

STATION AGENT FORCED TO QUIT

"All the Boys at This End of the Line Are Talking About My Recovery," Says Canadian Pacific Man.

"When the boys come by any see me back on the job looking like my old self they always shout back, 'Tanlac' said A. E. Rawley, the popular telegraph operator at Westford Station on the Canadian Pacific Railroad and living at Westfield Beach, New Brunswick, in relating his remarkable experience with the medicine.

"My recovery has not only surprised me," continued Mr. Rawley, "but all the boys on this end of the line are talking about it. Pulling through what I have suffered back into health and strength seems more like work of a miracle than of medicine for I had been spared of living much longer.

"My health suddenly gave way four years ago following a severe attack of grippe, which settled in my stomach. My food would sour causing gas and such a pressure through my chest that I could scarcely breathe. Sharp pains would suddenly strike me in the chest, keeping me in agony for hours, and at night I would have to get up and walk the floor to keep from smothering. One day, about a year after my trouble started, I began vomiting and kept it up almost incessantly for four days, and I thought sure my life would end there.

I had to be carried to a hospital for treatment after which I felt in fair condition for a few years and then another attack came on me with great pains in my stomach and intestines which would last for hours.

"At first these spells came about once a month, then twice a month and then every week and got me down to where I just couldn't work at all. In fact, I lost fifty pounds in weight and had to give up my position as station agent and do nothing, but try to find relief. Then I went to another hospital for treatment, then another, making three in all, but kept getting worse. I had no idea I could live much longer and, of course, had little hope of ever getting any better.

"My case was like that of the drowning man, reaching out for a straw—desperate—and although I had no faith in Tanlac to help me when I saw it advertised I grabbed at it as my last resort. I had tried three hospitals and everything in the way of medicines so I couldn't have much faith in Tanlac, but it's a fact, before my first bottle was gone I noticed a difference in my feelings. It was not long then until the gas stopped forming in my stomach, I had a good appetite, and could eat most anything without it hurting me. Now, to put it all in as few words as possible, I have taken eight bottles of Tanlac and am not only feeling fine, but I have been back twenty pounds of my lost weight. I am now working regularly every day and am still picking up both in weight and strength right along. I attribute my recovery to nothing but Tanlac. To me it is the most wonderful medicine in the world and I will praise it as long as I live."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.

A DISTINGUISHED VISITOR TO CITY

Rev. Monsignor George Joseph Waring, vicar general and chancellor to the bishop of the United States army and navy, was a visitor in St. John over the week-end and celebrated mass at St. Peter's church yesterday morning.

Monsignor Waring was one of the most famous figures of the United States army for more than fifteen years, and held the rank of major. He has been in foreign service with the American expeditionary force and also with the United States army in Cuba. Monsignor Waring is the only chaplain in the American army who has been honored by the Pope with the title of domestic prelate, this having been conferred on him for special work overseas, where he went on a confidential mission with the American assistant secretary of war. He is visiting John McMahon and family, 26 Park Row.

Monsignor Waring motored from New York to St. John with Eugene R. O'Connell, of the New York Sun, recently discharged from the United States army as a major. Mr. O'Connell is a son of Mrs. John O'Connell, who has been visiting for some time with her brother, John McMahon.

The party will leave some time today on their return to New York.

Wonderful Remedy Establishes Regularity, Cures Constipation

As you value life itself, never use medicine that racks the system. Constitiveness is bad enough but violent cathartics are the limit.

When the bowels are constipated and you have stomach trouble and headache, try Dr. Hamilton's Pills; they are so mild you can scarcely feel their action, yet so effective that the entire rectory apparatus is stimulated to healthy action. Dr. Hamilton's Pills move the bowels gently.

They tone the liver and kidneys. They renew the blood. Digestion is assisted. Headaches disappear. Stomach rumblings cease. Bilious turns are prevented.

Dr. Hamilton's Pills are more than a bowel medicine, for they act as a system cleaner and general tonic. For those who feel dull, heavy, and morose, for those who suffer frequently from colds, dizziness, and stomach disorders, there is no better medicine.

