MOSQUITO PROBLEM EASY.

No Excuse for Their Presence Anywhere, Says Sir William Wilcocks.

Washington, May 4.—Members of the House Rivers and Harbors Committee are interested in the testimony of Sir William Wilcocks, an English engineer who built the Assuan Dam on the Nile, in which he told how the problem of the malarial mosquito along the Suez Canal had been solved. He testified before the committee that "at Khartoum, where the boats brought down the worst mosquitoes in the world, the drainage is so good there that we find a man twelve shillings for every mosquito seen on his place."

Sir William contended that there was no excuse for the prevalence of mosquitoes anywhere. The people along the Suez canal, he said, wrestled with the malarial mosquito until British engineers provided modern drainage and disciplined those who tolerated mosquitoes on their premises.

Discussing the Mississippi River situation, Sir William declared that no dyke should be less than twenty-five feet wide at the top, though he had noticed some in America less than eight feet wide.

Birds Lost in Fog.

St. Thomas, May 4.—During a dense fog, over Lake Erie, many land birds

which had lost their bearings, alighted on Port Stanley fishing tugs several miles from land and remained until the boats reached the pier.

Among the birds were pigeons, bats, sparrows and one canary, which perched on the ship's compass of the Elgin E. and remained there until the boat tied up at her wharf.

DR. A. W. CHASE'S CATARRH POWDER 25c.

is sent direct to the diseased part by the Improved Blower. Heals the inflamed, cleans the air passages, stops droppings in the throat and permanently cures Catarrh, Hay Fever, Croup, Croup, Whooping Cough, Sore Throat, Stomach, Duodenal & Bowel Disorders.

BOARD OF TRADE SENDS LETTERS TO OTTAWA MEMBERS

Asks For Justice — Wants Same Treatment and Same Opportunity as Other Ports—Must be no Discrimination

Circulars asking for a joint consideration of the claims of St. John to a share in the handling of the Atlantic mail contract were mailed out to members of parliament and of the senate on Saturday by the board of trade. While statistical information was withheld from the circular, pending the receipt of the record kept by the postmaster-general, reference was made to this in the letter and the recommendation made that the parliamentarians should seek the information themselves.

Want Justice.

The circular read as follows:

St. John, N. B., April 30, 1914.

Dear Sir:

In re English Mail Contract.

This matter is now under the consideration of the government of Canada, and this board is desirous that in the framing of the new contract all ports in the maritime provinces capable of performing the service should stand on an equal footing. There should be no unfair discrimination as between Halifax and St. John, since both are Canadian ports and both possess the required facilities.

While the ocean distance to Halifax is slightly shorter than the ocean distance to be traversed to St. John, the land haul from St. John to interior points in Canada is very much shorter. The actual rail haul from St. John to Montreal by the C. P. R. is 488 miles, and the rail haul from Halifax to Montreal by I. C. R. is 586 miles. By I. C. R. and C. P. R. via St. John the distance from Halifax to Montreal is 758 miles. While on two occasions during the past winter there were slight delays in landing mails at St. John, due to controllable causes, there is a greater liability to delay in forwarding mails from Halifax via the I. C. R., as it is a well known fact that trains on the northern division are frequently detained for many hours by heavy snowstorms.

Through the instrumentality of the St. John Board of Trade, routing of English mail letters from St. John to Montreal via the longer I. C. R. route was stopped this winter, and such letters were forwarded to destination by the shorter C. P. R. route, enabling the receivers to get them several hours earlier than if the I. C. R. routing had been adhered to, a fact which ought to count in favor of this port.

An excellent opportunity for a comparison of the mailing advantages of the two ports was given during the past winter. The steamer Letitia, a one class boat, sailed from Glasgow Feb. 28, at 6 p. m., for St. John, arriving at her destination Monday, March 9, at 8 p. m. Her mails were in the St. John post office and ready for delivery at 8.30 o'clock the same day. The steamer Hesperian, a faster steamer than the Letitia, sailed from Liverpool Feb. 28, at the same time as the Letitia, and was docked at Halifax at 11 p. m. March 8, having covered the shorter voyage to Halifax in fifteen hours less than did the Letitia to St. John. The Hesperian mails, forwarded by rail over the I. C. R. to St. John, were one hour and forty minutes behind those of the Letitia. Taking the ocean time of the two vessels, had both covered the same ocean distance, the mails via St. John would have reached Montreal five or six hours earlier than the mails via Halifax and the I. C. R.

While comparisons such as the above are easily obtainable, our special purpose in quoting the above has been to demonstrate the right of the port of St. John to fair and equitable treatment.

While on this point, let me quote the following from the manager of the traffic department of the board of trade of the city of Toronto, under date Feb. 21, 1914:

"The only real test of the two ports is the results from the service. We have been making some tests of the service, both eastbound and westbound, and from the records we have been able to come to the conclusion that there is very little difference in time between the two ports so far as St. John is concerned."

(Signed) "T. MARSHALL."

The board has endeavored to secure from the postmaster-general a statement to date of the time occupied in transiting the mails from the United Kingdom.

"Manager."

YOU NEED MEDICINE AT THIS TIME

Everybody is more or less troubled at this season with loss of vitality, failure of appetite, that tired feeling, or with bilious turns, dull headaches, indigestion and other stomach troubles, or with pimples and other eruptions on the face and body. The reason is that the blood is impure and impoverished.

