

approaching convention in August, and toward the continuance of Union government, and you have indicated that the Liberals who supported me in the last election are anxious for an indication of my views at this time.

In reference to the proposed convention in August, as you are aware, it was not called by the Liberal members of the house of commons, but by Mr. McKenna, as the leader of that section of the Liberals opposed to Union government. As you are no doubt aware, of the 122 Liberals elected to the house of commons, fifty were elected as supporters of the Union government and 72 opposed; and of the 69 Liberals elected to the house of commons outside of the province of Quebec, 49 were supporters of the Union government and 20 opposed; of the 52 Liberals elected west of the Ottawa River, 42 were supporters of the Union government and 10 opposed.

Sectional Convention.
The Liberalism which the Union government supported, were not, and are not parties to the calling of the proposed convention. You will, commonsense, find that the convention is not a convention of the Liberal party, but a convention called by a section of the party that was the honest and the policy of the Union government, and to the Union government itself. While, no doubt, some Liberals who supported the Union government will attend the convention will not be in a position to represent or speak for the Liberals who supported Union government.

The Liberal Unionists must decide for themselves, irrespective of the action of the August convention, the course they should pursue in the light of the same high considerations of national duty which guided them when they joined in forming and supporting Union government.

As to the continuance of Union government a brief review of the present situation will, I think, be the best answer to your inquiry. In the election in December, 1917, 153 members were elected as supporters of the Union government, and 82 as supporters of the opposition. Of the 153 members elected were Conservatives and 50 Liberals. There can be no question that the present Liberal Unionist party to support a Union government and not a party government of either side, and another party would have no right to form an administration to carry on a government of the country for a period of time. If the Union government should be dissolved, the present Liberal Unionist party should be an immediate election. Quite apart from other considerations, therefore, the Union government should carry on or we must have a general election. So far as I am concerned, I am not in favor of a general election at the present time. I am in favor of this view that the government with the approval of both sides of the house, should proceed with a general franchise act this session and there is now no general franchise act in force. The general franchise act passed this last session was a temporary measure to cover by-elections.

Legislation to Finish.
Several measures of first rank importance in the interests of the country which were introduced into parliament by the Union government at the recent session, have not yet passed into law, and the Union government must be held responsible for dealing with those matters.

The report of the industrial commission appointed by the present government is now before the government for consideration, and the government has promised to call a conference, including provincial and federal authorities, employers and employees, to consider this report and the action which should be taken thereon, in order to establish better and more harmonious relations between employers and employees and capital and labor in Canada.

The treaties which are to bring the war to an end have not yet been ratified, and it is not until they are ratified and will not be officially terminated until some time after the August convention. It is not the duty of the Union government to support the treaties which are to bring the war to an end, and it is not the duty of the government in carrying out the policies so urgently needed in this period of reconstruction.

SEAMEN DEMAND EIGHT-HOUR DAY
Increase of Wages is Not Likely to Settle Trouble in America.

Washington, July 13.—Wage increases of approximately ten per cent were granted today to employees of vessels operating out of Atlantic ports by the shipping board. The advance, announced after an all-day conference of shipping board officials, is expected to end the strike of marine engineers, firemen and others which began last Thursday.

Deck officers and seamen are affected by the increase as well as water tenders, oilers, engineers, firemen, stewards and cooks.

New York, July 13.—August Brown, secretary of the International Seamen's Association, tonight declared the shipping board's agreement to increase wages 10 per cent for employees on vessels operated by it would not settle the strike of marine engineers, firemen and others in effect since Thursday. The 8-hour day is a most important question, he agreed, and the striking seamen will insist on their demand for preference for union men in employment, it is said. Engineer workers will take a similar attitude toward the shipping board action, Mr. Brown added.

FOOD PRICES DROP THROUGHOUT GERMANY

Lifting of Blockade Compels Traffickers to Sell Out.

Berlin, July 12.—In view of the impending raising of the blockade, the government's recent action in reducing the prices of food staples is forcing food traffickers to get rid of hidden supplies. As a result a sharp decline in prices is reported from all sections of Germany, the most marked decreases being in the Rhineland zones of occupation, where they have fallen from thirty to sixty per cent.