You risk nothing in using Dr. Hamilton's Pills because they are guaranteed to cure. Made according to formula of one of the greatest physicians that ever lived, Dr. Hamilton's Pills are bound to give our system just the aid it requires. Sold by all dealers, 25c. per box.

HON. F. J. TWEEDDALE OFFICIALLY OPENS FREDERICTON FAIR

Says New Brunswick Potatoes Will Find Big Market in United States, Thus Helping in Relieving Unfavorable Trade Balance—Production Should be Slogan of All Governments.

Fredericton, N.B., Sept. 13.—The Fredericton exhibition of 1919, the final descendant of the Fredericton exhibition of 1868, the first held here under permanent organization, was officially declared open by Hon. F. J. Tweeddale, minister of agriculture for New Brunswick, Saturday night. The attendance of spectators was not large, but as Monday will be the real first day of the fair, the attendance then will indicate the patronage which the exhibition will receive.

The selection of the minister of agriculture as the speaker upon the occasion of the opening was particularly appropriate as the Fredericton exhibition from earliest days has laid particular stress upon the agricultural and livestock features and the fair of 1919 will ably sustain the reputation earned in previous years and will also indicate to no slight degree the advancement in things agricultural, which has taken place in this province under the present administration.

The speaker of the evening was introduced by William McKay, president of Agricultural Society, No. 84, which conducts the fair.

Hon. Mr. Tweeddale in his introductory remarks expressed regret on account of the inability of the lieutenant-governor or the premier to be present.

The agricultural features of the exhibition should call to the minds of all the fact that farming and stock-raising together formed the basic industry of Canada, as statistics showed that their products exceeded in value those of the Dominion's three other great natural resources—forests, fisheries and mines. Agriculture differed in one important particular from the other three natural resources. Minerals, forest-growth and sea-foods all existed and awaited the hand of the toiler to make them available, but the products of the soil were created. They were produced by intelligent cultivation which accompanied the control of the elements by a benign Providence. From being a menial occupation farming had come to be regarded as a business demanding constant application and a highly specialized knowledge.

Hon. Mr. Tweeddale went on to say that Canada was in a period of false prosperity. Money was plentiful but it came largely from borrowings. The country was in the position of a mortgagor living upon the proceeds of his mortgage. The balance of trade against Canada in the United States and the resulting discount of Canadian money were indications of the position of the Dominion.

He had feared an embargo against New Brunswick potatoes going to the American market but a recent survey of conditions in the United States had shown that crop failure in some of the large potato-producing states would make the supply in the republic to the south insufficient to meet the demand and the cost of living problem would make it impossible to shut out Canadian potatoes. The money paid in the United States for potatoes from Canada would aid in restoring the balance of trade.

The minister reviewed the activities of the provincial department of agriculture, in 1918, when it appeared problematical how much longer the war would last, a special appeal for increased production was made in order to permit Canada to export to Europe as great a quantity of wheat as possible. A conference of all provinces was held at Ottawa and the campaign planned. The provincial department was assisted by the municipalities and favored by a Divine Providence with the result that one million bushels of wheat was raised in New Brunswick in 1918. To encourage continuance in wheat raising the minister had substantial increase made in the bonuses for flour mills and by next year six new and modern equipped mills would be in operation in the province.

To aid in the reduction of the cost of meat and woollen clothing a campaign was started to place sheep on every hillside. The provincial government gave first line of credit to farmers to establish flocks of sheep. The general result of the campaign was that today New Brunswick was carrying ten thousand more sheep than it was three years ago but what was wanted was a continuation of the increase in sheep until they would be exported by the railroads and not the carload. There was good prospect that such would take place.

Dairying also had shown marked improvement. The standard New Brunswick cheese had been brought up to that of the Ontario product and an equal price was being paid for it. Fruit has been the most abundant crop in several years. The production of honey had increased more than one hundred per cent under skillful departmental management.

The chief feature of the exhibition grounds this year is the new concrete building which is devoted to transportation and poultry. The occupation of this structure makes it possible to give additional space to agricultural and horticultural exhibits.

