

BUTTER

W

E WANT every pound of Fresh Dairy Butter that Manitoba can produce from now on. We will allow the highest price (quality considered) that can be made by any Wholesale Commission House in the trade here. We have a big daily consumption to supply in filling orders for customers in this city, and also lumber and railway construction camps north, south, east and west of this big centre. We also have a special advantage over all other commission houses, by having a large demand for our own well-known meats; and customers at country points give us the preference, owing to the fact of our being able to fill complete orders for Butter, Cheese, Eggs and Meats. We can sell your consignments promptly, as we give this department special attention.

WINNIPEG

EGGS CANNOT BE MOVED

At existing prices. Jobbers are to-day offering them at 13c to 14c, but at these figures they are not wanted other than in a small way. Would advise our shippers not to pay more than 10c for them, country points.

Neither Can Fresh Made Butter

For there is, comparatively speaking none to move. We are making sales for shippers' account at from 18c to 21c. When you have a box to spare mark it up to

PUTTY

We find that as Manitoba Lined Oil is unequalled for Mixed Paints, it is also unequalled for making Putty. We are now turning out the finest grade. Much better than any we have been able to buy. It is put up in Bladders, in 25-lb Tins, and in bulk, (for Sash Factories). Our price may be slightly higher than the common article, but we are sure that when once handled the dealers and consumers will be unwilling to take any other.

C. P. R. Lands.

The Canadian Pacific Railway land department have announced an advance in the price of farm land of \$1 per acre. This advance affects the lands in eastern Assiniboia mainly. The price is now \$5 for the best land in this district. There has been considerable speculative buying of these lands, and it has been the policy of the department to discourage land speculation as much as possible. It is the object of the advance in price to discourage speculation in the lands and retain them for the actual settlers who are also allowed liberal conditions as to terms of payment, etc.

New Industry for Winnipeg.

W. G. Douglas, flour and feed merchant, Winnipeg, is establishing a new industry in the city, which promises to become an item of considerable importance. He is putting in plans for preparing stock foods. Mr. Douglas erected a large warehouse last year on Princess street for his business, and one floor in this building will be used for the new industry. A very large trade in stock foods is now done in the West. Mr. Douglas has been handling one line of these foods, and therefore already has a trade worked up in them. At present these foods are imported, and as they are subject to a duty of 30 per cent, it is believed that a superior article can be put up at home to the advantage of the consumer. Besides this, the advantage of having the food prepared here will mean considerable work for tradesmen in the city in other lines, such as printing the labels, making boxes, etc. Mr. Douglas has submitted his formula to several Dominion and provincial veterinarians, and he has testimonials for them that his stock foods are the best that can be made. The manufacture of these foods requires some expensive machinery for grinding and mixing the drugs.

Opposition to the wax paper trust in the United States which now practically controls a business of about \$100,000,000 a year, is to be organized in a new company in which Canadian capitalists are interested.

Alfred Booth, founder of the great fish packing business which bears his name, died in Chicago last week. He was 74 years old. From a beginning in which he employed two hands his business grew until at his death the number of employees had grown to 15,000. He was in business 32 years.

The Dominion board of trade which has just been revived at Ottawa, has elected the following officers: President, J. P. Coates, Ottawa; vice-president, Nova Scotia, Sir Sanford Fleming, representing North Sydney; New Brunswick, Geo. Robertson, St. John; N. B., Quebec, Mr. William Threlkover; Ontario, G. Barker, Hamilton; British Columbia, Thos. Earle; M. P. Council, R. W. Elliot, Toronto; Alaska, Orilla; A. Foster, Pembroke; Archibald McNez, Windsor; Thos. MacFarlane, Ottawa; J. D. Flavell, London; D. F. Bruce, M. P. Hamilton, honorary secretary, Geo. A. Chapman, Toronto.

Application has been made for a charter for the Northwest Colonization Company, with a capital of \$2,000,000. The applicants are G. A. Robinson, F. B. Lynch and J. C. Wood, of St. Paul; E. Kenaston, of Minneapolis; and F. G. Barrows, ofergus Falls. Miss F. Stanley Hough, of the firm of Hough & Campbell, of this city, who acted as the new corporation, in an interview said that the applicants for the charter are officers of the Minnesota Land and Colonization Company of St. Paul, Minn., a very strong corporation which has done a very large and successful business. The parties have secured a tract of about a million acres of land in Canada from the Canadian Pacific Railway Company and the Canadian Northwest Land Company, embracing some of the best wheat lands in the Northwest, in the Alameda, Arcola, Estevan and adjacent sections in Southwestern Assiniboia. It is the object of the company to immediately put the land on the market and sell at attractive prices to investors and settlers.
