Owner**

For more than four decades, Roland Bastien has proudly been keeping an important part of the Huron Indian heritage alive with the production of a range of quality handicrafts widely sought by giftwares retailers. Notable in our line are traditional footwear products, including mocassins.

Mocassins from Bastien Industries are crafted with exquisitely soft leather. They are hand-beaded, laced and pleated, resulting in a product which is totally authentic. With our attention to detail, Bastien is continuing an approach to mocassin-making which is more than a century old.

Other fast-selling Bastien products include fringed pouch bags, hand-beaded leather headbands, keychains, and small but delightful, traditionally-clad Indian and Inuit dolls.

Huron Indian handicrafts include a full range of traditional footwear items.
