

FOUGERA'S COMPOUND IODINISED COD LIVER OIL.

THIS preparation has been in general use for the past twelve years, during which time it has steadily gained in favor with physicians, who have tested it and are aware of its prompt action. The immeasurable therapeutic superiority of this oil over all other kinds of Cod Liver Oils sold in Europe or in this market, is due to the addition of IODINE, BROMINE and PHOSPHORUS.

Each quart contains, in addition to the medicinal constituents of the pure oil, 16 grains of Iodine, 2 grains of Bromine, and 2 grains of Phosphorus, which render it therapeutically five times stronger than the richest Cod Liver Oil.

Judging from the experience of the past, we may justly claim that, in a majority of the cases in which Cod Liver Oil is prescribed, the COMPOUND IODINISED COD LIVER OIL will be found vastly superior in efficacy to the pure Oil, and that physicians will obtain the desired result in a much shorter time by the increased curative action of this oil, while in many cases they will obtain favorable results, where the pure oil would fail entirely.

We add a few extracts from the flattering notices received from the editors of the Medical Press of the United States

From the ST. LOUIS MEDICAL REPORTER.

"We have personally used Mr. Fougere's Compound Iodinised Cod Liver Oil, and can, from experience, pronounce it one of the best articles of the kind now in use." April 1, 1867.

From the DETROIT REVIEW OF MED. AND PHARM.

"We can speak most sincerely in approval of the elegant appearance and purity of Mr. Fougere's Compound Iodinised Cod Liver Oil. Its increased medicinal power will commend it to all who are in need of such a remedy." April, 1867.

From the N. Y. MEDICAL GAZETTE.

"The advantages claimed for Mr. E. Fougere's Cod Liver Oil are, that by reason of the addition of Iodine, Bromine and Phosphorus, it is more efficacious, and at the same time the stomach need not be disordered by an excessive amount of oil administered. This Oil was given to about eighty patients, in the out-door department of Bellevue Hospital, about thirty of whom were children, the remainder belonging chiefly to the department of chest diseases. The opinion of the physicians using it is nearly unanimous to this effect: that the Oil is of a decided medicinal value; that, compared with ordinary Cod Liver Oil, it appears to take effect more rapidly." March 21, 1868.

From the CINCINNATI LANCET AND OBSERVER.

"We have used Fougere's Cod Liver Oil in the Dispensary of the Miami Medical College and in private practice, with great satisfaction. The addition which Mr. Fougere makes of Iodine, Bromine, &c., evidently increases the efficacy of the original oil." July, 1868.

From the RICHMOND AND LOUISVILLE MED. JOURNAL.

"Both in this State and in Virginia, private practitioners have been questioned, in regard to their experience with this preparation, and the testimony has, without exception, been extremely favorable. The general belief is, that the Oil is equal to any that is made, and that the blending, pharmaceutically, Iodine, Bromine and Phosphorus with it, produces more satisfactory results, than where good oil and some preparations of iodine are given separately." August, 1868.

From the CANADA MEDICAL JOURNAL.

"Having made use of Fougere's Cod Liver Oil in several cases, it has impressed us as being of really good therapeutic value, being much more speedy in its action than the ordinary Cod Liver Oil. It seems applicable to all cases where Cod Liver Oil is demanded; but, in our experience, it is of essential benefit in cases of spinal disease and rickets." November, 1868.

E. FOUGERA & Co., Pharmacists, New York.

J. H. STEWARD,
OPTICIAN TO THE BRITISH
AND
FOREIGN GOVERNMENTS,
AND THE
NATIONAL RIFLE ASSOCIATIONS
OF ENGLAND AND AMERICA.
