

EVERY woman who has stewed and fretted and worried at a hot oven door, shifting a roast to the top shelf and back again to the bottom shelf and turning it over in a vain attempt to get it properly cooked, will appreciate the evenly distributed heat of the Imperial Oxford oven.

This even distribution of heat is secured by our diffusive flue—an exclusive feature of the Imperial Oxford Range. Top and bottom, sides and corners, the temperature of the oven is equal and steady.

## Imperial Oxford Range

The oven of the Imperial Oxford Range produces light, dainty, pastry, evenly cooked, tender, juicy roasts—in fact, perfect baking and roasting.

Ask your dealer to explain to you the many exclusive features of the Imperial Oxford Range. If he doesn't handle it, write to us for our booklets and we will let you know the nearest dealer who does.

## PENNY POSTAGE FOR WORLD. HENNIKER BEATON'S PLEA

Is Backed by Strathcona, Roberts,  
Kipling and Many Other Promi-  
nent Britishers.

(Canadian Associated Press Cable.)  
London, Oct. 10.—The strongest plea yet made for the universal penny postage appears in The Times in a three-column letter from Henniker Beaton, with an assurance from peers and members of parliament of their support. Among these are Lord Roberts, Lord Strathcona, Lord George Hamilton, and Sir John A. Gorst, also Rudyard Kipling, Bishop of Ripon, and others. All are willing to add their names to the league Mr. Beaton is forming to attain his object.

Lord Strathcona, after a note of praise for Mr. Beaton's efforts on behalf of imperial penny postage, said he believed further effort would be made to extend the boon till they meet with success.

Mr. Beaton says that his letter represents the feeling, and that it is impossible to add to their force and authority. He reviews the reasons in favor of the adoption of the project, and estimates the cost for the first year at \$125,000, and concludes that the people of all the principal foreign countries are in sympathy with the project.

"It may suit England to agree to introduce the reform gradually," Mr. Beaton says. "If timid financiers decline to accept the whole burden I have the assurance of the support of the chief German commercial men and the leading French, Austrian and Belgian chambers of commerce, bankers and merchants."

The Westminster Gazette, in commenting, says the postoffice reform is such a loss as Beaton estimates and adds, "Now that we have penny postage within the empire, the other step only requires a little courage on the part of the administration of the postoffice."

Will Get Chance Later On.  
Fred Wylie, who in July was sent to the Central Port Hope for one year for passing bogus checks, was yesterday in court to answer other charges. Hamilton, Brantford and St. Catharines have charges to register also. Yesterday he was accused of getting \$15 and a razor from John M. White by false pretences. He pleaded intoxication and an earnest intention to mend his ways, but he goes back to the Central for 15 months.

Finlay and Grant Released.  
Ottawa, Oct. 10.—Finlay and Grant, the Canadians seized on a Japanese coasting vessel by the Russians during the war, have been released, according to advice received from Downing-street.

Want of Exercise, Indoor Employment, Weakens the Bowel Muscles, just as they weaken Arm and Leg Muscles. The Muscles lose tone, tension, strength, to force the food onward. And the longer they stay in that state the weaker they become, because the less exercise they get through the slow passage of food.

Cascarets contain the only combination of drugs that act on the Muscles of the Bowels and Intestines, just as Cold Water, or Exercise, act on a Lazy man.

When you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-rising-in-the-stomach, Gas-belching, or an Incontinent Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause.

Nip them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving."

They act like Exercise on the Bowel-Muscles that propel Food, and that squeeze the natural Digestive Juices of the body into Food.

## WAGE WAR ON MORMONISM PRESBYTERIANS TAKE LEAD

Home Mission Committee Donates  
\$100 Toward Beginning of Ac-  
tive Campaign in West.

The Mormon question in the North-west Territories has long been a burning point about it that the Presbyterian denomination has decided to take active steps in the suppression, if possible, of the spread of Mormonism in Canada. At present there are about 6000 followers of Brigham Young in the district surrounding Lethbridge, and all are active in the propagation of their religion.

They are extending their influence and during the past summer have started a town for themselves situated between Lethbridge and Medicine Hat, and called Tabor. Its population is rapidly growing, as is that of Sterling, Raymond, McRat, Springvale and Karleton, which are essentially Mormon towns. The Presbyterian missionaries of the Mormons there are so strong that circulars are issued setting forth the particulars of their religion.

"This distribution is even taking place in British Columbia," said Rev. Dr. MacLaren of the home mission committee. "Of course they claim that polygamy is not practiced, but it is the foundation of their religion. Polygamy is at variance with the laws of the land and was made a subject of a special act when the Mormons were allowed into Canada. The editor of one of the Alberta papers, although a Mormon himself, admitted that it was being practiced. Another Mormon denied it flatly."

