

QUARTER OF COST TORONTO'S SHARE

Board of Control Agrees to Terms of Hamilton Highway.

REGISTRATION BUREAU

Will Furnish Toronto's Quota of Workmen — Works Committee Met.

At a private meeting yesterday afternoon the board of control finished up the terms of the Toronto-Hamilton highway agreement, the principal clauses of which are:

That Toronto shall contribute 25 per cent. of the cost, or \$150,000. The city shall be responsible for 25 per cent. of the cost of maintenance for fifteen years.

The highways commission agrees to take for the city's share of construction the labor from the civic registration bureau.

It is understood the commission refused to agree to give Toronto 25 per cent. of the labor.

Need Every Cent.

The works committee yesterday afternoon refused the request of the works commissioner embodied in his report that after provision has been made for liabilities any unrequired balance of the works department be applied to meet appropriations unprovided for or over drafts which may be found to exist at the closing of accounts of the works department for the year. The committee took the view that the financial condition warranted the city taking advantage of every unexpended balance of appropriation on works.

A recommendation that ten cars of limestone rubble for crushing be purchased at \$1 per ton from John Benson, Ivanhoe, was also struck out on the ground that local tenders for this material do not at a time when they cannot allow for any unusually low price and should not be turned down on this occasion.

Passed Street Extensions.

The committee passed the Wilton avenue extension from its easterly terminus at Bolton avenue to Logan avenue, involving the construction of a subway under the C.T.R. tracks. With the same item were passed the widening and extension of Dickens avenue, Whitby avenue, Doel avenue and Appleton avenue. The total cost of the improvements is estimated at \$822,000.

An application from the Harris Abattoir Company for permission to secure an outlet for their premises in year of the inspector of the works department on Strachan avenue, formerly known as the cattle market annex, was referred to a sub-committee.

City Water for Swansea.

Asking that the city supply the village of Swansea with water, D. Hutchinson and Harry Blears appeared before the committee, but no action will be taken until it is known how far advanced the matter of annexation of Swansea has progressed.

Ald. Robbins withdrew a motion to the effect that no more contracts be authorized by the department unless the contractors agree to employ 10 per cent. English-speaking workmen when he was informed that the works commissioner was already entering upon a system which would give the naturalized citizens of British subject preference over a foreigner.

The city council yesterday afternoon discussed in camera the plans of the proposed Municipal Loan Association, which proposes to raise a quarter of a million to be loaned out to small sums to responsible but needy citizens who themselves in difficulty during the present financial stringency.

It is probable that the board of control will bring on a recommendation to council on the matter.

EIGHT SENTENCES IN ASSIZE COURT TODAY

Ralph Trevor and Fred Ducker Among Those Who Will Appear.

Today is sentence day at the assizes, and Mr. Justice Britton will settle the cases of eight men who lie in jail convicted. Ralph Trevor pleaded guilty to a charge of assault yesterday and he will line up with the others.

Fred Ducker was found guilty of manslaughter of Joseph Scudamore and whose parents have fought so bravely for his acquittal, will be amongst those sentenced. The jury recommended mercy, and the aged father who is unable to work, said that his son would be willing to go to the front if he was permitted.

MAY TRAVERSE CASE OF DR. TYRER TO NEXT ASSIZES.

Material Witness for the Defence is at the Front.

Counsel for the crown and Mr. Justice Britton will decide this morning whether they will permit the case of Dr. E. Roy Tyrer, who is charged with murder of Dorothy Leonard, to be traversed to the next assizes. Mr. T. C. Robinson, counsel for defence, urged that the absence of Dr. A. K. Haywood of the General Hospital staff, who has gone to Europe with the A.M.C., deprived the defence of a material witness. In the same connection a traverse was asked for Dr. Tyrer and Alexander McCordquay, who are charged with conspiracy to commit an abortion.

FOUR MORE CASES.

It is estimated that the costs of the trial of the C.P.R. conductors will total \$7000. There are four more cases to be heard. Binks and Edgar, against whom the sessions grand jury found true bills yesterday, will come before Judge Costworth on Monday. The grand jury will examine the evidence for the last case on that day also.

WILL APPEAL.

An appeal against the verdict of the assize court jury will be made by The Mail Printing Company. The publishers were defendants in a suit for libel brought by Mr. Bertram S. Jackey, and damages for plaintiff \$10,000.

PRESS BEFOOLED BY WAR OFFICE

Given Leave to "Write Up" Canadians, But Could Not Find Them.

