CANADA'S PARLIAMENT.

Opposition Leader Scores the Government in Debate on Address.

Sir Wilfrid Laurier Promised Explanations at a Later Date and Made a Feeble Reply.

The Debate Continued By Mr. Monk, Conservative Leader in Quebec, and By John Charlton, the Liberal Leader - Notes From the Press Gallery and the Floor.

Metal Gates

Light, strong, durable, and not apt to go rusty. Metal gates which open either up or down in a strong wind. Best made of galvanized iron and painted with a special paint.

Mr. Borden

Mr. Borden, leader of the opposition, in reply to the speech of Sir Wilfrid Laurier, said that the government had no right to take any action in the matter of the tariff.

Phosphorine

of the government in regard to the tariff. The increase in trade proved nothing, inasmuch as the closing of extensive industries would result in even greater growth of trade.

N. B. PLACE-NAMES.

W. F. Gansong's Reply to Executive Committee of Geographical Board of Canada.

To the Editor of the Sun: Sir - In the Semi-Weekly Sun of Feb. 28 I find the reply of the executive committee of the Geographical Board of Canada to my question in the Daily Sun of Dec. 3, in which I commented upon certain decisions of the board respecting the New Brunswick place-names.

The committee's letter makes very plain the real issues between the views and mine, and these I shall treat as briefly as possible. The committee has taken the name of the board upon itself, and in so doing has committed three fundamental errors. First, it has violated one of its own most important principles, second, it has ignored the constitutional principle underlying the position of a geographic board; third, it has applied certain of its rules in an arbitrary and capricious manner.

First, as to the violation of one of its own by-laws. The by-laws of the board, Section II. (duties of officers), paragraph (d), reads: "Before dealing with any name within a province represented upon the board, such name shall be submitted to the representative of the province in question and report." Now, unless I have entirely misunderstood certain communications I have received upon this subject, several of the names in question were not submitted to the New Brunswick representative, Dr. Inch.

Second, as to the ignoring by the board of a fundamental principle underlying its own existence. This principle is that the board exists solely because of the existence of diversity in usage of place-names; and the function for which it is constituted is that of selecting the best form of the name, with principles established by long usage as the best form where several are in use for one place.

Third, as to the application of the board's rules in an arbitrary and capricious manner. The board has taken the name of the board upon itself, and in so doing has committed three fundamental errors. First, it has violated one of its own most important principles, second, it has ignored the constitutional principle underlying the position of a geographic board; third, it has applied certain of its rules in an arbitrary and capricious manner.

Parliamentary Notes

R. L. Borden, leader of the opposition, in reply to the speech of Sir Wilfrid Laurier, said that the government had no right to take any action in the matter of the tariff.

The Dry Cough of Bronchitis

The Distressing Asthma Gasps

The chest pains and soreness, the tightness and desperate struggle for breath, with recurring and increased violence, drive many to despair who have not yet learned of the efficiency of

Dr. Chase's Syrup of LINSEED and TURPENTINE

Bronchitis and Asthma are very similar in nature and frequently go hand in hand. They require similar treatment, for in both diseases the distressing symptoms result from contraction and closing up of the bronchial tubes and hence difficult breathing, coughing and expectoration.

Dr. Chase's Syrup of Linseed and Turpentine not only affords prompt relief, which in itself is considered sufficient reason for its use, but actually cures these ailments and prevents their recurrence. This great prescription should not be compared with ordinary cough mixtures, for it is entirely different, acting, as it does on the whole system and entirely overcoming disease.

BRONCHITIS

Or "cold on the chest," as it is known to many, is more severe on taking a long breath and is aggravated with coughing. The cough is at first dry and harsh and there is little expectoration. As the disease continues the cough becomes looser and expectoration more profuse and less painful, being frothy, viscid and often streaked with blood.

Bronchitis is most dreaded because it has a tendency to become chronic and return again and again until the patient becomes worn out or falls an easy prey to consumption or pneumonia. Only the most robust constitutions can throw off bronchitis. Aged people, children and all who are in delicate health or have weak lungs have every reason to fear this ailment.

Because it is mistaken for an ordinary cold bronchitis is too frequently allowed to fasten itself on the system. Just as soon as there is a feeling of tightness in the chest or soreness on taking a long breath you have reason to fear bronchitis and any delay at this point is dangerous to say the least.

ASTHMA

Occurs in paroxysms and usually at night. The patient awakens with a feeling of suffocation; he is unable to lie down, but finds relief in sitting with his elbows on his knees, head thrown back and mouth open. Breath is drawn with the greatest effort and air is expelled from the lungs with a wheezing sound. The face is pale, the skin cool, perspiration is profuse and the countenance exhibits anxiety and distress.

There is considerable coughing with asthma and expectoration of mucus, but this varies according to the amount of accompanying bronchitis. That there is relief and cure for asthma is attested by all who have used Dr. Chase's Syrup of Linseed and Turpentine for its ailment. The great remedy gives relief by clearing the bronchial tubes, making breathing easy and soothing the excited nerves.

Be Suspicious of the Substitutor

When you decide that Dr. Chase's Syrup of Linseed and Turpentine will be of benefit to you do not allow your dealer to persuade you to accept something said to be "just as good." No substitute is just as good as the article it is made to take the place of or why should it not sell on its own merits. Any dealer in place of another in the prescription you give him to fill. Insist on seeing the portrait and signature of Dr. A. W. Chase on the bottle you buy. No medicine can have a stronger guarantee. 25c. a bottle, family size, three times as much, 60c., at all dealers or Edmanston, Bates & Co., Toronto.

of the older and more experienced is thrown into the hands of a young man, established usage for historical reasons, and such changes as Point de Bute to Point a Buot, or Harbor de la Pointe to Point de la Pointe, etc., which the geographic board of Canada asks us to accept, are entirely inconsistent with the usages of the older board.

CHIEF AGENT, March 14 - A woman neighbor, 11 years ago, convinced the wife of Wilson, a traveling man, living in Millway, that her husband was leading a double life and during his absence she packed her effects and returned to her parents in Buffalo, as she had a dispatch to her mother. When Mrs. Wilson returned home to her husband, she found that he had been deceiving and communicating with his wife. She was very angry and she had been deceived and communicated with his wife. She was very angry and she had been deceived and communicated with his wife.

CONSUMPTION

Prevented and Cured. Four marvelous free remedies for all sufferers reading this paper. New Cure for Tuberculosis, Catarrh, Weak Lungs, Catarrh, and a rundown system.

Do you cough? Do your lungs pain you? Is your throat sore and inflamed? Do you spit up phlegm? Does your head ache? Is your appetite bad? Are your lungs delicate? Are you pale and thin? Do you lack stamina? Are you nervous? Do you have a general feeling of weakness? Do you have a general feeling of weakness? Do you have a general feeling of weakness?

FREE TRIAL TREATMENT and the Four Free Remedies will be forwarded you at once, with directions for their use.