As stocks in occupied territory are being exhausted, the demand, large quantities are being shipped to Berlin, where food prices still prevail. Berlin will probably be the last city to enjoy appreciable price reductions, as much of the city's supplies must be shipped long distances. It is reported from Weimar that the government will exercise active control over the selling materials and also exports. The latter part of the program is meeting with vigorous opposition in commercial and industrial export centres, where it is maintained that personal initiative would be more successful abroad than government control. The German press is editorially opposing the injection of "bureaucratic compulsory measures" into the nation's transition economy, and declares that German commerce "needs freedom."

There is, Mr. Maude says, a vast amount of propaganda work still awaiting attention in Canada as well as the United States. He was astonished at the underground and effective work done in Canada by German propaganda, and urges that we (England) should do everything in our power to counteract it. He particularly wishes to be careful to send the very best men we can find to represent us in all official positions.

ORDER SEAMEN'S STRIKE ON AMERICAN VESSELS

New York, July 12.—Members of the International Seamen's Union and Marine Firemen, Oilers and Water Tenders' Union, were today ordered to stop work on the boats of the U. S. shipping board. It was hoped, however, that a conference between the shipping interests and the strikers, called for this afternoon, would result in a settlement and avert compliance with the order. The men went into conference with demands that they be granted three eight-hour watches a day, an increase of \$15 a month in wages, and that they be allowed to wear a foreign decoration without having to receive special permission from the deck.

ARRESTED FOR FLEEING MONTREAL CONTRACTOR

New York, July 12.—John McSherry, describing himself as a salesman, and alleged by the police to be a member of a gang of wire-tappers, who are credited with fleeing victims out of \$100,000 in Buffalo, was arrested here today. McSherry's arrest followed reports of Charles Drucker and William Jarvis.

One of the principal victims of the Buffalo gang was Michael Connelly, a May, who had lost \$125,000 on a horse race in a bogus poolroom in Buffalo last December.

AUSTRALIAN STRIKE TIES UP SHIPPING

Queensland Trouble Extends to Victoria and New South Wales.

Melbourne, Australia, July 13.—Virtually all shipping in the harbors of Melbourne and Sydney have been tied up in consequence of the seamen's strike, which began several months ago in Queensland and has extended to Victoria and New South Wales. The reluctant shortage of coal will be the most disastrous feature of the strike, and the cessation of interstate trade is already being felt in Queensland. The supply of wheat and flour having been cut off.

The New South Wales government has ordered severe tactics to test the feeling of seamen regarding a continuation of the strike. The union is said to be entirely in favor of settling the dispute by arbitration.

Acting Prime Minister Watt was requested by the Queensland government for permission to charter cargo vessels to relieve the situation, but to withhold consent pending certain conferences which were to be held in Melbourne.

Hamilton, July 13.—The anniversary of the battle of the Boyne brought to Hamilton the largest gathering this city has witnessed for many years. Upwards of 6,000 Orangemen took part in the parade, and marched to the H. A. A. grounds. In the procession were 2,000 members of the L.O.L. of West York when the city of Toronto, Right Rev. It was the occasion of the elevation to the priesthood of a son of that parish James Melville, son of William Melville, 25 Shaw street.

A BRIGHTER OUTLOOK FOR END OF STRIKE

Hamilton, July 13.—The representatives of the Iron Molders' Union and the shop owners, who have so far refused to meet the demands of the strikers, have held another conference, but the result has not yet been announced. They were more optimistic, however, and the reason of the optimism is that the manufacturers of Guelph this week affected a settlement with the molders by increasing their wages from \$4.50 a day for ten hours to \$5.75 for eight hours. The bosses cut two hours a day off the men's time and gave them an increase of \$1.25 a day. The molders have asked for an eight-hour day and \$6 a day, but no counter proposition was made by the bosses up to yesterday.

POLICE PUBLISH DON'TS FOR BANKS

New York Issues Pamphlet of Advice Against Money Thieves.

Some new don'ts for banks have recently been issued by the New York police department in a pamphlet designed to protect bank messengers, depositors and clerks from the work of thieves and highwaymen. Here are some of the chief items of advice in the publication:

Don't let any person know you are going to the bank.

Don't let women or children carry deposits; have two men do the work if possible.

Change the routes and time of making deposits frequently.

Notify the police of any suspicious-looking characters following persons taking money to the bank.

Discharge employes for violating rules.

Have bank employes obtain permits to carry revolvers of the same standard as the police carry. Have bank employes practice with the weapon.
