Have You Realized This?

Dear John: Of course I know that you would not expect your loved ones to live on only \$60.00 a year. We would have to sell the home; and after the mortgage was satisfied we would have only \$1,000! Invested at 6 per cent., this means an income of only \$5.00 a month — and without a home! THINK! Get

The pageant of life marches without a break, birth to death and beyond, and birth again, the generations endlessly touching mystical hands, until the individual feels himself to be part of an endless procession that passes for a moment into a white light and out again, feels himself touching those who came before and those who come after—one of a long line, bound together irrevocably.

bread. And, this being so, why shouldn't we eat the best?

There is no reason except that frequently our housekeepers are not particular to buy the best quality of bread flour.

But we think they are getting wiser on this point. The standard in loat bread quality in St. John today is higher than it used to be, and the change is due to the introduction of "Regal" flour.

Not all the people, however, are as yet using "Regal." But they will be soon. When they are, then all the bread in St. John will be the best obtainable anywhere. It cannot be otherwise if everybody is using "Regal."
