riage to be used on Saturday to convey the queen's body in the funeral procession will have rubber tires on the wheels, says the Tribune's London correspondent. This unusual detail was arranged in accordance with the definitely expressed wishes of the queen. It is considered by those high in authority as due to the queen's painful reminiscences of the funeral of the Duke of Wellington, when the wheels of the gun carriage went bumping along the pavement and caused her to shudder. Spectators with sensitive nerves will be spared on Saturday a similar experience.

COPENHAGEN, Jan. 31.-The ac cession of the daughter of the King of Denmark to the position of Queen of England will affect the future of Prince Charles of Denmark, who, like his wife, prefers to reside in England. Prince Charles has long desired to enter the British navy. His grandfather the King of Denmark, has consented but his father, the crown prince, has objected. Members of King Edward's suite tell their friends that His Majesty appears overwhelmed by the sense of the responsibilities of kingship. THE GOVERNMENT AND THE MEMORIAL SERVICE. To the Editor of the Sun:

Sir-A feeling of disgust and shame must have passed through the mind of every loyal Englishman and woman of the Domirion of Canada, when they read the Ottawa despatches of this morning, wherein Premier Laurier an-nounces, through Lord Minto, to the onglish delegates, "that the state nemorial service was at an end." And this feeling is necessarily deepened when a whole day has elapsed with apparently no protestations from the English speaking people throughout the colony. At all events the despatches of this afternoon do not re-

cord any. We might credit the premier with honesty of intention in thus preventing the service, and forcing the government to adopt a disloyal and unpatriotic position, and even accept his excuse, were it not for the fact that a precedent, every detail of which was well known to him, had already been established, in the case of our late respected Catholic premier, Sir John Nowhere throughout the Dominion

of Canada, from either Catholic or Protestant, was heard one murmur of disapprobation when a state memorial service was then held, in the church he had attended and of which he had been a member. Every Cana-dian felt that a great and good states man had been removed by the hand of death, and that all due honor and respect should be done his memory And yet Sir John was no sovereign not even the sovereign's representative, but only a representative's first advisor in a colony which forms a part of the British Empire. But when Her Majesty, not only the Queen and Empress of the vastest empire the world has known, but a woma. against whom was never truthfully breathes a breath of reproach, whose every thought word and deed for two-thirds of a century has been for the good and welfare of her subjects, and the social and moral betterment of the world, dies, that tribute of respect is denied her. A government of a colony refuses as a government to hold a service to the memory of its late constitutional head. I doubt if history could furnish a second instance. It is said that other denomi-

As matters now stand the supporters of the present government from Quebec are unwilling that the government shall countenance any function which shall detract from theirs or add to the prestige of the Protestant and English people of Canada. Premier Laurier did not wish to establish a precedent. But that is exactly what he has done, and this is what it is: "No state services shall

be held in memory of departed premiers or sovereigns, unless such premier or sovereign during life shall have been a member of the Roman Catholic church. No exception will be made even in the case of so wise and good a Queen as Victoria." How will the English electors

EXPLOSION AND FIRE.

Big New York Factory Wrecked - Some Exciting Scenes-

NEW YORK, Jan. 31.—The seven story factory of the William Wicke Company, manufacturers of cigar boxes, labels and ribbons, at 401 to 419 East Thirty-first street, was shaken this afternoon by an explosion in the "shaving tower," which wreaked the tower and demolished the roof of the engine house. The explosion is believed to have been caused by gas accumulating.

The force of the explosion was tremendous and completely wrecked the tower. The brick work fell on the engine house, crushing it, and the explosion cracked the big smokestack, 100 feet high, over the engine room. Nearly eight hundred persons were

at work in the Wicke factory at the of the explosion. Three hundred and fifty of them were women. In both buildings a panic ensued, but only two persons were seriously injured. A score or more were slightly hurt by being cut with broken glass or struck with flying splinters. The loss caused by the explosion amounted to several thousand dollars.

Fire, resulting in damage to the extent of \$1,500,000, started anew in the william Wicke Co.'s building tonight.
Within half an hour the entire building, extending half the length of the block in Thirty-first street to the Bast River, was in a mass of flames, and the firemen, ceasing their attempts to save the building, turned all their attention to the adjacent structures. The firemen, forced back by the heat, were compelled to abandon the three big white horses. Some firemen ran in and cut the traces. One of the horses was so badly burned that he had to be shot.

The Wicke building was at that time burned to the ground. Just before the company's main building was burned a ladder against the south wall, on which was fireman Peter Coyle, was seen to be on fire. Shouts of warning notified Coyle of his danger, and he began to de-scend. Before he was half way down the walls fell and took the ladder with Coyle was thrown to the street, and both his ankles were broken. The water tower, hook and ladder No. 7, was stationed about the middle

Nothing has been definitely arranged regarding the punishments, and opinions are much divided, some favoring drastic measures like beheading the majority of those considered especially responsible, particularly Prince Tuan, who, next to the Empress Downey is considered the Empress Dowager, is considered the principal culprit; but others, acting under instructions from their gov-ernments, advocate nominal punish-ments like banishment.

It is generally recognized that all the foreign envoys with the possible exception of M. De Gier, the Russian minister, personally believe that leniency would be a great mistake, considering the interpretation the Chinese would put upon it.

Li Hung Chang is anxious that the joint meeting should be held at his house owing to his state of health. BERLIN, Jan. 31.-A despatch from Field Marshal Count Von Walders

QUEEN WILHELMINA'S DUKE.

THE HAQUE, Jan. 21.—Duke Henry of Mecklinberg-Schwerin, whom Queen Wilhelmina will marry, made his formal entry into the capital at 8 o'clock this evening, wearing the uniform of a Dutch general and Dutch decorations. He was received at the railway station by a guard of honor and with great ceremony. The premier welcomed him on behalf of the ashinet as "the betrothed of our heleved Queen and a Dutch subject."

The Duke drove in one of the state carriages to the palace, where Queen Wilhelmina awaited him in the restibule. In thanking the various officials who welcomed him he spoke the Dutch language.

Emormous Growds displayed the wildest enthuslasm, and the troops were scarcely able to control the people who massed around the palace, where a vanguard of honor was drawn up. The palace was beautifully decorated with flowers.
