TORONTO.

MR. WU'S NEW MISSION.

Washington, July 16.—Minister Wu has received official confirmation of his recall to China. He had previously received a copy of the official decree naming him with Shen Chai Fen, as the compiler of new code of laws for China, but he was not certain that the new duty could not be discharged in Washington without the surrender of his mission. Now, however, he is informed that he is to come to Peking. The date of his departure has not been set, as it depends on the arrival here of Liang Chen Tung, who is to succeed him, from London. The change cannot be made inside of a month or six weeks.

Betting by System.

From The Brooklyn Eagle.
Only last summer a theorist watched for several successive nights the roulette game at Saratoga and conceived a system.
"The bank saves itself by its limit," he said. "If I could persuade the proprietor to take off the limit I'd beat that game."
Seeking the proprietor he preferred his request.
"Got a system?" asked the proprietor with a smile.
"A winning system," was the reply.
"All right, then; I'll take the limit off for you."

Now, this great system consisted of playing red or black no numbers, and doubling every loss and repeating the winning bet. Thus, if he chose red to play, he bet one dollar. Losing, he bet two; losing that, he bet four. If red then came up he would win four dollars, being one ahead, and repeating the four-dollar bet if red followed he would be five dollars ahead. This successive turn up of the color he bet on he had calculated, based on his observations, would occur fifty times in a hundred and make his winnings, for he would change his color every time the wheel came up black. On the night of his experiment he chose red to begin on and black to end. The black turned up seventeen consecutive times. On his tenth play he weakened, for two things broke on him, that if he did win that bet his profit

Sailor Straws

The Panama, from its big demand, has become somewhat too popular, and this has left the Straw Sailor an exclusive field. No hat looks as natty, as dressy, as the Straw Sailor—none carry a better style than it.

Our Sailors are all new, and we are Dunlap's and Heath's sole Canadian agents.

would only be a dollar; and that if the run continued he would need the capital of a bank to play. He was out as it was \$10,000. Fortunately for him he was a man of wealth.
If he had continued to double to the seventeenth bet he would have been \$131,071 out. On the eighteenth turn red came up and his bet would have been \$262,142. Yet after he had lost nearly half a million dollars, he was not winning would have been a single dollar. The next turn was black. So out of nineteen turns eighteen were black. His system had gone to pieces on the first application. Yet after he had stopped the run of color was about as he had counted on for an hour. "It has cost me \$10,000 to realize that there is nothing but caprice at the bottom of chance," was his comment.

His Excellent Reason.
From The Cleveland Plain Dealer.
"I have come to the conclusion that I must change my winter flannels for lighter ones."
"I wouldn't do that. What's your hurry?"
"I don't give them a rest pretty soon I won't have any for next winter."

Comparison.
"Would you like to trade your mule for this automobile?" asked the factious tourist.
"No, sir," answered Mr. Erasmus Pickley. "For a mule that contrary you kin allow depend on him to move when he gets hungry. But when a automobile balks de case is hopeless."—Washington Star.

why go bumping and whining about your car, when a decent bottle of Holloway's Corn Cure will remove them? Give it a trial and you will not regret it.

YORK COUNTY AND SUBURBS

S. Kopper of Toronto Junction Severely Injured By a Fall From Street Car Sheds.

DR. TREMAYNE IS COMING HOME.

Will Arrive at Halifax About July 22—Five Cows Killed By G.T.R.

Freight Train.

Toronto, Junction, July 16.—S. Kopper of Western-avenue received some severe bruises by a fall from the car sheds of the Toronto Railway Company yesterday.

The seventh session of the Toronto Junction Gun Club will be held tomorrow on the Willowby-avenue grounds.

The Woodmen will hold their excursion to Jackson's Point on Aug. 4, and the Young People's Union go to Hamilton on the 25th of this month.

Ilington.

Dr. Tremayne, who went with the Canadian Field Corps to South Africa, is expected at Halifax about July 22. The villagers of Ilington and Lambton Mills are preparing a reception for him.

The combined excursion of the A.O. U.W., A.F. and A. M. and S.O.B. lodges, will be held on Aug. 14 to Fall View.

Walter Bull, con. A. Elzmoke, near Weston, had cows killed by the G.T.R. freight train about 2 o'clock yesterday morning. A fifth cow was so badly injured that she had to be put to death. The cattle broke out of the pasture field, and all but one out of six are now dead.

Long Branch.

The children of St. Mark's Church of England held their annual picnic yesterday. To-day the Fern-avenue Presbyterian Church and Port Credit Methodists are expected, and on Saturday St. James Mission Union and the Christian Brethren.

The baseball club will play Balm Beach on the diamond here next Saturday afternoon.

The lawn tennis club is practicing for the Civic Holiday tournament. Seventeen believers in Christ were baptized in the lake yesterday afternoon by Dr. Zimmerman and Superintendent H. L. Stephens of the West-Queens-street Mission church, late as assembly witnessed the ceremony, and hymns were sung while the immersion was going on.

East Toronto.