TRIP TO SOUTHAMPTON

Nobody Surmised That Plymouth Would Be Point of Debarkation.

LONDON, Oct. 23.—"The Canadian contingent has reached home waters." Three lines in the London papers caused more than one newspaper man hastily to reach for a time table and look out the next train for Southampton. The night previous the official press bureau had issued a private intimation to the press concerning the arrival of the Canadians.

"The press may publish any details they think fit of their arrival, provided that they avoid mentioning any of the following matters."

And then followed a dozen or so items which came within the prohibited degree.

"If all details of the kind above mentioned are excluded descriptive accounts of the arrival of the Canadian troops in this country and of their reception and training here will be welcomed."

Southampton looked rather sleepy in the autumn sun. Except for a fair number of men in khaki strolling about High street, the inner part of the town gave little token of the great happenings on the other side of the few vital miles of sea water.

Straight to the embarkation office marched the men who would welcome the Canadians. He was a most courteous officer of high rank who received them. He had a strip of ribbon on his breast which spoke of active service in the field in times past and a white badge on his arm which spoke of active service at the docks in times present.

Officer Innocent of Word.

The worst of it was he was utterly innocent of any knowledge of Canadian troops. Innocent, that is, as far as communicating whatever knowledge he had to interviewers. He and the press bureau benediction upon descriptive reporting with interest, but it moved him not.

"This is a proscribed area" was the burden of his talk. Disconnectedly the would-be welcome withdrew from the presence of the man with the white badge. Then followed a searching for tidings in the highways and byways of Southampton, which brought the conviction that Canadian troops can give points to Russians in the matter of elusiveness. At nightfall the scribes threw their gleanings into the common fund, the result being that the Canadian contingent was in the examination ground at Sandown, Isle of Wight; had gone straight to Ostend; had landed at Liverpool; had landed at Bristol.

Ostend Again.

A majority pinned their faith on the Sandown story and acted accordingly. Troop ships by the dozen were lying off Cowes, the packet steamed, but of a Canadian by their decks—not a sign. A motor car is the only reasonable means of locomotion in the Isle of Wight when time is of value. Right across the shoulder of the island motored the newcomers of the Canadians, passed Parkhurst barracks, where the 10th Royal Canadian were first quartered some fifty years ago, just after the chest had been raised in the Dominion; thru sleepy old Newport and out on to Brading Downs; away in the distance Sandown Bay shines in the late afternoon sun. A brig and a few fishing boats are about the bay. Hungry eyes gaze out upon the shimmering waters. Not a sign of those troop ships. Back to Southampton.

The welcoming legion has by this time been reinforced by a strong additional draft from London. Copying the German method in the field, it is decided to make an attack in close formation upon the embarkation office. The man with the white badge is pretty well snowed under with the avalanche of visiting cards, but sundries from his usual British coolness and faces the attack while adopting the same old harassing tactics, chanting the litany of the proscribed area with monotonous persistence.

Joffe's job is turning the German flank is child's play compared with the task of welcoming the Canadians under war office conditions.

The days roll on and the welcome lingers at Southampton. One or two British boats are about the bay. Hungry eyes gaze out upon the shimmering waters. Not a sign of those troop ships. Back to Southampton.

The necessary powers are granted to Judge J. J. Kehoe, R. McKee, K.C., and Stephen Fournier, registrar of deeds. Announcement is made in the current issue of The Ontario Gazette.

THREE MONTHS IN JAIL FOR ERICH MUEHLBURG

German Owner of Daggers and Revolver Sentenced Yesterday in Civil Court.

A fine of \$200 or an alternative of three months' imprisonment was imposed upon Erich Muehlburg, who was charged in the police court yesterday with having in his possession deadly weapons contrary to the proclamation of September 3rd, which gave aliens 10 days in which to deliver up all weapons in their possession. Daggers, revolvers, knuckle dusters, what were found in his possession. He goes to jail.

THE BISHOP'S MOVEMENTS.

The Bishop of Toronto will be the preacher at and will celebrate the holy communion at the 11 a.m. service in St. Philip's Church, Spadina avenue on Sunday, in connection with the harvest festival. In the evening he will officiate and conduct "quiet hours" in connection with the conference of the Archdiocese of Simcoe, to be held in that town on Monday and Tuesday.

By order of the Board.
G. P. SCHOLFIELD,
General Manager.

Toronto, 23rd September, 1914.

BIG WAR CONTRACTS PLACED IN CANADA

Hon. Robert Rogers Conveys Good News to West — In Winnipeg.

