ARCHIBALD YOUNG, Jr, Sarnia, Ont.

N.B. - AGENTS WANTED

JOSEPH HALL MACHINE WORKS,

OSHWATA, ONTARIO, Dec. 18th, 1867.

THE "BERWICK" OR "ABELL" GEAR.

AN effort having been made to induce the public to believe that they were incurring a great risk in purchasing Threshing Machines at this establishment, having the "Berwick," or as it is sometimes called, the "Abell" Gear attached, we would say, that some time since, Mr. John Abell, who claimed a Patent thereon, brought a suit in the Court of Common Pleas against the undersigned, to recover damages for an alleged infringement. The case was tried at Toronto at the last Assizes, and without hearing the testimony ready to be offered by the undersigned, the Court decided that the Patent of Mr. Abell was null and void. We shall, therefore, in future supply Machines with this Gear without any additional charge. Complete sets of this Gear will be supplied to parties wishing to attach it to Machines now in use at \$16.50 each, the price of the Double Bevel Gear. Parties wishing to change Gears will do well to order early. For further information, address F. W. GLEN, EXECUTOR, Oshawa, Ont.

v5-1-10t Oshawa, Ont.

Duncan's Improved Hay Elevator.

PATENTED April 13th, 1867

THE cheapest and simplest constructed Fork in use in the Dominion of Canada. County or Township Rights for the manufacture of the above Fork may be obtained from the undersigned. JAMES W. MANN, Port Dorer, Ont.

v4-20-1t Port Dorer, Ont.

ATTENTION!

DAIRYMEN AND OTHERS!

H. PEDLAR, of Oshawa, Manufacturer of all kinds of Cheese Factory apparatus generally, took the First Prize and Diploma at the Kingston Exhibition in 1867, for the best cheese vats, over all other competitors. Parties intending to start dairies would do well to send for my price list, as I have imported direct from the English manufacturers a very large stock of large Tin Plate, for the express purpose of making Vats and Cans, and am able to supply factories throughout with everything at a price that will pay well, by addressing H. PEDLAR, Box 100, Oshawa.

v4-24-1t Box 100, Oshawa.

Markets.

Toronto Markets.

"CANADA FARMER" Office, Feb. 13th, 1868.

The produce market has slightly improved since our last review, and a small advance has been established in both flour and wheat. The tone of the market is still upward.

Flour - Latterly, the views of buyers advanced, and yesterday a lot of 1,000 barrels No. 1 superfine changed hands at \$7 10, or an advance of 10c on the quotations of last week. This may be taken as the present current rate for No. 1 superfine on this market. In extra and superior there was nothing doing. Prices of these grades are entirely nominal.

Wheat - The market has been very dull; although the receipts have been fair, few lots have been offering. Sales were confined to a few car loads of spring, which sold at \$1.64. The tendency of the market being upwards, probably rather higher figures would be paid for large or choice lots. Ordinary good samples would bring that price if pressed upon the market. There was very little fall wheat offering. One or two lots sold early in the week at \$1.75; good samples would now, probably, command a higher price. On the street market, although there has been excellent sleighing, the receipts are very light. Prices have ranged from \$1.60 to \$1.64 for spring, and \$1.75 for fall.

Oats - The receipts have been very heavy. A few car lots sold early in the week at 59c; some lots were offering within the past few days at that price, but could find no buyers.

Barley - Since our last report the market has been excited, and prices have advanced to a point far above anything ever before reached. As high as \$1.25 was freely paid for car loads of choice barley within the past three days. This sudden advance in prices was mainly caused by the presence in our market of several Chicago buyers, between whom and our local brewers, who have not yet completed their stocks, there is great competition. On the street market \$1.25 was also paid for choice samples. Ordinary to good selling at from \$1.10 to \$1.20, with very little coming in.

Peas - The market has been very dull, no lots were offering. It is therefore impossible to give reliable quotations. There were no receipts on the street market.

Oatmeal - No sales took place during the week - the last reported was at 56c.

Bran - No sales reported - worth from \$13 to \$18.50 per ton.

Hay - Selling at from \$18 to \$19.

Straw - Selling at from \$11 to \$12.

Pork - The market is generally weaker, English prices offering no inducements to packers. Mess held at \$18; Primo Mess \$14.60.

Bacon - No lots changing hands; packers shipping in the hope of an advance; Cumberland offering at 7c boxed.

Cut Meats - In rather better demand. Hams and rolls, smoked and spiced, 11c; bellies 10c; shoulders, green, 6c.

Lard - Higher and finding quick sales at 9 1/2c for shipment.

Butter - Unchanged since last report; stocks very light; choice wanted at from 19c to 20c; common, dull and irregular at from 12c to 14c; rolls wholesale at 16c to 17c; retail on the market at 24c to 26c.

Cheese - In light request, at from 10c to 10 1/2c. Eggs - Only retail demand, selling at from 18c to 20c. Dried Apples - Selling at from 8c to 9 1/2c.

Dressed Hogs - Market very unsettled. Several lots having been forced on the market, prices have declined. Hogs offering in car lots at from \$5.25 to \$5.50; Mess still selling at \$6. Street receipts very light; prices \$5.40 to \$6.10 according to quality.

Hops - The following are the current selling rates in this market - Inferior per lb. 25c to 30c, medium, 30c to 35c, good, 35c to 45c; fancy, 45c to 60c.

Hides and Skins - There is the usual demand at full prices, with very little stock in market - Hides, green, rough, per lb., 6c, green, salted, and inspected, 7 1/2c, cured, 8 1/2c. Calveskins, green, 10c; cured, 12 1/2c, dry, 18c to 20c. Sheepskins, 70c to 75c. Pelts, 70c to 75c.

Petroleum - Market dull and unchanged, current selling rates are - Water white, car load, 13c, do, small lots, 14c to 15c, straw, by car load, 14c, do, small lots, 15c to 16c, amber, by car load, 13 1/2c to 15c; do, small lots, 14c to 15c.

Coal and Wood - There is a good demand for both coal and wood, and prices remain unchanged - Soft coal, \$6.50, Scranton egg, \$6.50, Pittston, \$6, Lough, \$6.50, wood (mixed), \$6.40; wood (hard), \$7.

THE CATTLE MARKET.

The fairs last week at Guelph and Elora were attended by a large number of buyers, and the principal part of the cattle offering was purchased by the Hamilton packing house, and for the United States market, at from 4 1/2c to 5c per lb. live weight. Trade has been very dull in this market; very few cattle have been offering, and there has been very little demand. First-class or extra cattle sold at from \$7 to \$7.50 per 100 lbs. dressed weight; 2nd class sold at \$6 dressed weight, or \$4 live weight; 3rd class cattle were bought at \$5 per 100 lbs. dressed weight. Sheep and lambs have been dull of sale. There is no inquiry, and prices are unchanged. First-class sold at \$5 each; 2nd class, \$4; 3rd class, \$3. No lambs in the market. Calves have been in demand at from \$4 to \$7 each.

Chicago Markets, February 12, noon. - Wheat - receipts 14,000 bushels; shipments, 3,000 bushels; No. 2 in store, \$2.01 1/2. Corn - \$1 1/2; receipts, 58,000 bushels; shipments, 13,000 bushels. Pork - dull at \$22.60.

Contents of this Number.

Table listing contents of the issue, including 'THE FIELD', 'VETERINARY DEPARTMENT', 'STOCK DEPARTMENT', 'THE DAIRY', 'CORRESPONDENCE', 'EDITORIAL', 'LITERARY NOTICES', 'AGRICULTURAL INTELLIGENCE', 'POULTRY YARD', and 'HORTICULTURE'.
