SAMPLES OUT OF TOWN ON REQUEST.

JOHN CATTO & SON

55 to 61 King St. E., Toronto

CANADIAN ONE OF WILSON'S CHOICES

Franklin Lane, Born in P. E. I., Is Secretary of the Interior.

WASHINGTON, March 4.—(Can. Press).—One Canadian becomes a cabinet minister on the accession of President Wilson. He is Franklin Knight Lane, who was born in Prince Edward Island in 1864. He was educated in California, however, and practised law there. He was candidate for governor on the Democratic ticket in that state and received the vote of his party for senator. He is secretary of the interior.

The makeup of the cabinet is as announced in yesterday's despatches.

POLE BEING RAISED ALMOST KILLS MAN

Arthur Elliott, Brock Avenue, in Western Hospital in Serious Condition.

When a large telegraph pole fell at the corner of Springhurst and Jamieson avenues late yesterday afternoon Arthur Elliott was so seriously injured that very little hope is entertained for his recovery. The man lies in the Western Hospital suffering from a broken back and several broken ribs.

The Interurban Electric Company had a gang of men erecting poles for a new line of wires. While the pole was being braced into position it slipped. Elliott was working underneath it and could not escape.

The pole fell across his back and side, crushing him. The police ambulance took the man to the Western Hospital. Elliott lived at 623 Brock avenue and is 37 years of age.

Struck Down by Wagon. Andrew Downey, 78 Massey street, was struck by a wagon at Queen and Bathurst streets last night and sustained a broken leg. He was removed to St. Michael's Hospital in the police ambulance.

OSIS EXPERTS T IN OTTAWA

Annual Convention—Connaught Will Present.

The annual convention of the Association for the Tuberculous will be held at Ottawa on March 12 and 13-14.

Connaught has consented to the gift of Hon. J. C. Connaught, which will be officially presented at the convention.

MOTOR AMBULANCE SERVICE

ROYAL BAKING POWDER Absolutely Pure

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it insures you against alum and all forms of adulteration that go with the low priced brands.

Offers for Toronto's Securities Must Be High—Stringency Is Past. Offers for Toronto's securities have to be on the basis of those for choice liquid assets, or they will be refused. Two offers, both from this side of the Atlantic, were considered by the treasury board yesterday afternoon, and were turned down because they were below 92-1-2, the price at which previous securities had recently been sold. There is no more stringency in the market of the city, and therefore, no necessity for accepting offers under 92-1-2.

NEWCOMERS MADE RECORD FOR YEAR

Seven Hundred, Mostly From Great Britain, Reached the City Yesterday.

Toronto saw the biggest immigration day so far this year yesterday, when nearly 700 new arrivals came in at the Toronto Union Station. About 400 of these came in by G.T.R. and 300 by C.P.R. The newcomers were composed about 80 per cent. of British immigrants. Between two and three hundred of them remained in Toronto, the others being distributed throughout the province and points in the west.

TWO MEN ARRESTED FOR OUTSIDE POLICE

Milton and Campbellford Officials Looked After by Local Police.

Alfred Holland was arrested by Detective Newton on King st. late yesterday afternoon. The crown attorney at Milton wired Inspector of Detectives Kennedy to arrest Holland and Detective Newton recognized him from a description.

Fred Burleigh was arrested at 67 Ryerson street, where commodious quarters have been secured. In this new location this firm have nearly three times their former floor space, which will greatly increase their facilities for handling business.

The new offices afford a splendid example of the "day-lit" principle, having windows along the Victoria and Richmond streets sides, and a light well on a central hall. This feature should be an immense help in the production of high-grade advertising.

REAL Strength Given to Fagged Nerves

When the nerves are worn and weary and fall to obey your control—when you lose through many a weary night, sleepless and hollow-eyed—when your enfeebled nerves will not allow you to concentrate properly on your work when you need Sanguinaria—when you are a real nervous food, built along scientific lines. It is not a false stimulant, but a real tonic of heart and nerves increased action only to be followed by a condition worse than before. It is a real, scientific, scientific rejuvenator of permanent, lasting, joyous health.

YOUR BABY'S SKIN

Is the most delicate fabric in the world. You may cause it permanent harm by using poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk, the baby's best balm.

Zam-Buk is made from the finest herbal extracts, and is free from any harmful, poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer!

Most ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender delicate skin of a baby, and remain on the skin an irritant mass. Just put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it.

Use nothing but Zam-Buk for baby's skin troubles and wash with Zam-Buk Soap.

Zam-Buk should also be used for cuts, burns, scalds, eczema, piles, ulcers, etc. All druggists and stores sell at 50c box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

LARGE INCREASE IN METALLIC OUTPUT

Thirteen Per Cent. Gain in Ontario—Substantial Production of Gold for First Time.

In Ontario last year there was a metallic output amounting to \$47,471,990, an advance over 1911 of \$6,496,193, or 13 per cent. This fact is shown in the annual report submitted by Hon. W. H. Hearst, minister of lands, forests and mines, to the legislature. Of the total value \$34,230,891 was for metallic and \$13,276,425 for non-metallic production.

