MANITOBA.

There will be a small majority for pro-hibition there.

Lisgar has gone overwhelmingly pro-hibition. 80 per cent, of the vote cast being in its favor. The vote in Selkirk constituency indicates a good majority for prohibition.

Returns from Brandon constituency also show a large majority for prohibition. Brandon city gave 343 for and 95 against. The majority is estimated

In the Northwest Territories only moints adjacent to the railway have been been from. All give majorities for pro-

hibition, but complete returns cannot be expected for two or three days.

NANAIMO NOTES.

Nanaimo has awarded a contract for one thousand feet of fire hose and will

But a Small Majority in Favor of Prohibition-Some Interesting Features.

Ontario's Change of Sentiment -British Columbia Favors the Proposal.

The total vote registered in Victoria on the question of prohibition was 2,050. At four o'clock, the hour when the Times went to press, it was anticipated that if the ordinary experience at elections held good yesterday and there was a crowding to the polls during the last hour the total vote would exceed that cast in the provincial election. But the ordinary experience did not occur yesterday, for the number of votes cast between four and five was very small indeed. This was due largely to the fact that the opinion was general that the polls closed at four. As fore-told in the Times the majority against prohibition was a fairly large one, a very large one when the result in other cities in the province is taken into con-

sideration.

Immediately upon the closing of the polls the count was proceeded with at the nine tables simultaneously and the result was known within an hour. The arrangements throughout were excellent and Returning Officer H. A. Munn de-serves credit for the dispatch which marked the registering and counting of

In the district, Cedar Hill and Met-chosin are the only two places which went for prohibition. Esquimalt register-

went for prohibition. Esquimalt registering a very strong anti-opinion, the figures being 80 against and 35 for.

There was considerable interest displayed in the result in the city and crowds watched the various bulletin boards during the evening. There was an attempt at a procession, the band playing on some of the principal streets and a crowd of small boys parading behind carrying new brooms and torches, but as a demonstration the thing was only a burlesque. All the saloons and hotel bars were kept closed until the bars were kept closed until the midnight hour, when some few opened up for the night trade. In the music halls the usual performances were given but no intoxicants were sold, in fact Victoria was a strictly prohibition town for the whole twenty-four hours between midnight of Wednesday until 12 o'clock

There was a strong feeling of disappointment among the friends of the pro-hibition cause, Victoria's stand as compared with that of Vancouver furnishing ground for much sincere regret for those who have worked so hard to se-cure a result favorable to the introduction of prohibitive legislation.

Following are the figures in the dis-

112 against and 1 spoiled and 4 rejected. Toronto. Sept. 29.-It is not too much

Awarded fiighest Honors-World's Fair. Gold Medal, Midwinter Fair.

A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD. to say that the prohibitionists of Toronto, in fact of Ontario generally, received a severe set-back by the result in this province and particularly in this city, by to-day's voting. It has been confidently predicted that the result of 1894, when a majority in favor of prohibition of 2,500 was given in this city, and of 80,000 in the province, would be sustained at least and probably in: and of 80,000 in the province, would be sustained at least, and probably improved upon. It would seem, however, that the business interests of the larger communities have been aroused to the commercial risks of a prohibitory law, and it is a remerkable fact that only one city in Ontario, namely, Brantford, has on this occasion given a majority in favor of prohibition.

The 1804 12 extractor of Operation gave a collective many control of the series of the larger was a collective many and Queen's.

NOVA SCOTIA.

In 1894 13 cities of Ontario gave a majority in favor of prohibition amounting to about 8,400. To-day the same cities gave a majority against prohibition of 8,200. Toronto contributing 3,250 to that figure.

The Maritime provinces have gone overwhelmingly in favor of prohibition, the majorities in New Brunswick and Nova Scotia being very large. Quebec offsets this pretty well with a majority of 30,000 against.

Ontario's estimated majority against prohibiton is from 5,000 to 10,000, but returns are still very meagre from many localities, and this is not very certain. It is thought that when the West has been heard from the net result will leave a balance in favor of prohibition of something less than 10,000. But this fig-are may be increased to 20,000.

The anti-prohibitionists are very well satisfied with the result, but the leaders of the prohibition party speak very hope-fully, and say that this is but the beginning of the battle which must be waged till they win. There was no speechmaking by either side. St. John. Sept. 29.—Returns up to 10 o'clock give a majority of over 15.000 for prohibition in the province of New

Brunswick. Halifax, Sept. 29.—Nova Scotia pro-vince goes 17,759 for prohibition.

Absolutely Impossible for the Government to Force Any Federal Law.

..... 1,685 219 The Most Interesting Features of the Vote-Some Eastern Press Opinions.

