

yet been received from Newfoundland, but we understand the people and Government of that Province are anxious to secure for their Blind the advantages of the School.

CONCLUSION.

The Institution, which has for the past twelve years been known as the "Halifax Asylum for the Blind," will, during the coming session of the Legislature, have the name under which it was incorporated, changed for one that will be more in keeping with its educational character. The reasons for such a change are obvious, and need not here be recapitulated at any great length, suffice it to say that the opprobrious name of "Asylum for the Blind," indicating as it does, that this is an establishment designed for aged and decrepit persons is evidently a misnomer, and should therefore be abolished, and a new and more fitting name substituted for it, such for example as "School for the Blind." In conclusion, gentlemen, allow me to thank you for your continued and intelligent interest in the welfare of the Blind. Such interest on your part relieves and lightens the responsibility of my position as Superintendent, and is to me a great encouragement in carrying on the work in which I have been engaged during the past ten years, all of which is respectfully submitted.

C. F. FRASER,
Superintendent.
