Correctly numbered and Warranted Full

Length and Weight.

W. E. would ask the purchasers of Cotton Warp to remember that our Yarn is spun on Thros-tle Frames, which make a stronger yarn than the Ring Frames, used in making American yarn. It is also better twisted and more carefullly reel-ed; each hank being tied up in 7 leas of 120, yards each. This makes it much more easy to wind than when it is pu' up without leas—as the American is—and also saves a great deal of waste.

Those acquainted with weaving will understand the creat advantage it is to them to use yarn put up in this manner.

COTTON CARPET WARP, Made of No. 10 Yarn, 4-Ply Twis WHITE, RED BROWN, SLATE, &c. All fast colors.

Each 5 lb bundle contains 16,000 yards in length and will make a length of Carpet in proportion to the number of ends in width.

We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the control.
