ANTS HUNTED
NDON STREETS

Some Cause Big Sensation
Strand's Crowded
Thoroughfare.

(Special Cable.)

London, Oct. 14.—
Even for elephant hunt-
ing, the necessary to travel to the
Zambesi, for last night
men enjoyed half an hour's
sing in the Strand.

Unity was afforded by the
the Lyceum Theatre, at
which a troupe of performing
was billed to appear.
ers of the troupe, named
and Delhi respectively,
on elephants, each about
eight.

The comedians arrived from
train yesterday, and pro-
Lyceum in the most ap-
parent fashion, each animal
tail of its predecessor
hauled trunk.

arrived outside the Ly-
ceum, had to endure the
wait. The stage was not
open. Around them, ragged
and turned. The artists
the animals rebelled. In
Mr. Kipling, they "went

the way up Exeter street,
comrades followed. Their
a tail of a hundred
ys, followed half a
proved a cul-de-sac, and
doubled, scattering their
and left. They turned
Tavistock street, and the
ring like a snowball, pur-

rela. Their keeper, was
the performance. In train
gold-faced riding breech-
half-dressed from the
seeing the alarm. When
the excitement of
healed at once, and after
they allowed themselves
their stables in Bedford

F WHALES
KED EVERY DAY

said to be Rich in Nutri-
ve and Medicinal
Qualities.

(Special Cable.)

Nid., Oct. 14.—Professor
his city, who was the first
over that whale flesh could
for eating, has now suc-
cessfully domesticated a herd of more
aliphur cow whales, and has
an apparatus for milking

is fresh and sweet, and pe-
in nutritive and medicinal
the yield from a full-grown
five to seven hogheads
is much thicker and richer
st cow's milk, and possesses
pleasant and distinctive

in those who have tasted it
superior to any known milk.
analysis has shown that the
sulphur whale is rich in
its which give to cod liver
as a remedial food.

Muller has invented a
process for making leather
ternal membranes of the
en tanned and finished, it
durability and fine tex-

superior quality, the whale
shes single pieces of much
reasons than it is possible
from any other animal. It
according to the inventor,
in the skin of a full-grown
a strip of leather about
length, and three and a half
width. From the pleural
be of leather twenty-five
eter can be obtained.

IN ICE HOLES
MOUNTAIN PEAK

er Sufferings Endured by
ers at an Altitude of
12,000 Feet.

(Special Cable.)

Paris, Oct. 14.—
of four persons was
the Rosa, and an expedition
lined them from the Italian
agna. In the province of No-

urday.
March of twenty-four hours
party came across the head
guide named Laurent, a
d yards further on they
