

SIR THOMAS STAFFORD RESIGNS AS PROTEST AGAINST GOVT. PLAN

Strong Measures Are Being
Taken by Troops in
Ireland.

Dublin, Aug. 11.—Sir Thomas Stafford has resigned his membership in the viceroy's advisory council because, he says, the premier has refused to take the only step giving a chance for peace, namely, the firm and immediate offer of a form of dominion government.

Next to Frank Brooke, who was assassinated on July 30 by three men in a railway directors' room in Dublin, Sir Thomas Stafford has been the closest personal friend of Viscount French, the lord-lieutenant.

The military is taking strong measures against persons concerned in holding Sinn Féin criminal courts. Three men have been convicted and sentenced to two years at hard labor by a court martial for "carrying off two men for unlawful purposes." Several buildings used as "republican" courts have been occupied by the military.

In some cases bloodhounds are being employed by the police in hunting suspected persons.

CIVILIANS' REFUSAL TO OBEY PATROL'S ORDER CAUSE OF FIGHTING

Dublin, Aug. 11.—Yesterday morning's street fighting, in which one civilian was killed and a patrolman wounded, was caused by the refusal of a group of civilians to disperse when called upon to do so by an armed patrol. An official statement on the incident issued here late last night.

The patrol was challenged and ordered to halt by a member of a group gathered around a bonfire, the statement says. The man who had shouted the challenge was kneeling in a firing position, and when the group ignored the patrol's order to disperse, it was fired upon.

THIRTY-TWO PERSONS ARE KILLED IN EXPLOSION OF MUNITIONS DUMP

Fundamental Progress

We have made an exhaustive analysis of the Canadian pulp and paper industry. The analysis shows the increased value of its securities is clearly shown. This foundation is based, first, upon the wonderful combination in Canada of immense areas of spruce pulpwood with abundant water-powers in close proximity; and, second, upon the fact that we are a producer of pulp and paper. This information, plus the fact that we are a producer of pulp and paper, is the basis of our security. We will place this analysis in your hands if you will write to us. We think it will place you in a position to receive it. Address:

POLAND'S ARMIES

tula, is the greatest manoeuvre undertaken as yet by the Bolsheviks.

RUSSIAN SUBMITS TERMS FOR TRUCE WITH POLAND

London, Aug. 10.—Leo Kamenef, Russian Soviet emissary here, sent Premier Lloyd George today an outline of the terms which Soviet Russia is laying down for an armistice with Poland. The first of these terms, the outline shows, is that the strength of the Polish army shall be reduced to one annual contingent of 50,000 men, together with the army command, and an "army of administration" (apparently a permanent force) to aggregate 10,000 men.

The second of the terms is that demobilization of the Polish army shall occur within one month. The third condition is that all arms, excluding those needed for the army forces specified, shall be handed to Soviet Russia and the Ukraine. Other terms are:

Fourth—All war industries shall be demobilized.

Fifth—No troops or war material shall be allowed to cross from abroad.

Outlet to Baltic.

Sixth—The line of Volhynsk, Bialystok and Przeworsk placed placed along the disposal of Russia for commercial transit to and from the Baltic.

Seventh—The families of all Polish citizens killed, wounded or incapacitated in the war shall be given land free of charge. On the other hand, the terms for Russia are:

First—Simultaneously with the Polish demobilization, the Russian and Ukrainian troops shall withdraw from the Polish territory.

Second—Upon the termination of these operations the number of Russian troops in the Russian territory shall be considerably reduced and fixed at a figure to be agreed upon.

Third—The armistice line shall be the status quo, but not further east than the line indicated in the note of Mr. Curzon, the British foreign secretary, in London, July 20, 1919.

Fourth—The zone between the two lines being neutral.

Fifth—The final frontier of the independent state of Poland shall be the main indication of the line in the east, and the zone between the two lines shall be given Poland on the east, in the regions of Bialystok and Chelm.

SLOWLY CLOSING IN UPON WARSAW

PARIS, Aug. 10.—Slowly, but surely, the Bolsheviks are closing in on Warsaw. The latest news from the city indicates that the Russian forces are making rapid advances in the direction of the city. The Polish government has issued a statement that it is prepared to accept the terms offered by the Bolsheviks, but that it is unable to do so at present because of the lack of funds.

WOULD SEVER LAST OF COMMUNICATIONS

WARSAW, Aug. 10.—With the Danzig-Warsaw railroad cut, the Russians have severed the last line of communication with the city. The Polish government has issued a statement that it is prepared to accept the terms offered by the Bolsheviks, but that it is unable to do so at present because of the lack of funds.

POLISH CRISIS IS NEAR CLIMAX, BELIEF

LONDON, Aug. 10.—The Polish crisis is approaching a climax. As viewed in London, Warsaw seems likely to fall before the Russian forces. The Polish government has issued a statement that it is prepared to accept the terms offered by the Bolsheviks, but that it is unable to do so at present because of the lack of funds.

WEYGARD OFFERED COMMAND OF POLES

PARIS, Aug. 10.—Gen. Weygand of the French army has been offered supreme command of the Polish forces by the Polish Council of National Defense, according to a Warsaw dispatch to the Havas Agency. The decision was taken at a meeting of the body.

At the end of the second year, the Bolsheviks have assumed direction of the proletariat, Russia remains in a state of anarchy. It is the same force which has beaten back invading foreign armies on all fronts, the same force which has overcome all counter-revolutionary movements.

Only Half Crops.

The rich black soil in Southern Russia is said this year to have produced less than half a crop because of drought. The Don basin is producing less than half a crop because of drought. The Don basin is producing less than half a crop because of drought.

HIGHER RATES

Increased costs than the consumer. If it was absolutely necessary to advance the rate on coal, Mr. Daly said, the increase would be confined to soft coal. The Government had recognized that anthracite coal was an essential commodity by refusing to place a tax on it, even though soft coal was available.
