MACHINERY MARKET

In its summary of the iron, steel, metal and machinery markets for week ended Aug. 21, Canadian Machinery and Manufacturing News, Toronto, makes the following comment:

Some critics in England consider the money grants to the successful military and naval leaders as a rash misgrace, if not a blunder. Well, what does a half million pounds or so amount to in these days, when wealth is computed in billions?

In spite of embargoes, railway shopmen's strikes, and other strikes and threats of strikes, machine tool dealers and machine shop supply men and steel warehouse men profess themselves well satisfied with the situation. One machine shop supply man stated that the last two weeks were the best he had had this year, although all his business was made up of small orders. This shows that most of the small machine shops are keeping busy. An outstanding feature is the steady demand for material from the automobile trade, while railways are also buying freely, reported last week.

Reports from the United States show that there is a general stiffening of prices in the iron and steel markets, chiefly due to a better demand, but threats of further tie-ups due to various strikes make producers inclined to be conservative. There are so many factors to be taken into account that it is hard to keep track of them. The strike of the ore dockers stopped the movement of ore from Lake Superior, and the railroad car shop workers' strike produced a shortage of cars. Increased wages to railroad workers will bring about higher freight, so it is only natural that producers want to see just what they are heading. Basic pig iron has been sold in England at 165 shillings, considerably higher than the American iron could be delivered there. There is considerable inquiry for export iron and the lowering of freight to Great Britain has enabled some orders to be booked for there.

Steel scrap has weakened somewhat from last week's prices, but it is thought that this is but a temporary condition. The labor situation is again affecting buyers of this grade, and the conditions are generally unsettled.

SACKVILLE CITIZENS
NOT ENTHUSIASTIC OVER
NEW HOSPITAL PROPOSED

Sackville Tribune.—In accordance with the request of the I. O. O. F., the town fathers called a public meeting on Friday night to discuss the question of erecting a hospital in Sackville. Unfortunately there was a heavy downpour of rain during the evening, and consequently, only about half-a-dozen people turned up, the majority of whom belonged to the gentler sex.

Smoking candidly, there doesn't seem

to be very much enthusiasm over the proposition. The generous offer of W. B. Fawcett is appreciated to a certain extent, but there is no apparent disposition on the part of our citizens to emulate his example—at least, not among those who are able to do so.

Thou wilt seem to be whether an effort should be made to lay the foundation of such an institution or wait a more opportune season.

WILSON ASKS THE WORKERS TO WAIT FOR WHILE YET

Economic Conditions Restored Before Large Increases in Wages
DECISION IN SHOPMEN'S CASE

Washington, Aug. 26.—Postponement of the settlement of wage demands until normal economic conditions are restored was announced yesterday by President Wilson as the policy which the administration will pursue in dealing with such questions, particularly those affecting railroad workers.

The president also announced that it was neither wise nor feasible at this time, when the most important question before the country is a return to a normal price level, to attempt to increase freight rates to provide funds for higher wages.

"We ought," he said, "to postpone questions of this sort until we have opportunity for certain calculation as to the relations between wages and the cost of living."

The president declared in a statement to the public explaining his decision as to wages: "It is the duty of every citizen to insist upon a true in such cases until intelligent settlements can be made, and made by peace and effective common counsel. I appeal to my fellow citizens of every employment to co-operate in insisting upon and maintaining such a true."

Mr. Wilson's statement was issued in connection with the decision of himself and Director-General Hines on demands by railroad shopmen for a 26 per cent advance in wages, but the general policy pronounced covers also the wage demands of other hundreds of thousands of railway workers, which are pending before the Federal Mediation Board.

In reply to their demand for a 26 per cent increase the shopmen were asked to accept an adjustment of their pay to the basis of ten hours' pay for eight hours' work, which they contended was given other employees and deducted when the Adams law became effective. This means an advance of the basic pay from 68 cents to 72 cents an hour, whereas an increase of 26 cents to 85 cents an hour was demanded.

LOCAL NEWS

Owing to the disagreeable weather last evening the City Cornet band was unable to give its final concert of the season.

H. W. Patchell addressed a meeting of the West Side G. W. V. A. last evening, outlining the work of the association throughout the summer. Eight new members were initiated last night. P. C. Rourke presided.

According to information received at the local board of trade office a Boston man has been making inquiries concerning the opportunities of opening up a blueberry factory in or near St. John.

Sergeant Harold Hanson, of Fairville, was among the soldiers who returned from overseas last week on the steamer Baltic. Sergeant Hanson brought home with him a charming young English girl. They will make their home with the former's parents.

