## ANOTHER DAY OF VICTORIES FOR BRITISH AND BELGIANS

Gains of Greatest Importance Also Made by the Australians Between Cambrai and St. Quentin.

With the British Army in France, Oct. 1.-This was another day of victories for the fighting British army. The Belgians also continued their forward movement.

Gains of the greatest importance ere made by the Australians beween Cambrai and St. Quentin, and seems that they have crossed the

feeing east and northeastward from this region, as well as other regions. The day was an ideal one for flying, and the British aviators, who had not been busy for severa! days, again into their own. The planes flew lew over the enemy masses and pour-ed bullets by tens of thousands into ed bullets by tens of thousands into them, while at the same time bombers picked massed troops and loosed projectiles on them in full flight, inflicting terrible destruction. The better vialbility also allowed the British sunners to do more accurate work.

Once more casualties of great proportions have been inflicted on the Germans, who are now fighting with greatest desperation, realizing that their position in this entire area is more precarious than at any time dufting the past four years.

Hard, Close Fighting.

True, there has been again the hardest of close fighting astride and in the Hindenburg system; but back of here there is open country. Joncourt now is well behind the British lines after brick fighting. The lines are some distance east of Levergles. Estrees, captured once and then lost in a counter-attack, has now been taken again by storm. The Austra-

in a counter-attack, has now been taken again by storm. The Australians smashed well saxward of it, making sure of maintaining their gain. From here the battle line curves back northwestward, passing about 1500 yards southwest of Gouy, which also has been reached by the allied troops, but at the present moment is in German bands. The torch has been applied to Cambral and the town is burning briskly. It is evident that the Germans realize they must get away from this locality, and consequently they are burning Cambral and other places. Great tongues of flame and billows of smoke are rising from Cambral.

Victoria Firemen on Strike As Result of Chief's Discharge

Victoria, B.C., Oct. 1.—Victoria's firemen went on strike at 10 o'c'ock this morning, as the result of the action of the city council last night in dismissing Fire Chief Davison on the grounds of economy and reorganization. The firemen announce that they will deal only with emergency cases. They had asked the council previously for higher wages and the two-platoon system.

Success of Foch's Tactics Deprives Germans of Liberty of Action.

French Headquarters in France, Oct. 1.—Four battles are now in progress from Flanders to the Meuse. They cover a total front of one hundred miles and occupy the Germans to such an extent that they have been obliged to give up the benefits derived from shortening their lines, if the hypothesis is true that they did so in order to obtain reserves with which to constitute a manoeuvring force.

But the Germans, consider the Germans, considerable with the Germans to such an extended the Germans to such a

nanoeuvring force.
Instead of employing those reserves in an effort to regain the initiative in certain positions, they have been oblig-ed to call upon them to reinforce the troops in line at points successively threatened and to replace depleted di-

visions.

The success of Marshal Foch's tactics, it is pointed out is not alone in the liberation of villages and towns and prisoners and cannon captured, but in first depriving the Germans of their liberty of action, then requiring them so to disperse their reserves that they were nowhere able to concentrate the masses necessary to maintain their

New Campaign in Serbia Must Now Be Undertaken

Austro-Hungarian and German Forces There Are Expected to Make Firm Stand.

London, Oct. 1.—The military authorities are agreed that the allies must prepare for a new campaign in Serbia against the Austro-Hungarian and German forces, which number 150,000, including those in Albania. The German elements are chiefly concentrated in the neighborhood of Uskub, which French cavalry have entered, while the Austrians are expected to defend Nish as well as the confluence of the western and southern Mórava Rivers and the great strategical points down to the Danube.

Battle Along St. Quentin-Cambrai Front Resumes on Scale of Ferocity Unequaled in the War.

British Headquarters in France, Oct. 1 .- The battle along the St. British Headquarters in France, Oct. 1.—The battle along the St. Quentin-Cambrai front was resumed this morning on a scale of ferocity unequaled in the present war. The Germans have brought up large reserves and are resisting and countering with desperate determination. The dans north of Cambrai are engaged against at least eight German divisions, nearly 100,000 men.

Joneourt was reported to have been taken early, with a large part of the Naura trench system. The Australians are working up the trenches of the Hindenburg system in the direction of Gouy, and have taken Estrees and an important hill ridge astride the Hindenburg line northeast of Bellicourt.