As with all fairs there is an eleventh hour rush to complete stalls, booths, and so on, but by Monday everything will be in readiness. The midway and amusement attractions are coming from Truro (N. S.). The livestock arrived Saturday night and has been allotted to its stalls. The poultry section of the exhibition will be particularly large.

Racing Programme

The Fredericton Park Association announces the card for the four day exhibition harness meet next week. For eleven races there is a total of one hundred and nineteen entries which include all the fastest horses which have been racing in the maritime provinces and eastern Maine this season.

The programme of races with number of entries is as follows:
Tuesday, 2:30 trot and pace, Citizens' purse \$400, sixteen entries; 2:16 trot and pace, purse \$400, twelve entries; 2:14 trot and pace, purse \$400, ten entries.
Wednesday, 2:15 trot, purse \$400, eight entries. Free-for-all, purse \$400, five entries. John A. Hal, Peter Parren, White Sox, Fern Hal, Thomas Earle.

Brick or Wood? High Mileage or Low Price?

Large factories and office buildings are built of brick or concrete—not wood.

Although wood is cheaper.

Because fifteen years from now the brick or concrete building will be good—but a wooden one would need rebuilding.

Apply that to tires.

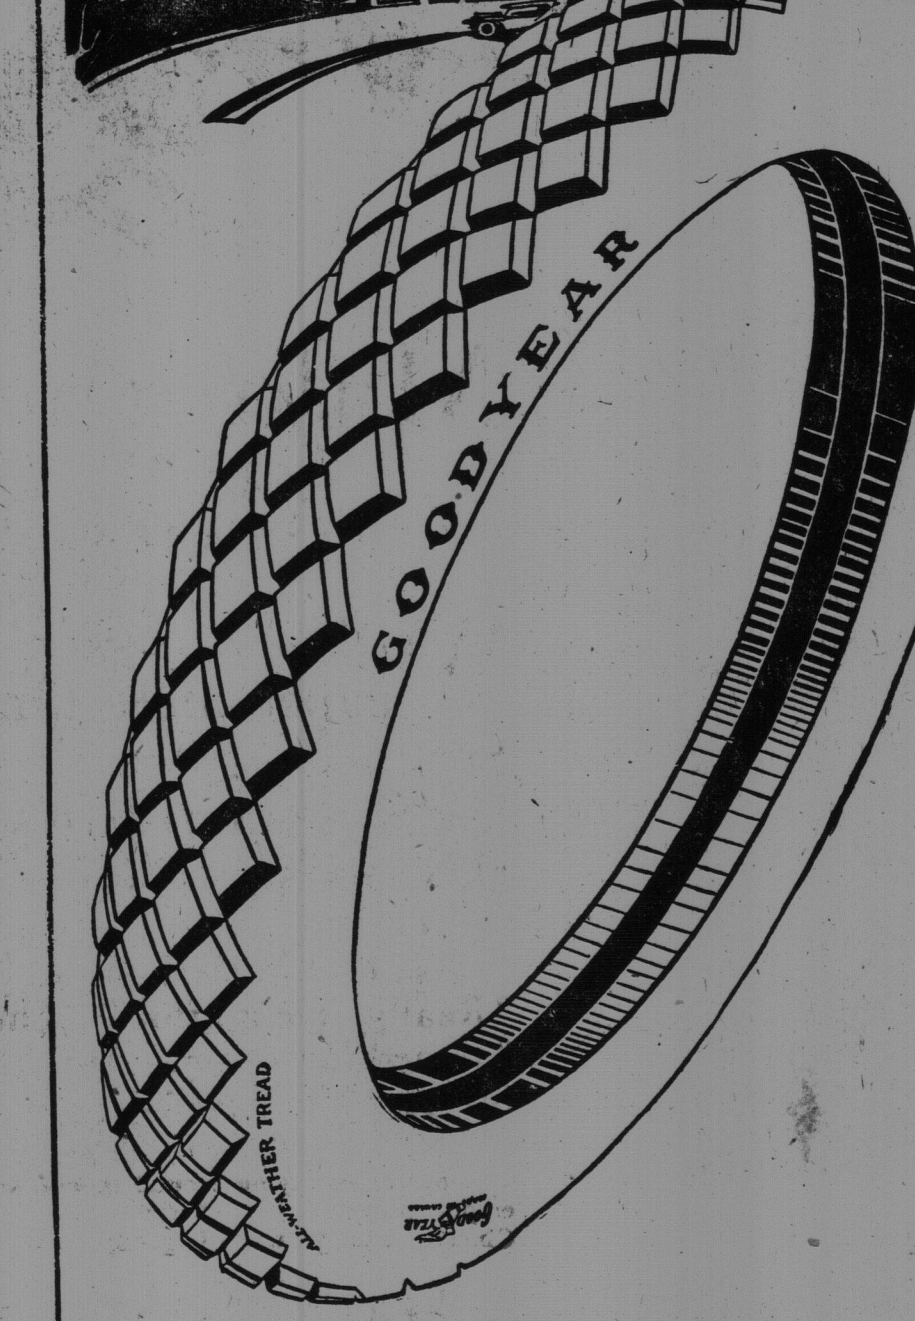

To-day you are offered a Goodyear Tire and a lower-priced tire.

What will they be like six months from now? Will you need a new tire?

Enough motorists have made this test to make Goodyear Tires the largest selling brand in the world.

Enough motorists in your district have talked about it to make a very interesting story for the Goodyear Service Station Dealer to tell you.

The Goodyear Tire & Rubber Co.
of Canada, Limited

GOODYEAR MADE IN CANADA

SOX, FERN HAL, THOMAS EARLE

Thursday, 2:15 trot and pace, purse \$400, seven entries; 2:25 trot and pace, purse \$400, fifteen entries; 2:25 trot, Barter House purse \$400, fifteen entries.
Friday, 2:30 trot and pace, Exhibition stakes \$400, ten entries; 2:30 trot, purse \$400, thirteen entries.
Named race, eight entries.

FIRE PREVENTION DAY LIKELY TO BE OBSERVED