The largest amount was that received for silver, \$17,455,080, an increase of over one and a half million dollars. The output of silver weighed 30,322,805 ounces, which was over a million ounces less than in 1911, but the higher prices brought about the increase money return. Since the opening of the silver mines around Cobalt nine years ago there has been a production of 156,000,000 ounces, with a total value of \$28,000,000. The first year's output, in 1904, amounted to \$111,887.

There was paid out in dividends by the mining companies in the Cobalt camp over seven million dollars in 1912. The total distribution of profits since the beginning of the camp has been close upon forty-one million dollars on a gross aggregate return for sales of silver of \$81,772,740.

For the first time in the history of Ontario the production of gold in 1912 had a value of \$42,537; in 1913 of \$1,559,250. The explanation is found, of course, in Porcupine, where the mines came into yield during the year. The Hamilton and Dome are the leading producers of the Malvern, Wipond, Jupiter, McEwan and others. An unfortunate labor strike occurred in November, and to some extent lessened the output of the Malvern, Wipond, Jupiter, McEwan and others. An unfortunate labor strike occurred in November, and to some extent lessened the output of the Malvern, Wipond, Jupiter, McEwan and others.

The output of big iron was valued at \$5,054,363, a large decrease over 1911. Nickel brought \$4,722,040, an increase of \$372 tons, or 31.5 per cent. over the year. The prospects are for large expansion of the nickel industry in the future, says the report.

Of the non-metallic output, common brick was the big item, having a production valued at \$3,178,250, and Portland cement at \$3,373,653 and natural gas \$2,267,897.

The production from the mineral industry of Ontario are considerable. Taking the province as a whole, dividends to shareholders in 1912 would amount to \$14,000,000 or \$15,000,000. They were obtained principally from the silver ores of Cobalt and the nickel-copper mines of Sudbury, but were contributed to also by the production of oil, natural gas, salt, feldspar, talc and other substances raised principally in eastern and southwestern Ontario.

PROBATIONER DISCOVERS "JOKER" IN A CONFERENCE CLAUSE

Much to Delight of Young Ministers.

Marriage has been made easier for young Methodists. Stern and rigorous, rivaling the rules of banking institutions respecting bank clerks, has been the Methodist discipline respecting the unauthorized marriage of probationers, known in Methodist circles as "jokers."

The law as it formerly stood forbade the marriage of a probationer with out the consent of the Methodist conference to which he belonged. This meant a big obstacle, and in addition it could only be removed during one month in the synod, and that the nuptial month of June.

The announcement has been issued by the Hamilton conference had a get wedded quick inspiration. Why not secure the assent of a majority of the special conference committee, and then have the hymenial knot tied? He was particularly in a hurry, as he was to accompany him to the Celestial Empire, provided that the matrimonial path was clear.

Mr. Newton discovered the little joker in the Methodist law, secured the assent of the special committee, married his betrothed and was all joyful for the happy pair.

Then came a sequel. Rev. Dr. J. S. Ross, D.D., made a charge against the special conference committee of exceeding its authority.

The case came to Toronto and was tried before the Methodist Church authorities at the board room, Richmond street. Rev. Dr. Cooley represented the Hamilton conference.

A number of probationers are understood to have been watching the outcome of this test case with keen interest.

IN LARGER QUARTERS.

The Toronto offices of the McConnell & Ferguson Advertising Agency, have been removed to the new Robins building, corner Richmond and Victoria streets, where commodious quarters have been secured. In this new location this firm have nearly three times their former floor space, which will greatly increase their facilities for handling business.

The new offices afford a splendid example of the "day-lit" principle, having windows along the Victoria and Richmond streets sides, and a light well on a central hall. This feature should be an immense help in the production of high-grade advertising.

LOW IT IS THE REVOLVING HOUSE

There is something attractive in the idea of a revolving residence recently advanced by a Parisian architect. The house would be made to turn on its axis, or to swing like a swivel chair, so that the occupants, when tired of looking out of the sitting room toward one point of the compass could, by merely moving a lever, or better still, by touching an electric button, soon be in a position to look toward another point of the compass. Underment those fond of the sun might sit in it all day, while those desirous of the shade could as easily make themselves comfortable by the cooler side of the house should, for any reason, be cooler than the front of the house, and conversely the state sought by the inmates, it would be no trouble at all to sail the living rooms around from the front; or, if cool might be secured by moving the back of the house to the side, or by changing the east side so that it would face west, all that would be necessary would be to start up the revolving mechanism.

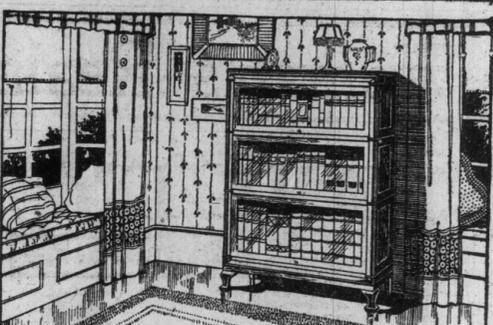

There are many of course who would enjoy the variety of outlook incidental to continuous revolution, and there is no reason why this recreation should not be indulged in with moderation. It might make things a little difficult for the grocery boy and the milkman, unless the house were also provided with a moving yard, but it is fair to assume that in course of time peddlers and hawkers would be eliminated, and the kitchen landing would become so expert as to succeed reasonably often at the first or second trial.

