Three Point Advance Scored --Liquidation Sent Carnegie Factories Lower.

MONTREAL, Jan. 8.—A three point tally in Canadian Car, which sold as high as 79 under a fairly brisk demand, and further weakness in Carriage Factories, were the principal features of the short Saturday session on the Montreal stock exchange. Car held tures of the short Saturday session on the Montreal stock exchange. Car held all but a half point of its advance. Expect Heavier Exports.

Notwithstanding that signs pointed to a liberal increase of the United States visible total on Monday, the wheat market closed at nearly the highest level of the session. One of the reasons for the strength was an cutlock for a considerably freer export movement next week.

Broadening of both the export and domestic enquiry ralkied the corn market Besides predictions were current that receipts here would become the smallest in years. Oats were dominated by the action of other grain. East-tern demand was said to have improved, and country offerings were light.

Liquidating sales caused a break in January pork, but the remainder of the provision list was firm.

CHICAGO, Jan. 8.—Indications that sales of wheat to go to the seaboard had been larger than was generally supposed, led to higher prices on wheat today, after a weak start. The close was firm at 5-8c to %c net advance, with May \$1.25 and July \$1.18\chikage Corn.

finished %c to 5-8c up, and oats with a gain of %c. In provisions the outcome varied from 12\chikage decline to a rise of 10c.

Bults in wheat were handicapped at first by lower quotations at Liverpool, and by an apparent absence of any adequate purchasing likely to be for Europe. Announcements that two, eastern railroads had lifted embargoes on export traffic in cases where specific some time in a state of unmistakable of the steamers were named did not immediately have a noticeable effect on the market here. On the contrary, schercal selling that included a number of store-loss orders kept prices for some time in a state of unmistakable weeks that the last half of the day, however, the fact developed that sales yesterday here amounted to more than double the total which had been as to subsequent period able to exercise control.

BUSINESS MORTALITY IS LIGHT IN CANADA

Dun's Mercantile Agency reports the number of failures in the Dominion during he past week, in provinces, as compared with those of previous weeks, and corresponding week of last year, as follows:

With the final shipment which has recently been made, the Eastern Car Company, which is a subsidiary of the Nova Scotia Steel and Coal Company, has just completed an order for foreign cars which runs into nearly \$5,000,000. This is said to represent over two and a half times as much as any order which arry company in Canada has ever carried out for foreign account. While most of it, i. is believed, was for the Russian Government, other parts of it, it is understood, were for the allied governments.

DOMINION COAL OUTPUT. It has been announced officially that the output of the mines of the Dominion Ccal Co. in 1915 was approximately 5,000,000 tons. This compares with 4,802,244 in 1914 and 5,307,847 tons in 1913.

CROW'S NEST PROSPECTS GOOD.

Summarizing the year's results of the Crow's Nest Pass Coal Company, for The Financial Post, Elias Rogers, the president, says that the output of coal was about 266,000 tons, "Since Jan. 1, 1915," declares Mr. Rogers, "we have paid off all our indebtedness and have now 2. substantial balance in the bank. All bonds against the subsidiary companies have been paid and there are now no bonds outstanding against any of the companies, and no preferred stock. As far as we can judge, the prospects for the coming year are quite as good if not better than the past year."

WAGON SECTION FRIGID

Many Complaints Made Farmers Who Visited It on Saturday.

POULTRY QUITE SCARCE

Chickens of Choice Quality Sold Up as High as Twenty-Five Cents.

The wagon section of the St. Lawrence Market was only about half-filled on Satcity, and was not fit for a human being to stay in for any length of time. Every-body looked very cold, and many complaints were heard, some of the farmers saying "the city people were trying to make them have to stay away." The basket section was fairly comfortable, with the exception of the spaces near the doors, and its usual overgrowded

condition.

Poultry of all descriptions was scarce, and consequently sold at good prices. Chickens of choice quality brought 22c, 23c and 25c per lb., the poorer ones going as low as 18c per lb. Ducks sold at 20c to 25c per lb.; geese at 18c to 22c per lb., while fowl brought 18c dressed and 16c live weight.

Butter was slightly firmer in price, a small quantity selling at 36c, 87c and 38c per lb., the bulk going at 36c per lb., while some sold at 33c, 32c and 30c per lb.