An extra of the Canada Gazette received in the city yesterday contains a proclamation from the governor-general in council setting Thursday, October 9, as a Dominion wide "Fire prevention" day, recommending a careful inspection of their premises by property owners and house holders and the calling of a public meeting by the municipal authorities for the purpose of creating interest in the exercising of greater care and doing away with likely conditions that lead to fires. Instruction is also to be given in the public schools. White no word up to last night has yet officially reached the mayor and the county warden, it is very likely that as soon as the proclamation is delivered in today's mails the matter will immediately be taken up and the public meeting called.

This action is based on a movement to cut down the fire losses in Canada which, as shown by statistics, reach annually an average of \$20,000,000; the loss for 1918 was in excess of \$30,000,000. In addition to the loss to property through fires there is a large amount of unappraised loss from forest fires which the proclamation says "threatens to greatly impair, if not entirely destroy, our heritage of forest wealth."

NOTABLE PEOPLE ON STEAMSHIPS AT HALIFAX

Halifax, N. S., Sept. 15.—The first of two troopships to enter the harbor yesterday was the Cunard liner Orduna, which left Liverpool at five o'clock on the afternoon of Sept. 6, with 750 passengers, of whom 800 were dependents and 450 returned soldiers. She was followed by the Minnekahda with 2500 troops and practically no civilians. Both steamers went on to New York.

PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. Get a box at dealers, or Edmundson, Hays & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 10c stamp to pay postage.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound is Prepared For Woman's Use.

MEMORIAL PLAQUE AND SCROLL TO KIN OF FALLEN HEROES

Ottawa, Sept. 13.—The scroll which by the British government to the next of kin of those who have fallen in the war, will soon be distributed in Canada by the department of militia and defence. It has been found impossible to issue the plaque at the same time as the scroll, owing to the necessity of building a special factory for its manufacture.

THE HIGH COST OF DENTISTRY

Is a Thing of the Past at the Maritime Dental Parlors. You can get good, safe, reliable work, best of materials and the services of expert dentists for one-half, and even less, than the ordinary charges.

THE MAKING OF A FAMOUS MEDICINE

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills.