As in all cases where motion is a factor, it might be necessary for municipalities to adopt speed ordinances to regulate the movement of revolving homes. Some there would be, inevitably, who would not be content with a reasonable number of revolutions a minute, and only stringent laws and their positive enforcement would prevent such people from fanning the neighborhood from early morning till late at night. In fact, the introduction of the revolving house would call for numerous changes in the municipal code. Householders should be prohibited from revolving their homes after 10 at night; no housekeeper should be permitted to leave her house in revolution while she was expecting calls; notices should be given by whistle or gong of intention to revolve the house at least five minutes before it was put in motion; no ashes should be removed from a house while revolving; revolving homes in stripes and plaids should be forbidden, etc.

It is impossible to anticipate everything. The best thing to do now is to keep the matter in view, so that by the time the revolving house makes its appearance we shall be prepared to handle a new line of problems.—Christian Science Monitor.

HENRI BOURASSA TO SPEAK.

Henri Bourassa, the Nationalist, will address the Empire Club on "Imperial Relationship" tomorrow at 1 o'clock at McConkey's Restaurant.

"One Is Judged by the Books One Keeps"

Callers have little time to read titles—so they judge the books by the cabinet that contains them. Family—books—cabinet—all are closely related.

Macey Book Cabinets

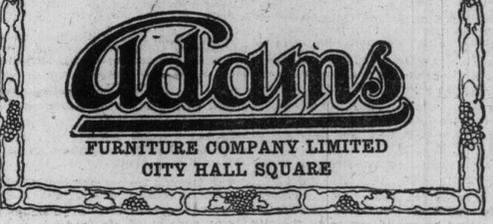

are popular because they meet needs of design, as well as of convenience. These cabinets are made in period styles. They give you a selection; without requiring special construction, they harmonize with your wishes.

They Do Not Look Sectional—but They Are!

Call soon—see—discuss the Macey!

Adams FURNITURE COMPANY LIMITED CITY HALL SQUARE

Board of Trade Luncheon. The conference committee of the board of trade will hold a luncheon at noon today in the St. Charles Restaurant, when R. S. Hudson, chairman of the board, will deliver an address on the work of the board.

Special Advice for Men

Vitality Restored by New Method

The little book described below (which I gladly send free, sealed by mail, to any young or elderly man anywhere) contains illustrated pages explaining a man's health and vitality, and certain strictly personal subjects, and as a guide through his entire life, from the delicate period of youth, when wholesome food from the most needed, on through early manhood, to the vigorous, healthy old age. Over a million of these books have been sent to men in every part of the world. Therefore, please restore your vigorous health, and overcome those who need new vitality, and YOU! free copy by return mail. SANDEN CO., DISTRIBUTORS.

Do you know, my friend, that there is a wonderful new way to apply a certain great, and I give it as my honest opinion, based upon a vast observation and study, that any man anywhere, who leads a decent, manly life, and who applies this marvelous FORCE in a scientific and rational way, can, without employing a single drug, be restored again to a state of perfect, rugged health and vigor, without a remaining ache, pain or weakness.

As we all know, these various debilitating weaknesses handicap a man in every condition of life, while on the other hand, a perfect specimen of vigorous, robust manhood is ever admired by both women and man alike, while, of course, it is certainly only such a man who can attain the really great successes of life. Therefore, if your occupation, no matter whether you are a college graduate or working on the farm or in the factory, no matter whether you are young or elderly, it is all a question of your vigor and your vitality, and if I can give you a good, abundant supply of this same great power or VITAL FORCE, then it is easy to believe that I can completely restore your vigorous health, can overcome the evil effect of past indiscretions so you bear as often as many, strong-nerved, warm-blooded fellows of your acquaintance.

With an idea of attaining all this for you, I recommend you to investigate a simple little VITALIZING APPLIANCE of my invention, which I am now sending out in great quantities, and which you can have for only one application, and further say 50c to 90 days' time is sufficient to restore a state of health, strength and vigor. I am not offering this VITALIZER here for sale, but want you to first send for my book that you may learn all about the whole wonderful subject, and why I get such quantities of testimonials from users everywhere telling of results after drugs completely and utterly fail.

With special attachments, my VITALIZER is used by women as well as men for rheumatism, kidney, liver, stomach, bladder disorders, nervousness and general ill-health. Please write for book today, or, if nearby, I should like you to call. Hours: 9 a. m. to 5 p. m., Sunday excepted.

USE COUPON; GET FREE BOOK

Remember, the little illustrated book, which I send free, sealed by mail, as per coupon below, not only fully describes my VITALIZER, telling of a special offer by which you may get one on special terms for use in your own case, but contains a great fund of private advice for many some good wholesome cautions, and a lot of general information that might be of value to you to the end of your days. Therefore, please

DR. A. B. SANDEN CO., 140 Yonge Street, Toronto, Ont.

Dear Sir:—Please send me your book, as advertised, free, sealed.
