Dr. McLaughlin's Electric Belt

My Electric Suspensory Free With Belts.

MY CURES PROVE THE TRUTH OF MY ARGUMENTS.

This is the way they feel, the men who have given up hope, who thought there was no cure for them, until they came upon Dr. McLaughlin's Electric Belt. Now they are full of life, overflowing with joyous spirits, and "care to the winds." Pains are gone, weakness is gone, and full vigor is in every action.

Do you want to feel like that? Then wear this grand life-giving appliance for two months at night. It will charge every organ with electric life, and you will feel like a two-year-old. It puts steam in your run-down body, drives away pain and renews youth.

I have never tried anything as good as your Belt for weakness. It has done its work well. I will always give it a good name, as I perfectly satisfied with the results.—STEPHEN MENTLE, Headford, Ont.

I can say that your Belt is all you claim it to be. It cured my rheumatism; also worked wonders with my kidneys. I can honestly recommend it to any one suffering.—**GEO. BROOKS, Shanty Bay, Ont.**I cannot tell you how pleased I am for what your Belt has done for me. I am stronger now than I ever was and have gone up in weight 45 pounds. My health is something wonderful. I can truthfully say that I am a new man. I don't think I shall ever get tired of telling my friends what your Belt has done for me.—**JAMES CHAPMAN, 1208 Seymore St., Vancouver, B.O.**

I do not ask you to take my unsupported word. I base my assertions, not upon what I think my Belt will do, but upon what it has done and is doing for others. Above are samples of thousands of letters received during the last year. Do they not endorse what I say?

I TAKE ALL THE CHANCES. You might think that I take long chances with my appliances when I say that I will cure you before you pay me. I don't. There is more in Electricity when properly applied than you think. I take all chances on curing your case. All I ask is that you give me reasonable security for the price of the Belt, and you can use it at my risk and

The last man to see the boat with its two occupants was Watchman Allward of the Ferry Company, who lives in a dittle cabin a few feet back from the promenade along the north side of the ball grounds. About a quarter to 12 on Thursday night he heard a boat ratiling about, and, leaving his house, he went to the railway at the water's edge and peered into the darkness. He could just distinguish the hoat as a black blot against the reflection of the city lights. He could hear voices. By day the seene is so changed that he could not designate the exact spot.
