The following is of interest as showing the progress and appreciation of American inventions in a very distant part of the world.

FAIRBANKS' Standard Weighbridge.

We beg to inform our friends and the public generally that we have erected, at the Bourke Street end of our premises (near Spencer Street,) one of FAIRBANKS' PATENT STANDARD WEIGHBRIDGES, capable of Weighing from Half a Ton to Six Tons. The Platform being sufficiently large to weigh both horse and vehicle at the same time, with an accuracy hitherto unknown in Melbourne.

Importers, Merchants and others have now an opportunity of getting every description of Merchandise weighed as accurately as if weighed on the best Platform Scale usually used in Warehouses, and with a considerable saving of labor.

Appended is a Certificate from Mr. Donald, Inspector of Weights and Measures for the City of Melbourne, which speaks for itself.

McLEAN BROS. & RIGG.

[COPY.]

WEIGHTS AND MEASURES OFFICE,
Town Hall, Melbourne, 23rd August, 1877.

Messrs. McLean Bros. & Rigg, Melbourne,
DEAR SIRS,—I have much pleasure in stating that the FAIRBANKS' AMERICAN WEIGHBRIDGE, erected by you on your premises in Bourke Street West, and this day tested by you in the usual manner, with the Standard Weights of this Office, varying from one pound to five tons, is the most accurate Weighbridge of its size that has come under my inspection. I found the adjustment very simple and perfect, and as an instance, with five tons on the platform a three-penny piece placed on the balance was sufficient to turn it.

Yours, etc.,
GEO. DONALD,
Inspector of Weights and Measures for the City of Melbourne.
