RUBY RUB METAL POLISH

(Made in Canada)

BECAUSE RUBY RUB contains no acid or grit, and preserves as well as polishes metals. RUBY RUB leaves no stains or white marks and does not discolor woods, leather or stone that may surround the metal to be polished. RUBY RUB does not evaporate. The entire tin can be used until the last drop of satisfaction has been extracted. It is as effective on fine jewellery as it is on the metal parts of motor cars and domestic metal ware.
