One Hundred Dollars in Gold.

It is not often that farmers and farm er's wives, or people generally who keep hers, have an opportunity to make from ten to fifty dollars in eight week's time, besides increasing the number of eggs from their hens from two to five hundred per cent: But like fourth of July it does come once a year, and now is the time. For three years, 1. S. Johnson & Co. 22 Custom House Street, Boston, Mass., have offered several premiums payable in gold coin for the best results from the use of Sheridan's Powder to make hens lay. These premiums have become so popular among people who keep hens, that Johnson & Co. offer still larger premiums this year. They hereby authorise us to say that they will pay one 'undred dollars in gold coin, in four separ te premiums, for the four best results from eight week's trial of Sheridan's Powder to make hens

lay. The premiums are as follows: Fifty dollars for first best result; Twentyfive dollars for the second; Fifteen dollars for third, and ten dellars for fourth best Of course every person who compete cannot get a premium, but the following

letter from a party who took only a small premium last year, shows that every one can make money by the use of Sheri-dan's Powder, from the increase of eggs alone, even if they do not get a premium. Evansville, Vt.
I. S. Johnson & Co. —I was happil disappointed at receiving the \$6.00 pre-mium. I got well paid for the \$1.20 I spent for Sheridan's Powder in increase of eggs from eight has, more than I should have got if I had not ted the Powder. I am well satisfied.