After two weeks pleasantly spent on the Belleisle, twenty-three girls from the Natural History Society summer camp returned to the city by the steamer Hampton yesterday. Several of the party with Mr. and Mrs. Wm. McIntosh, have remained behind and will start on a rambling tour for the collection of wood specimens for the museum. In the aquatic sports held before the camp broke up Miss Jean Calkin won the junior and Miss Marian Curry the senior event.

The hackmen and taxicab drivers have declared a boycott against the D. A. R. on account of what they claim as unfair treatment in the conditions imposed by the company's officials in the soliciting of passengers. They say that they have been denied the customary place at the back landing and crowded into a small place outside the shed where there is no sufficient room. The superintendent of the C. P. R. bay service says that the action was taken on order of the chief of police. The cabmen declare that such conditions are remedied they will not meet the Digby boat.

FOREMAN NOW TELLS FACTS

Health Failed Ten Years Ago
—All Money in Canada Couldn't, But Good Tanlac Has Done Him.

"I feel ten years younger since I commenced taking Tanlac and I have such a good appetite that I actually have to eat between meals," said John Wright, while talking to a Tanlac representative the other day. Mr. Wright is one of the best known railroad men in Canada, having been in this line of work for about fifty years, at present he is Bridge Foreman for the Grand Trunk Railway with headquarters at Edmonton, and is stopping for a while at the King Edward Hotel in Calgary.

In relating his experience with Tanlac Mr. Wright said, "My trouble began about ten years ago and has been gradually getting worse all the time, and for the past three years my condition has been pretty bad. I suffered from stomach trouble and indigestion in the worst way. What I ate would sour and I would be terribly bloated with gas for hours afterwards. Often this gas would get up into my chest and would make breathing very difficult, and I frequently thought that one of these attacks would finally kill me. I went under treatment by the best specialist in the country, and spent enough money for medicine to start a drug store of my own but I didn't get any relief at all."

"Judging from what I had read and heard about Tanlac I came to the conclusion that it must be a very dependable medicine, so I made up my mind to give it a trial. Now, to make a long story short, I will just say that if I could sell the good Tanlac has done me, there is not enough money in Canada to buy it. My troubles have been completely overcome. I have the best appetite I ever had in my life, and everything I eat agrees with me perfectly. In fact, I am in first class health again, and I feel that Tanlac has added years to my life. I will always be proud to recommend Tanlac everywhere I go for it is the best medicine I have ever seen."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative. (Advt.)

Dr. Rutherford is called upon to procure information upon several points which have been raised by persons arguing for and against the continuance of betting at race courses throughout the Dominion.

H. W. Patchell addressed a meeting of the West Side G. W. V. A. last evening, outlining the work of the association throughout the summer. Eight new members were initiated last night. P. C. Rourke presided.

ROYAL COMMISSION TO LOOK INTO BETTING AT CANADIAN HORSE RACES

Ottawa, Aug. 26.—Dr. I. G. Rutherford, of the Dominion board of railway commissioners has been appointed by the federal government a royal commissioner to conduct an inquiry into conditions pertaining to running race meetings and betting in connection therewith in Canada. His investigation, which was requested by Sir Thomas White in the House of Commons last session, will cover a wide field, and the evidence which he adduces and his report will furnish a base for legislation by parliament.

Dr. Rutherford is called upon to procure information upon several points which have been raised by persons arguing for and against the continuance of betting at race courses throughout the Dominion.

TO RE-OPEN ANTIMONY MINES IN THE SPRING

(Fredericton Gleaner.)
Reports that the antimony mines at Lake George would be in operation again this fall have been generally circulated recently.

While some people in the Lake George district are expecting the re-opening of the mines this fall it was learned today that the present expectation is that the new owners will not start actual work before next spring.

It was further learned that the option which the North America Antimony & Refining Company, Inc. of New York, has taken on the property is being continued, and everything points to the development plans outlined some time ago by Walter F. Dixon of New York, the promoter of the new organization, being finally carried out.

During the next few days it is believed that the Canadian Antimony Co. of which W. T. Chestnut of this city is the president, will conclude arrangements for the transfer of the property to the new company, who are expected to be ready by next spring to commence on the installation of their new plant which will involve an expenditure of upwards of \$250,000, and will give a greater production of ore in addition to providing means for carrying on the refining work.

THE PRAIRIE CROPS.

Winnipeg, Aug. 26.—In its annual estimate of the crop of the three prairie provinces, the Manitoba Free Press yesterday morning published the following figures:—Wheat, 166,225,000 bushels; oats, 208,885,000 bushels; barley, 40,961,088 bushels; rye, 470,000 bushels.
