City Can Lay New Water Main at Cost of \$230,000 With-

out Submitting

Toronto may, can and will spend \$230,000 to lay a new thirty-six inch water main from College-st to the high level pumping station and to the reservoir. It took Sir James Whitney and his cabinet just five minutes to grant the permission by an empowering order-in-council yesterday afterneon. Acting Mayor T. L. Church, and Works Commissioner R. C. Harris, waited on the cabinet at 3 o'clock harp, and at 3.05 precisely, they issued forth with the permission.

"Sir James was very brief," said Commissioner Harris, when he emerged from the conference. "He said that he would let us have anything which would better the city's water supply."

"We have the permission to spend the money," said the acting mayor. "It did not take a minute to get the order. We did not ask for permission to purchase the Trinity University grounds. That will be financed in another way."

While the acting mayor did not spe-

other way."

While the acting mayor did not specify just what method of finance was to be adopted to effect this purchase, which was decided yesterday morning by the board of control, it is understood that the scheme in contemplation is the sale of the Stanley Park land, and the application of the purchase money upon the purchase of the Trinity grounds, which are to be converted into a park.

TAKE OVER ELEVATORS

Western Grain Growers' Action dication of Important Policy.

WINNIPEG, July 18.—(Can. Press.)—
The Grain Growers of Western Canada have decided to take over the Manitoba Government elevators system, and secure control of the Fort William terminal elevators, if they can. This was decided after an animated two days' debate on the situation.

This is the climax of a four years' campaign on the part of the grain producers of the three prairie provinces and it is expected to be the entering wedge that will place all elevators in the west, at the head of the lakes, and at Montreal under their control. A delegation will wait on the Manitoba and Dominion Governments at once.

pominion Governments at once.

Premier Roblin: The government has refused much larger offers, at least 25 per cent. more than what they are willing to accept from the grain-growers. This conclusion was reached from the standpoint that the elevators were bought for the farmers and, therefore, it was the duty of the government to place them at their disposal at cost.

LAKE OF BAYS.

One hundred and forty-five miles north of Toronto on the line of the Grand Trunk Railway System, nestles Huntsville, a pretty little town nearly in the centre of what is known as the Huntsville and Lake of Bays district. The region in this locality is replete with natural beauty and loveliness, and comprises some of the most beautiful water stretches and picturesque landscapes for which that vast portion of Northern Ontario is becoming so famous with the ever-increasing army of tourists, who each year are looking for fresh fields to explore. Very few people, even in Ontario, realize that Canada possesses such a magnificent pleasure ground as this.
