## ECONOMY IN BELT PRESERVATION

Belt economy does not end with the purchasing. The belt is worth its cost price only so long as its original condition which fixes the price is maintained.

Shop conditions always affect the elasticity and "life" of the belt. Dixon's Solid Belt Dressing counteracts these evil effects, preserves efficiency, and keeps the belt at "par value." Get sample 33-O.

**Joseph Dixon Crucible Co., Jersey City, N.J.**

## DO YOU WASTE WHAT OTHERS ARE SAVING ? OR SAVE WHAT OTHERS ARE WASTING ?

**T**HIS is the day of by-products. In many important lines of business the profit now lies in what used to be thrown away.

In your line there are two classes—those who save the "by-products" and those who waste them.

The wasters cannot successfully compete with the savers.

**WEBSTER FEED WATER HEATERS and HEATING APPLIANCES** have made economy a fine art. In many businesses their saving has swung the balance over from the "Loss" side to the "Profit" side.

Webster Steam Appliances now hold undisputed the highest place in steam engineering economy.