The Christian work in the Mormon towns is centered upon a small proportion of the population, who are held together by missionaries, who work under disadvantageous conditions. The feeling there is against them in those towns. The Mormon population is gradually going northward and westward, and the control of more territory. The Cochran estate of 6000 acres was recently purchased for the people from Tabor. The Macleod Presbyterian took the invasion so much to heart they appointed a committee consisting of Dr. S. Kilpatrick of Knox College and Messrs. Hamilton, Gordon and McKillop to see what could be done to quell it. The Vancouver Presbytery endorsed the action of the Macleod Presbytery and added the name of Dr. MacLaren to the committee. This resolution came up before the western section of the home mission committee of the Presbyterian Church, which held its half-yearly meeting yesterday in the Confederation Life Building.

It was generally considered to be one of the great questions of the west, and it was decided to aid the distribution of Presbyterian literature in an anti-Mormon campaign. One hundred dollars was set apart for the purpose. "We are going to make even a still bigger question of it," said Dr. MacLaren, after the meeting.

The following missionaries were appointed: Quebec, William Miller; Barrie, Rev. George A. Toulmin; W. G. Patterson, North Bay; Rev. George Lamb, Rev. D. Smith, George Roland, James Erskine, Lindsay, Rev. T. Smith; Chatham, Rev. J. Scott; Arthur Hayes; Manitoba and the Northwest, Rev. A. L. Laine, Rev. Gillespie, Rev. H. Beavie, Rev. W. W. McMillan, Rev. G. McGregor, W. Carpenter, M. C. McLean, K. F. McKenzie, Francis Longmore, Thos. M. McMillan, Rev. W. D. Misener, Rev. D. McKenzie, Rev. Jas. McMillan and F. Blair.

The claims on the fund of the committee allowed during the past six months amount to \$4,000. The fund is as follows: Manitoba and Northwest Territories, \$1,971; British Columbia and Alberta, \$1,365.50; Ontario and Quebec, \$1,723.50.

A resolution of sympathy for Rev. Dr. Warden, in his illness, was passed. He is the convener of the committee.

THACKERAY TRIES SUICIDE.  
Toronto Man Slashes His Wrist in Detroit Jail.

Detroit, Oct. 10.—Yesterday a man about 30 years of age, who gave his name as George Thackeray, and later as George Stephenson, and said that his parents live at 215 Chestnut-st., Toronto, was found in a cell in the House of Correction for disorderly conduct.

He was found in his cell bleeding from wounds in the neck and wrist. He held a razor in his hand and said he had cut himself. He was overpowered and placed in the hospital ward. He had cut himself severely, but not dangerously.

He got the razor yesterday from the officials while they were being handed out to prisoners who wished to shave themselves, and then hid it away.

CONFERRING WITH MAYOR  
RE LEVEL CROSSINGS

While the last called meeting of the civil level crossings committee failed to get a quorum and while another meeting will not be called for another week at least, Chairman Ald. Geary is not inactive. He has been conferring with the mayor on the question, and says that progress is being made independently of the rest of the committee.

Of the C.P.R.'s objection to the railway commission that the proposed bridge at the Don crossing would be too costly, Ald. Geary said that his attitude naturally to be expected. He did not see a great deal of force in the contention that the commission would suffer unduly through land damages, as the value of surrounding property was not great.

TWO OLD WATER TANKS  
FOUND IN THE GROUND

Excavators for the new Sunnyside water main yesterday morning uncovered two large water tanks of cedar planks and filled with water, probably half a century old. The tanks are of the sort used some sixty years ago in the fire protection of Toronto. The tanks found are about 12 feet in diameter and in depth.

Doctors in Lumber Camps.  
Last year there was considerable negligence in reference to the regulation, providing that a medical man must attend in lumber camps in winter. The provincial board of health is sending out circulars reminding lumbermen and lumbermen of the necessity of observing this regulation. The men are to be sent to the lumber camps for this protection, and in illness receive medical attendance and hospital attendance free.

Estates of the Dead.  
Mrs. Mary Koch of Markham Township left \$4920, chiefly in Standard Bank shares worth \$2325, and house and lot worth \$1500. Subject to \$1000 for her interest the realty goes to J. W. Ely and Elizabeth Ely, second cousins. A niece, Mary Haug, gets a half interest in the furniture.

Sarah Clarkson, widow, Etobicoke, left \$433.11 cash to her son.

To the Court of Appeal.  
The court of appeal yesterday asked to take under consideration and to decide the question as to the eligibility for teaching of Christian Brothers and others who have no provincial certificates, submitted by the Lieutenant-governor-in-council, and resulting from the case of Stratton v. Ottawa Separate School Board.

## COPY ONTARIO METHODS IN CARING FOR CHILDREN

J. J. Kelso Home For Tour in the  
South—Georgia Philanthropist  
Was Duly Impressed.

J. J. Kelso, superintendent of neglected and dependent children for Ontario, returned yesterday from a vacation spent in the Southern States where he addressed meetings and got a number of pointers on methods of caring for neglected children. Among the cities visited were Atlanta, Ga.; Louisville, Ky.; Nashville, Tenn.; Cincinnati, and Cleveland, Ohio.

At the Cleveland Orphan Asylum and the Children's Home in Cincinnati, he made a close study of the methods of those institutions, both of which have been about 20 years in existence.

In Georgia, where there is a great deal of child labor in the cotton fields, Mr. Kelso at a meeting in Atlanta impressed upon the people his views upon its evil. A strong sentiment is beginning to prevail against it there.

