> BRANTFORD'S ALDERMAN HERO Will Take Up Arms to Connel Street Railway to Put on Cars.

Brantford, Jan. 29 .- (Special.) - Ald. Wood has declared war on the Brant-ford street railway. At the council meeting last night, on a petition from West Brantford residents being read, asking council to make the company improve the service or revoke the franchise Ald. Wood gave notice that he would move to the latter effect unless there was some speedy change in the service now given by the street railway.

At times as few as three cars are

London, Jan. 29.—The offerings at the wool auction sales to-day amounted to 10,-954 bales. Merinos were practically sold out, France taking medium combing greasles largely. Americans paid full rates for suitable parcels of merinos, Low and inferior crossbreeds did not improve. Cape of Good Hope and Natal sold readily to home and French buyers.

Year-New Inspector Created by Commi sioners.

The first quarterly meeting of the At the meeting of the police commissioners yesterday, Chief of Police Grasett presented his annual report, which is, as usual, complete and full of useful

in the chair.

Thomas Crawford, M. L. A., spoke briefly, as he had another meeting to attend. The Whitney Government had grasped the opportunity to keep New Siaughter were nil. Burglary showed a decrease of sixteen cases and a reduced decrease of sixteen cases and a reduced value in property stolen; housebreaking is the same, being \$3767 less. Pocket-picking increased; women, careless of their purses and satchels in the big stores were easy marks. Highway rob-bery was less frequent. Thefts were less in number, but ran into big figures, due to the large amounts stolen by em-

ployes.

The large amount of stolen property recovered by the detective department shows the staff was particularly attentive to its duties. Sergt. Duncan, who is now the head of this department, has performed his duties in a most satisfactory manner, showing zealous aptitude for the position, and has earned further promotion.

The finger-print system for identify-ing criminals has been introduced. The ing criminals has been introduced. The man in charge, self-taught, has become expert and most useful in his way. The detective staff, which is now composed of men comparatively young at the business, have all worked hard and well together under the wise direction of Sergt. Duncan and have achieved success which would not have been possible otherwise. possible otherwise.

Places where gambling is supposed to

go on are visited frequently. Houses of ill-fame are on the decrease. This is an encouraging sign, if immorality is not carried on more quietly.

Another officer is necessary for the protection of animals. A number of cases of domestic dif-ficulties were dealt with by the mor-

Corn and Oats—Were quite active and well supported during most of the session and until near the close prices ruled a shade higher, but some rather free selling in sympathy with closing weakness in which active committee, who shall report on such at the next regular or subsequent tors are in existence, which warrant the purchase of coarse grains on all slight recessions.

The board will refuse the licenses for poolrooms at 302 East Queen-street and 320 Parliament-street were granted.

Corn and Oats—Were quite active and "All applications for membership in the association must be made to the execution of the detrimental to their interests. The board will refuse the licenses for poolrooms at 302 East Queen-street and 320 Parliament-street were granted.

Corn and Oats—Were quite active and "All applications for membership in the association must be made to the execution of the detrimental to their interests. Licenses for poolrooms at 302 East Queen-street and 320 Parliament-street were granted.

Corn and Oats—Were quite active and association must be made to the execution of a billiard-room license, somewhere on Dundas-street, as it would be detrimental to their interests. Licenses for poolrooms at 302 East Queen-street and 320 Parliament-street were granted.

Corn and Oats—Were quite active as the close somewhere on Dundas-street, as it would be detrimental to their interests. Licenses for poolrooms at 302 East Queen-street and 320 Parliament-street were granted. The question of those to be promoted was discussed, but not completed. The

only thing done was to create a new position, called "chief inspector." This position was given to Staff Inspector Archibald, whose duties will be to look after the police court. His work in the morality department will be filled by Inspector Stephen of No. 2 division. Both these officers will thereby receive an increase in pay.