Hood's Sarsaparilla relieves all these ailments. Ask your druggist for this medicine and get it today. Nothing else acts like it. Get Hood's.

dom to Montreal, Canada, via the ports of St. John and Halifax, respectively, during the present season, but the information has not yet been supplied. As the postmaster-general agreed to keep complete records of the time expiring on English mails delivered in Montreal through the port of St. John and the same for Halifax, it may be possible for members of parliament and of the senate to secure this information.

The board has in process of compilation, statistics showing the actual mail results as between St. John and Halifax during the past winter, but owing to delay in obtaining the statement above mentioned from the postmaster-general, the compilation is incomplete and will have to be forwarded later on.

Meanwhile, this board would ask that fair and equitable consideration be given to the port of St. John, in connection with the ocean mail service. We ask for nothing more than we are willing to concede to other maritime province ports. We will be satisfied with nothing less.

Sincerely yours,

R. E. ARMSTRONG,

Secretary Board of Trade.

J. M. ROBINSON, President.

JACKSONVILLE ELDER

Writes Characteristic Letter Regarding Loss of Appetite

He says:

"Vino! is just the thing.

For summer, winter, fall or spring.

Follow directions, take it right.

It will save your lagging appetite.

"I know for I have tried it. For

weeks I could scarcely eat enough to

keep a snake alive. I have taken three

bottles of Vinal and now it looks like I

will eat my head off. I am at the ta-

table times a day eating as I did in the

good old days when I split rails, dug

well, topped trees, plowed corn and

hood cotton. Try Vinal, and see how

good it feels to be real hungry."

When you ought to be hungry and

are not it is because your stomach does

not feel strong enough to ask for food—

no sign of improved general health

Better than dosing the stomach with

peppin for temporary relief is taking Vi-

nal, which is a tonic, which has the

strengthening and blood-making power

of iron, and the building-up value of

cod liver oil. It quickly restores appetite

and perfect digestion. If Vinal does not

help you it costs you nothing. Wasson's

drug stores.

MORNING NEWS OVER THE WIRE

Duncan McMartin, aged forty-five

years, millionaire mine-owner of Ontario

died yesterday in Montreal.

An agitation is current in Woodstock,

N. B., to set the town time one hour

ahead for the summer months.

Rev. Sylvester Horns, M. P., for Ips-

wich, Eng., while nearing Toronto, where

he was to deliver an address before the

annual meeting of the Niagara steam-

ers' association, was killed by a train

on the deck of the Niagara steamer

"Carona," dropping at the feet of his

wife, who stood beside him. He had

been delivering a series of lectures be-

fore Yale University, and was to have

speaked in Montreal and Toronto. His

wife will take his body home to Eng-

land for burial.

GRAY HAIR A HANDICAP

Tendency of Modern Business is to

Favor the Young Men

This is the young man's age. Every-

where you find the big jobs in the hands

of the young men. The appearance of age

discredits your ability. Youth and ef-

iciency are first cousins in the eyes of

business men.

Don't let a few gray hairs spoil your

chances when it is so easy to prevent or

cure them.

Hay's Hair Restorer restores the natu-

ral color to gray hair and no one will

know you use it.

It is not a dye. It is a hair tonic that

rejuvenates the hair roots, and the

scalp, supplies new nourishment, a new

lease of life for your hair, thus bringing

back its natural color and luxuriance.

It is a hair tonic that does this. Your

money will be refunded if it fails after a

fair trial.

Get it at our store.

EXPLOSION IN OTTAWA BURNED SEVERAL PEOPLE

Ottawa, May 3.—Without a moment's warning a terrific explosion of a pall, filled with chemicals, occurred this afternoon in front of the residence of J. D. Mouge, corner of Centre and Ralph streets, and two men, four boys and an elderly lady were trapped in a mass of flames and smoke.

The pall had been carried from a private laboratory a few moments before the chemicals exploded with a terrific crash. District Fire Chief Burnett carried it downstairs, not realising the danger he was in, and placed it on the lawn, where a crowd collected.

Between 250 and 300 persons were standing about the corner when the chemicals exploded with a terrific crash, which could be heard for nearly half a mile. Ward Lester, son of W. H. Lester, 127 Second avenue, and little William Murray, son of F. W. Murray, druggist, were standing within a short distance of the pall when the flames and smoke enveloped them. Nearly a dozen men, including those among the injured, were stunned and their clothes caught fire.

The clothing of Lester, Murray and young Gordon Maher was in flames when the smoke cleared, and but for the promptness of bystanders and the firemen in smothering the flames they would have been fatally burned. As it likely has been fatally burned. As it likely has been fatally burned. As it likely has been fatally burned.

Found Dead in Bed.

Hugh Galloway, nearly eighty years of age, was found dead in bed on Saturday morning in a house in the Golden Grove road, where he had been employed. Coroner Roberts was notified, but on investigating, decided that no public inquiry would be necessary.

DANIEL'S Smart Styles in Summer Wash Dresses

An Advance Showing of the Very Newest Designs and Materials for the Coming Season

CHIC COAT SUITS of Ratine and fancy Brocades or Linen in the most up to date Spring colorings.

NEW "TANGO" CREPE DRESSES in smart one piece, or Coatee styles, trimmed with touch of contrasting color in Collar, and with crush silk girdle and fancy buttons. Colors: Saxe, Tango, Rose and Helio.