Ottawa, Sept. 30.-"A black eye for prohibition," is Mr. Blair's summing up of yestenday's plebiscite. The Free Press says: "The adverse majority in the province of Quebec alone is such as would make it absolutely impossible for the government to force any federal law to compel the destruction of the liquor interests. As one gentlemon in the council of the land remarked, 'It would simply mean Quebec's withdrawal from confederation. The province has ever Winnipeg, Sept. 29.—Returns from all parts of Manitoba up to midnight indicate that prohibition will carry in the province by about ten thousand majority. As compared with the Manitoba vote at the general election of 1896 the total vote shows a large decrease, the "antis" at many points abstaining from voting almost entirely and the prohibitionists. stood for the maintenance of individual rights. It was so when the land was rights. It was so when the land was stricken by the agitation on the Manitoba school question. It was so at an earlier day in the history of Canada, at the time of the rebellion, and it holds good to-day." This is taken here to indicate the opinion of the secretary of state, the father of the Scott act.

Toronto, Sept 30.—One of the most interesting features of the vote was the

at many points abstaining from voting almost entirely, and the prohibitionists vote is smaller than had been expected. In Wimingeg the total vote was 1,451 for and 1923 against, a majority of 528. The election here passed off quietly and without any special incident. In Macdonald constituency Portage la Prairie gave a majority of 202. The vote was very light at other points. The constituency will give over 3,000 majority for prohibition.

Marquette polls heard from up to midnight give prohibition a majority of 800, but many are yet to be heard from. Birtle gave 61 for and 1 against.

Proveneher returns are very meagre owing to the distances from the railway. There will be a small majority for proteresting features of the vote was the different attitude of the cities of Ontario different attitude of the c ties of Ontario from that taken in the provincial plebiscite in 1894. Four years ago they gave a majority for prohibition of 8,246. Yestenday they gave a total majority, against prohibition of 8,160. The following table shows the results of the In cases where the full figures are not to hand the majority for or against is

THE OTHER SIDE.

What Chinese Merchants Have to Say About the Alleged Conflict in Victoria's Little China.

There are two sides to every question and some of the merchants of China-town think that the report in the Times last evening of strife in the Chinese quarter, while undoubtedly possessing a substratum of fact, gave an impression which they think is calculated to do harm. In justice to them and because the facts of the case as detailed by them deserve to be made known it should be stated that the Chee Kung Tong society is in Chinese what the Masonic order is in English. It numbers among its members all classes of Chinese; it is purely fraternal, is not confined to any particular clique or section and is certainly not a highbinder society.

There are at present in Victoria a larger number of Chinese than usual owing to the shutting down of the canneries, and to the fact that many New Westminster Chinese have been driven.

Westminster Chinese have been driven by the fire to take up their home in this city. Times are none too prosperous among the Chinese just now owing to the failure of the fishing season, and it is possible that unless the poorer men observe the principles of thrift and carefulness they may feel the pinch of poverty before the season is over. Realizing this, the members of the Chee Kung Tong, in the exercise of what they consider their duty to their less provident brethren, have held several meetings and attempted to persuade their weaker friends from wasting their whetere is relative living. But the their weaker friends from wasting the'r substance in riotous living. But the leading members deny that they have proposed to levy blackmail and also that anything in the shape of a conflict has resulted. One of them told a Times reporter to the that in the first place this is no quarrel between the Sam Yups and See Yups at all, as stated by the morning paper; the Chee Kung Tong includes members of both; and it is not an attempt to levy blackmail for the purposes of any society. It is merely the outcome of the desire of the more reasonable Chinese to assist the'r less the morning paper; the Chee Kung Tong includes members of both; and it is not an attempt to levy blackmail for the purposes of any society. It is merely the outcome of the desire of the more reasonable Chinese to assist their less fortunate countrymen from unnecessarily feeling the distress and poverty likely to result from habits of extravagance at the gaming table; a work, in fact, which is similar to that of all societies having for their object, the increase of the third that of the country the country that 60 days after date I intend to make application to the Honorable Works for permission to purchase 180 works for permission to permission to permission to purchase 180 works for permission to purcha thrift and providence.

Care of the Complexion.

It is a well-known fact that a torpid It is a well-known fact that a torpid liver produces a sallow hue and a dull, yellow complexion. You need not expect a clear, beautiful complexion if the blood is rendered impure by a sluggish action of the liver, which cannot properly perform its function of purifying and filtering all impurities of the blood. Lodies, Dr. Chase's Kidney Pills is an invaluable remedy, for by their action on the liver and blood they promote true beauty by rendering the blood pure. This is the secret.

DAWSONITES WILL SUFFER.

Notice is hereby given that two months after date I intend to apply to the Chief Commissioner of Lands and Works to purchase one hundred and sixty acres, more or less, of land situate in the District of Cassiar, province of Brit'sh Columbia, described as follows: Commencing at a post marked as follows: Commencing at a post marked

San Francisco, Sept. 30.—The steamer Leclanawa arrived from St. Michaels today with nearly 150 passergers, many of whom are miners. It is impossible to estimate the amount of gold drafts brought down by the passengers, as most of them refuse to state their wealth. The miners complain bitterly against allevel over-charges on the part of Canadian officials, the 10 per cent. clause being the chief bone of contention. The miners say there will be much suffering at Dawson this winter.

Island a close second. Winnipeg, Sept. 30.—Returns of the pleb'scite from central divisions in Maniples of the pleb'scite from central divisions in Manipeles of the pleb'scite from central divisions in Manipel