The other promotions will be made at the next meeting. In the meantime those who have wires to pull will work

MUST PROVE DOG'S OWNER

KNEW IT WAS DANGEROUS

Judge Morson yesterday, in division court, gave judgment in favor of Col. W. H. Merritt, who was sued by James Boyd for \$10 damages, due to the death of some of Boyd's prize chickens thru an attack by the colonel's dogs.

Judge Morson said that if a man owns a dog which is possessed of chicken-killing qualities, and the dog does damage to any man's chickens, it must be proven that the owner was aware

Bankers-Standard Bank of

The Nipissing Copper & Silver Co., Limited (no personal liability), is incorporated under Ontario laws for \$3,500,000 capital. This is divided into shares of one dollar par value, all stock being fullypaid and non-assessable. Only 200,000 shares of treasury stock are offered for sale at fifty cents a share—par value one dollar. The stock will be listed on the principal mining exchanges in order to assure a ready cash market when the rise in value comes, as it inevitably will come, and come soon.

The management of the company is in the hands of men of known probity and standing.

This is the Year for Copper

Copper, the metal, selling to-day for the highest price in thirty-three years, will be the mineral wealth-maker of 1907. This is Copper's year,—copper's decade; in that decade the Algoma and Nipissing districts of New Ontario will produce enough copper to astonish the world. On the 2200 acres of copper, nickel and silver properties owned by the Nipissing Copper and Silver Co., Limited (no personal liability), there is hoge wealth actually in sight.

Every day last year One Million Dollars worth of Copper was produced in the world; and yet the price of Copper is higher to-day than it has averaged for twenty-six years.

To-day, copper, the metal, is selling for 24 cents a pound. Why? Because the world's reserve stock of copper is gone. In ten years the industries of the world have consumed 60,000 tons more raw copper than the mines of the world produced. The output long ago ceased to keep pace with the demand for copper. The price will rise higher still. For years to come, no mine will pay so well as the right kind of a copper mine. These are provable facts-you can verify them And you can verify, too, this fact: The Nipissing Copper & Silver Co.'s properties-2200 acres of copper, nickel and silver land—in Algoma and Nipissing, will presently be rated among the great copper mines of the world. We have one vein exposed for 900 feet on our 480-acre property in Field Township, Nipissing. That vein is 19 feet wide, with neither wall yet reached—a 19-foot contact vein, assaying 6.1 per cent. copper. or 122 POUNDS TO THE TON. Assay certified by Thomas Heys & Son of Toronto. That represents a profit of twenty dollars a ton-and 100 tons a day would be a small output from so huge a body of ore This one vein alone should earn 15 per cent. dividends on our whole capital stock! In Otto Township we have an enormously rich vein of copper-nickel ore-a lode 100 feet wide, exposed for 1000 feet. Samples from a 20-foot shaft assay \$51 a ton. That means a profit of thirty-five dollars a ton. Inside of the next

six months this mine ought to be shipping 150 tons a day! In the great Thessalon copper field of Algoma, we own 520 acres seamed with argentif-erous copper veins that we believe will develop four mines of great richness. On one property in this field we have two yeins from three to six feet, wide stripped for a thousand feet, and another that shows an 8-foot vein stripped for 600 feet. Assays from these veins show 11 per cent. of copper and 41 ounces of silver to the ton! Any competent mining man knows what that means In Garson Township, on a 150-acre claim touched by the C N. Railway, we have a nickel-copper vein two to three feet wide and HALF A MILE LONG that assays 71-4 per cent. nickel—value \$59 a ton—\$40 a ton profit. On Anima, Nipissing Lake, we have four 40-acre claims that experts tell us will develop one of the really great silver mines of the Cobalt country. On one of them is a 13-inch vein of calcite that at only three feet lepth assays 876 1-5 ounces of silver to the ton.

Mr. Aubin and Mr. Donald are also directors in the North Ontario Reduction Company, which is building great modern reduction and refining, plant within six miles of our rich copper property in Field Township. This connection assures us favorable terms for smelting our ores; and this will be the ONLY, copper-mining concern in Canada producing copper in the ingot, and prac-tically right at the mine