With regard to the proposed amalgamation of Little York and East Toronto, all the preliminaries have been arranged. The preliminary meeting will be held before the Lieutenant-Governor-in-Council at an early date.

Rev. W. L. Baynes-Read of St. John's, Norway, and Mrs. Bates are in

politan Railway for their summer outing.

Robert Eas of Brimley-avenue is suffering from a serious injury to his knee, caused by a wrench.

The attention of York Township Council should be drawn to the dangerous condition of the Yonge-street sidewalk near the northern limit of Mount Pleasant Cemetery.

York Township Board of Health, Councillor Sylvester presided over a short session of this body, held yesterday afternoon. Dr. Playter of the Moore Park Consumptive Hospital asked that he be given an extension of a few months before action was taken to close up the institute. The board were under the impression that sufficient latitude had already been granted, and the Inspector for District York will be notified to proceed against the doctor, under the act passed at the last session of the Legislature. Frank Britton and others made further complaints of Capper's Rendering Factory on the East End, and the support of the Provincial Board of Health will be invoked to close the establishment.

York Township Council.

With Reeve Duncan presiding, the Council met at a Court of Revision of this year's assessment yesterday morning. B. W. Clarke occupied most of the time of the Council, and numerous lots owned by him received small reductions on value. J. C. Macdonald objected to paying on \$20,000 of the property owned by him on Avenue-road, but the appeal found no favor with the members, and the assessor declared his intention of going before the County Judge. During the afternoon the Council considered a business, and dealt with the following matters: School sections 13 and 22, presented an amicable arrangement for a division of the amount owing the sections by the township, and the assessor was instructed to issue debentures for \$2000 for renovation to the Elizabeth-street School. Mrs. S. J. Beaver of York Township submitted an offer of \$200 for 250 feet now owned by the municipality in that suburb. The Council decided to accept the offer, and the assessor was instructed to issue debentures for \$2000 for renovation to the Elizabeth-street School. Mrs. S. J. Beaver of York Township submitted an offer of \$200 for 250 feet now owned by the municipality in that suburb. The Council decided to accept the offer, and the assessor was instructed to issue debentures for \$2000 for renovation to the Elizabeth-street School.

DR. PAGE'S ENGLISH SPAIN CURE

For the cure of Spavin, Ringbone, Curbs, Splints, Windgalls, Capped Hocks, Strains or Sprains of any part of the horse, or any other ailment, or to remove all unsoundnesses.

preparation (unlike other cures) by absorption rather than by blistering. This is the only preparation in the world guaranteed to kill a Ringbone or any Spavin, or money refunded, and will not injure the horse. Manufactured by DR. FREDERICK A. PAGE & SON, 7 York-street, London, E.C.

Mailed to any address upon receipt of price, \$1.00. Canadian agents:

J. A. JOHNSTON & Co., Drugists, 171 King Street East, Toronto, Ont.

THE SKIN

PEARLINE does not injure the hands in the least.

Mrs. Rev. B. M. N.

We use PEARLINE for bathing, and find it excellent—do not like to bathe without it.

Rev. H. D. S.

Two of the Millions.

Not His Feet.

From The Ohio State Journal.

Patient—"I think doctor, that my insomnia is due to cold feet."

Physician—"That's very easily remedied; bathe your feet in hot water before retiring."

Patient—"Oh, the feet I'm speaking of belong to my wife."

Fairweather

French physicians, and with them went to the great butcher shops of La Villette in Paris to carry out the demonstration.

Baring his right arm, the courageous physician, with an unflinching hand, made a wound in the forearm. Then for more than two hours he applied to the wound a fragment of a bronchial gland affected by tuberculosis, and perfectly fresh, coming from a cow that had been seized by the sanitary inspectors of the stockyards because it was infected with the disease. At the same time a fragment of the ganglion was taken to be applied to another animal. Thus Garbault inoculated his blood with the deadly germs of tuberculosis and exposed himself to a terrible death should his claim that the theory of Dr. Koch is untrue prove to be correct. If, however, the outcome is contrary to his expectations, he has already fully decided to begin anew by using a form of injection still more dangerous, being that of application between the veins.

Garbault's experiment has attracted widespread attention, and medical men throughout the world are eagerly awaiting the outcome.

VICTIM OF EXPERIMENT.

Girl Who Was Inoculated With Consumption Germs is Dead.

Dover, N.J., July 16.—Miss Emma H. King, the young woman who submitted to inoculation with the germs of consumption less than a year ago in order that Dr. George D. Barney of Brooklyn might prove the theory of the health and vigor which the county authorities think need investigation, at the farm house of Alfred Shuman, at Shippenport, on Lake Hopatcong, five miles from this place, on Sunday night, died of the disease.

Miss King died of poison self administered, but it is not believed that she meant to kill herself. On the contrary, the arsenic powder which killed her was a medicine she received, according to Mrs. Shuman, to restore her to the health and vigor which were hers before she consented to become a martyr to science, but which she had never enjoyed from the time Dr. Barney operated on her.