WINNIPEG, Oct. 23.—Contracts aggregating many million dollars for war supplies for the allies have been placed in Canada, and other large expenditures in this direction among factories and other producers, are to be made by Great Britain, France and Russia in the near future. An era of activity in many manufacturing industries, surpassing anything ever known in Canada, is promised.

This information was conveyed to the west by Hon. Robert Rogers, who arrived in Winnipeg yesterday. Mr. Rogers said he was in the west in reference to grain bought by the government. "Business conditions are improving all over the Dominion," observed the minister. "This is especially true among manufacturers of articles required by the armies of the allies. For the Ottawa government has been assured that all the supplies this country can offer will be utilized by the armies of England, France and Russia."

"Gentlemen—Kindly mail me copy of your 'Tremendous Toronto'."

POLLMAN EVANS THOUGHT TO BE IN THE RANKS

Three Directors of Union Life Will Probably Be Tried Monday.

The case of conspiracy to defraud, charged against Dr. Millicamp, Harry Symons, K.C., and Dr. T. C. Hughes will probably come before the assize court on Monday. Eric Armour consulted with Crown Counsel E. E. A. DuVernet in the court yesterday, and although the outcome was not made public it was understood that the director of the defunct Union Life Company would stand trial on Monday. Pollman Evans, the other official indicted, is said to be fighting in the allied ranks.

TRUSTEE INVESTIGATES EPIDEMIC IN EAST END

School Trustee Dr. Steele made a special investigation into the mumps epidemic among pupils at Kimberley School, and discovered that, while only one case was reported on Oct. 16, there were 23 cases on the 21st. This startling increase he attributed to the fact that the doctor in charge of the medical inspection there was ill, and the inspection for several days was negligible. Another doctor is now doing efficient work as medical inspector at the school. The 23 cases of mumps which developed have been isolated. It will be eight or nine days yet before the effect of the epidemic upon the school will be in general who were exposed to the contagion is fully known.

TO AID IN RECRUITING.

In order to facilitate the administration of oaths and the carrying out of necessary forms in the recruiting activities, a commission per demum potestatem has been formed by the Ontario Government for the province of Ontario. The necessary powers are granted to Judge J. J. Kehoe, R. McKee, K.C., and Stephen Fournier, registrar of deeds. Announcement is made in the current issue of The Ontario Gazette.

RHEUMATISM AND LUMBAG CAN BE CURED

There is no need to suffer torturing pains and ruin your stomach with drugs when you can be completely cured in from one day to a few weeks.

When you feel that grinding pain in your joints you can appreciate the feelings of a man having his bones treated on the rack. It is merciless, sleep-destroying, agonizing. It lets up at times for an hour or two, only to start again more pitilessly than ever. It leaves one joint and moves to another with double intensity. It eats all your vitality, exhausts your power, and reduces you to a chronic rheumatic cripple, with joints twisted and deformed and hardly strong enough to limp around. Rheumatism gives many warnings, and is easy to cure if you take it in time. You feel the first stiffness in your knees, shoulders and back. Attack it then; you can easily drive it out of your body. But if you let those come-and-go pains come before you, they will enslave you. Cure them at first and you will save many years of needless suffering. I have cured many thousands of rheumatics.

Peer Circulation—Rheumatism and Lumbago Cured.
519 Bathurst St., London, Ont., Feb. 25, 1913.

Dear Sir:—I would have written you before but I think my case was worse than you really understood it to be, and I wanted to give you a thorough trial, as my limbs were numb from my hip down to my feet. I gave it a fair trial and it did it. I would and I wanted to give you a full account. It is the reason I did not write before. I tell my friends, when they ask me what made me look so bad and fat, that I am using your Electric Belt. I tell them, if they have lame back or Rheumatism, to get one. Hoping this will reach the eyes of my friends, I remain,
Yours truly,
JAMES MCKENNA.

The McLaughlin Electric Battery

stops the pain, frees the blood from Uric Acid and gives strength to the pain-worn muscles and nerves. It is the only belt that doesn't burn or blister. It is as good for women as for men. Worn while you sleep, it cures no trouble. You feel the gentle glowing heat from it constantly, but no stinging or burning, as in old style belts.

FREE BOOK—Cut out this coupon now and mail it. I'll send this book without delay, absolutely free. Call if you can. Consultation free.

Dr. M. G. McLaughlin, 237 Yonge Street, Toronto, Ont.
