomas-Phosphate Powder

sold in Canada; and to be sure of genuine material, see that the bags have our
name and address.
