each or with the REVIEW one year for \$1.50. For \$1.75 I will send the REVIEW a yet one untested queen, and the book "Advanced Bee Culture." For

**10 cts.**

three late but different issues of the REVIEW will be sent. The May Review contains an article from M. M. Baldrige in which he tells how to get rid of foul brood with the least possible labor — no shaking bees off the combs, they transfer themselves to a new hive at a time when their bodies are free from the spores of the disease. He also tells how to disinfect hives with one-fourth the labor of boiling. B. Taylor tells how to secure as much white comb honey as extracted.

**A NEW DEPARTURE**

The Bee Keepers' Quarterly

Will be issued April 1st, 1894, and be largely devoted to editorial review of apicultural literature. It will contain not only all practical methods of management and devices found in Bee Journals but many point not given elsewhere. Earnest efforts will be made to eliminate the impractical theories and claims so often met with in bee literature, giving only practical information which may invariably be relied upon. There is some who make a financial success in those hard times and to show you how they do it will be Quarterly's mission. Price 25c per year.

**PROGRESSIVE.**

The Progressive Bee Keeper is the name of a journal for which you ought to subscribe. Though the price is only 50c., the journal is first class in every respect. Dr. Miller calls it "the really progressive, Progressive." During the past year it has received more favorable notices from the bee-keeping press than has any other journal. Its subscription list is six times what it was a year ago when taken in charge by Mr. Leahy.

We are also the largest manufacturers of apiarian supplies west of the Mississippi. Kindly send us your name and we will send you a sample copy of the Progressive Bee-Keeper.
