

Deceased, now states -

I had been taking treatment for
dyspepsia & was unable to keep much
on my stomach before the 15th. On the
15th I had hardly anything to eat
& went on duty in the evening. I had
nothing to drink & remember nothing
until next morning.

Examination -

I felt extremely nervous before
going on duty but felt I could carry
out my duties. I ~~remember~~ look-
ing at my watch about 2.45 hrs & remember
nothing at that time.

I had nothing to drink on the
15th & only a drink of beer & a pint of
beer.

By the Court

I was resting all afternoon on
the 15th. I took nothing all day to settle
my stomach.
When I went to sleep M.O. in the morning
of the 15th he told me to go away until I
was better. I have seen M.O. in the morning of
the 16th & felt worse then on the morning
of the 15th.
