Manual of Punctuation

.. AND SOME ..
TYPOGRAPHICAL MATTERS

DESIGNED FOR

Printers, Students, Teachers and Writers

BY **JAMES P. TAYLOR**

This little book of eighty-two pages aims to make every student of it an adept in the art of punctuation, and we do not think we claim too much for it when we say that it will accomplish all it aims to.

The exercises, one or two excepted, have not been taken from any work on the subject, but from every outside source that provided the best for illustrating the subject. Many have been taken from the School Readers; and it is believed that they are sufficiently numerous and well chosen to afford all necessary assistance to aspirants for proficiency in this much neglected art.

Mailed, postpaid, on receipt of price.

Paper, 25 Cents

GRIP PRINTING AND PUBLISHING CO., TORONTO

Primary Recitations

WITH EXPLANATORY NOTES AND

Lessons in Primary Elocution

A collection of appropriate recitations for young children not further advanced than the First Reader, and lessons in elocution suited to their capacity.

The selections have been made with great care from the best of similar works, and there is nothing in child-literature published that is better calculated to assist in accomplishing the end sought, viz.: the cultivation of a more perfect elocution and the foundation of a literary taste among the little ones. The lessons in elocution are particularly well adapted for children of the primary classes, and include exercises in breathing, voice development, and distinct articulation. They are suitable for home practice as well as school, and every child should be thoroughly and systematically trained in them.

Sir Morell Mackenzie in "The Hygiene of the Speaking Voice" says: "As to commencing the education of speaking (which, of course, includes the reading) voice, it can hardly be begun too soon." This book aims to aid the teacher in making this beginning.

Now Ready. Price, 25c. Mailed postpaid on receipt of price.

FIFTH EDITION

Armstrong's Arithmetical Problems IN

Senior Classes in Public Schools, and Candidates for Entrance to High Schools and Collegiate Institutes.

This edition contains nearly 900 Problems. The Entrance Papers from JUNE 1880 JUNE 1892, both inclusive, are appended, also the Public School Leaving Examination Papers for 1892. The answers to all the Problems are given. No other work possesses these features.

Read What Teachers and Inspectors Say of it:—

I am highly pleased with your Arithmetical Problems for Senior classes. It suits my Entrance candidates exactly. A book such as this is needed by every Fourth Class pupil.—GEO. KIRK, Head Master M.S., Chatham.

I have just examined your Arithmetical Problems for Senior Classes. The problems are very suitable and the collection must prove very valuable to teachers. I heartily commend it.—G. D. PLATT, B.A., P.S. Inspector, Prince Edward.

After a careful examination of your "Arithmetical Problems for Senior Classes," I find them well graded and very suitable for the purpose intended. The teacher who uses them for home or class work, will save himself a vast amount of labor, and in all probability secure to his pupils much better results.—J. S. DRACON, Inspector, Halton.

I have no hesitation in saying that for the purpose for which it is intended the work is infinitely the best with which I am acquainted. Its strong point, to my idea, is the logical sequence in the problems by which the pupil is almost insensibly led on step by step until he reaches quite a difficult style of question. The printer, too, has done his work very well, and there are but few typographical errors. I shall certainly recommend every teacher in my inspectorate to use a copy.—J. C. MORGAN, M.A., Inspector, Barrie.

Price, strongly bound in cloth, 25 cts.

FIFTH EDITION

Indispensable to every live Teacher

Practical Problems IN Arithmetic

For First, Second, and Third Classes

By **JAMES WHITE**, Public School Teacher

EDMONTON - ONT.

This book has been prepared specially to suit the convenience of Public School Teachers. It contains about 700 Practical Problems suitable for First, Second and Third Classes in Public Schools. It is very carefully graded, and each principle required to be taught is introduced in logical order. It receives the hearty approval of Teachers and Inspectors.

Read their Opinions.

From **ALLAN EMBURY, Esq., Inspector, Peel.**

I have examined this little book of Arithmetical Problems, and can give it an unqualified endorsement. The questions are carefully graded, and are specially suited to the wants of our over-worked teachers who have not always the time to devote to the preparation of exercises upon the various subjects of the school curriculum. The questions are not stated in the form of propositions; but their statement is incidental, leaving the inner connection of the problems to be discovered by the pupil himself; and in this important feature lies their special adaptability as an educational force. I heartily recommend this book to all teachers wishing to economize time and labor in their preparation for ordinary school work.

From **E. TROUGHT, Esq., Teacher, Member County Board of Examiners, Inglewood.**

I have examined with some care Practical Problems in Arithmetic for First, Second and Third Classes, by Mr. White, Edmonton. Without the slightest hesitation I say that they are the best I have ever seen—the best in selection, the best in grading, and above all, the best for developing the reasoning powers of the child, and for exercising his ingenuity. A special feature of the grading is that principles which have been introduced are being constantly made use of in the succeeding problems which are in their turn introducing new principles, so that the whole work may be said to be one unconscious review. It is a great boon to Teachers.