At the close of the meeting a gentleman endorsed Mr. Kelso's remarks, and offered a donation of \$25,000 towards establishing in the state a department similar to that in Ontario, of which Mr. Kelso is the head.

Great interest was manifested in Ontario's system of municipal and provincial government.

"I observed," said Mr. Kelso, "that in Ontario we have a smaller proportion of children in institutions than any state of the union or in Great Britain. The children placed in foster homes are all doing well."

"Ontario's laws regarding child labor have been copied in the United States. For instance, the juvenile court now exists in Chicago, is a model of our system. Our divorce and temperance laws, especially regarding liquor licenses, are also admired."

Mr. Kelso has considerable reputation in the United States along the line of his work and first came into prominence when elected several years ago to the vice-presidency of the International charity conference.

TO PASS UPON SEWER PLANS  
BOARD OF HEALTH WILL MEET

Dr. Hodgetts will call a meeting of the provincial board of health during the last week in October to pass upon plans for new sewers submitted by the various municipalities.

Every sewer constructed in any municipality must be endorsed by the board, and the department desire that the reports be as complete as possible as this is the last meeting before the winter.

## C. P. R. IS NOT SATISFIED.

Wanted Superstructure Made Exact and Will Fight Assessment.

The hearing of appeals against assessments in Ward Five was resumed by the court of revision yesterday. The respective liabilities to assessment of the occupants of the St. Lawrence Hall building at the southwest corner of King and Jarvis-streets were settled. The Dominion Bank branch is to be levied upon for \$10,500; Reisinger and Reisinger, for \$2500, and the hall, \$2125.

The assessment of residents in the Woodbine district for their share of the cost of the sewage system to be installed was confirmed. A petition against the extension of Pollard-street and the extension of the sewerage system to the east end of the city drainage, W. A. Warren protested against being assessed thereupon.

The city engineer recommended reducing the taxation on the 60 feet frontage on Queen-street, and this was done. The C.P.R. claimed exemption on its superstructure on Liberty-street, and from Queen's Wharf to King-street, and the court agreed to a reduction on an assessment from \$5000 to \$3300 per mile, but the C.P.R. threaten to go to Judge Douglas.

DISCOVERED BAD CHEESE  
ALSO THE GUILTY PARTY

Brookville, Oct. 10.—(Special.)—N. G. Somerville, who has charge of the Dominion government cold storage stations here, states that the value of his stock. It was explained that he is assessed at 25 per cent. on his premises.

Some goods opened by Mr. Somerville had a quantity of sour curd worked into them. The cheese were made in Quebec and the guilty person has promised to make restitution.

STRIKE BREAKERS HOUSED  
IN BOX CARS ON SIDING

Chicago, Oct. 10.—A weary, hungry lot of non-union switchmen spent last night in box cars on a siding of the Grand Trunk freight yards near Elkhart. They did not take the lodgings for choice, but because the residents of Elkhart, out of sympathy for the strikers, had driven every non-union man from shelter in the suburb.

Even the saloons refused admittance to the unwelcome strangers.

C. P. R. EXTENSIONS.

Stratford, Oct. 10.—The plans prepared by the C.P.R. and approved by the railway commission, which have been filed in the local registry office for a line from the eastern boundary of Stratford, thru North Easton to the north side of the Avon River, to the boundary of Waterloo County, A second plan, approved by the commission, shows a line from Linwood to Listowel, thru the townships of Mornington and Elma. There are as yet no plans deposited for this line in Stratford, the other plans would indicate that work was being pushed ahead.

## AFRAID OF LOSING AN ARM PATIENT TAKES OWN LIFE

Thomas Hurst Hangs Himself at  
Hospital—Suicide Carefully  
Planned.

Thomas Hurst hanged himself in the Gardener's Lodge at the Toronto General Hospital during Monday night, and the body was found yesterday morning. Fear that he was to lose his right arm by amputation is thought to have induced the deed.

Hurst lived at 279 Farley-avenue, and was formerly a G.T.P. employee. In May he was admitted to the hospital with a badly splintered fracture of the right forearm. Two weeks ago he was told another operation would be necessary.

On Saturday Hurst was given permission to go and draw some money from the bank. It is thought he then purchased the rope. Hurst knew where the key of the lodge was kept, and so was able to secure admittance. At 7.30 yesterday Fred Woolston, the assistant gardener, found the body. After having the use only of his left arm he opened a trap door in the ceiling, crawled thru dust and cobwebs and knocked away the plaster to allow the rope to be attached to the beams.

Dr. Greig declared an inquest unnecessary. In his 20 years' experience, he said, he had never seen a suicide, so deliberately planned.

Hurst was an Englishman 46 years of age, and leaves a widow and four children.

Mr. Hogarth of Fiddes & Hogarth stated that the cost of the work was about right, but that the work should be put in better condition. It was only fair that the job should be left in good order. As to the time he could not say.

You plumbers should have some way of checking up your men's time," said his honor. The judge awarded against Guest & Co., and also assessed them with all the costs.
