THE FIRST OF JUVENILE PERIODICALS.

GOOD THINGS

FOR THE YOUNG OF ALL AGES.

EDITED BY GEORGE MACDONALD,

. AND ILLUSIRATED BY THE BEST ARTISTS

***This Magazine has hitherto been issued under the fittle of "COOD WORDS FOR THE YOUNG" To mark the important changes and improvements which have been introduced; it has been thought well to alter the name to the simpler and pithler one given above. Good Things will address itself to the young of all ages, from the little beginner, who can just read a picture, to the big boys and girls who study at the desk or shout in the playground; and so onwards up, to the veterans who, after all their learning; turn to the children for a fresher wisdom, and after all their work, att in the shady corner and play the old games over again in their heads. "GOOD THINGS" hopes, as a periodical, to have its margins well thumbed and dog-cared; and when the binder has rimmed those and made it fit for the library, the volume will try for a fixed place there in good company. The flavors of a multitude of assorted "good'es" cannot be put into a prospectus: but the

NOVEMBER PART,

which is now ready,

WILL SPEAK FOR ITSBLF.

NEW-YORK TRIBUNE.

1873.

Now, as herectofore, The Thibuna strives to be first of all and preeminently a new paper.

Prance a Republic—England and Germany gradually permeated with Republican ideas—Sprin swaring in the nerveless grasp of a ruler tok good for a Ring and too weak for a Republican, who is unable to govern the great island that block the entrunce to our Gulf of Mexico, and equally unable to give it up—the German-speaking peoples aglated by a new Protestantiam, separiting from the See of Roma on the dygma of Papal Infalliability and assuming to recognize the "Old Catholics"—the whole Continent pervaded by the intellectual ferment that comes of the conflict between old ideas philosophical, theological, material, and the advance of physical Science—Russia and Great Britain running a race for the final grins that shall celemine Aslatic co-premace—China seeming ready to abandon her advances

philosophical, theological, material, and the avance of physical Science—Russia and Great British running a race for the final gains that shall determine Asiatic correctors.—China seeming ready to abandon her advances and reclose her half opened cates—Japan abolishing feadailsm and inviting Western civilization to irradiate Western commerce to enrich her long-hidden empire—such are phases of the news from abroad which the mails over all Continents and the wires under all Seas are daily hearing to us. With able and trusted correspondents in the leading capitals, and wherever great changes are in progress, The Tribunz aims, at whatever cost, to lav before its readers the most prompt, complete, and popular presentment of these diverse and conflicting movements, through all of which, as it fondly trusts, the toiling masses are verywhere struggling up toward larger recognition and a brighter future.

At home the struggle for freedom seems over. The last slave has long been a citizen; the last opposition to emancipation, enfranchisement, equal civil rights, has formally been abandoned. No narty, North or South, longer desputes the result of the War for the Union; all declare that these results must hever be undone; and, witha whole people thus united on the grand platform of All Richts for All, whereto our bloody struggle, and the prolonged civil contests that followed, have led us, the Republic closes the records: of the bitter, harbuil pack and turns peecetuily, hopefully, to the less alarming because less vital problems of the Future. To whatever may clucidate the general discussion or action on those, The Tribung gives ampleat space and most impartial record: Whatever parties may propose, whatever political leaders may say, whatever officers may do, is fairly set down in its columns, whether this news helps or hinders its own views. Its readers have the right to an honest statement of the facts , and this they always get.

an nonest statement of the characteristic state where the control of the control gathers from every source agricultural news, the reports of the latest experiments the stories of the latest excesses and failures, and whatever may tend at once to better Agricultures, and to commend it as the first and most important of progressive Art, based on natural

science.

THE WEEKLY TRIBUNE appeals also to Teachers. Budents, and persons of inquiring minds, by the character of its literary contents, which include reviews of all the works proceeding from the master minds of the old or of the New World, with liberal extracts from those of capicals interest. Imaginative Literature also claims attention; but in a subordinate degree. "Home Interests" are discussed weekly by a lady specially qualified to instruct and interest her own sex, and the younger portion of the other. No column is more cagerly sought or persued with screater average profit than hers. The News of the Day, elucidated by brief comments, is so condensed that no reader can deem it diffuse, while given smiller into into a dean it diffuse, while given smiller into into a dean it diffuse, while given smiller into do not be accorded by the control of the extensive correspondence of The Dally Trainung from the extensive correspondence of The Dally Trainung from every country, and its editorials of more permanent value are here reproduced. In short, The Weekly Trainung from the extensive commends itself to Millisms, by ministering to their intellectual wants more fully than they are met by any other iournal, while its regular reports of the Cattle, Country Produce, and other Markets, will, of themselves, save the farmer who regularly notes them far more than his journal's price.

For the family circle of the educated farmer or artisan. They Weekly Trainung has no superior, as is proved by the hundred of thousands who, having read it from child hood, atill cherish and enjoy it in the prime and on the flown hill of life. We respectfully urge those which knew its worth to c namend The Weekly Trainung to their friends and neighbors, and we profier it to clubs at price which barely puy the cost of paper and presswork.
