THE STANDARD'S FINANCIAL SECTION

Active Trading Featured Session On Montreal Exchange

Forty Issues Boarded and Five Points the Maximum Price Change.

Montreal, Jan. 6—Trading, while somewhat more active today on the local stock exchange, showed little change in breadth or character. Forty issues were boarded, and five points was the maximum price change in either direction.

Brazilian led the market and gained half a point, closing at 28¾. The second most active stock was Smelters which gained similarly, the closing sale going through at 19½.

The loss of five points by British Columbia fishing wiped out a gain of a like amount made last November, the issue closing at 20. Detroit Railway advanced two points in dealings in 45 shares.

Reports of the improved condition of Illinois Traction were reflected in the further advance of that stock by half a point to 36, the highest point reached in two years. The preferred was up ¾ to 73¾. Steamships common gained 1⅜ points to 15 and Breweries was up a ¼ at 55¼. Little interest was shown in papers. Laurentide sold off a point to 73 and Spanish preferred sold ⅜ up at 69½.

Trading in bonds showed considerable strength on moderate activity. Eight issues scored gains, most noteworthy among which was an advance of three points by Dominion Textile "C" to 98, a new high level for the issue.

Total sales, listed, 4,007; bonds $255,360.

Chance For Gaspe To Get Away From Specialized Fishing

Opportunity to Supply Fish to Interior Markets at Profitable Figures.

Is it practicable to build up on the Gaspe coast a trade in fresh fish on something of the proportions attained in Nova Scotia? There are two views on the question. One is that the Canadian market is well supplied with seafish, which means that any increase in fresh fish shipments from the Gaspe region would force a corresponding decrease in the movement from established sources. Another, the more logical, is that there is room for both. While some of our interior markets are adequately provisioned according to our present standard of fish consumption, there is a vast population not yet within reach of a supply. Fully one-half of the Canadian people get little or no sea-fish. At any rate it is not sufficiently regular to warrant a consistent use of it. Therein appears to be the opportunity of extending the home market and enabling Gaspe fishermen to get a share in the business.

It will be interesting to cite a few facts in connection with the Gaspe fishing industry. It is primarily an export business. Using 1920 statistics, more than 86 per cent (in value) is in dried cod. Only 2.38 per cent of the total catch of all fishes is marketed fresh, and only 7.9 per cent in value. In reality, Gaspe fishermen are highly specialized. Cod curing is their chief occupation and they are always more or less insecure inasmuch as foreign demand for the commodity may be suddenly cut off or rendered unprofitable. From an economic standpoint it is desired that they should have an interest in some other department of trade and the handling of fresh fish suggests itself as the logical means of overcoming the situation.

There is already a certain movement of fresh fish from Gaspe, but it is so small in proportion to the total production, that it is not important. About 1½ per cent of the cod is used fresh and seasonal shipments of salmon, smalts, mackerel and lobsters, make up the total of 2.38 per cent consumed fresh.

The Fisheries Branch, Department of Marine and Fisheries, Ottawa, has arranged with the Canadian National Express Company to run special express equipment to Gaspe, giving a through service to Montreal two or three times a week as required. The service will not begin until next spring, but an announcement is made now in order to give Gaspe fishermen a chance to prepare for the trade. The attention of each individual on the coast in a position to engage in the business is being drawn personally to the improved transportation arrangement and the department at Ottawa is hopeful of getting Gaspe fishermen thoroughly interested.

European Economic Conference At Genoa In March

Cannes, Jan. 6—The allied supreme council, in session here this afternoon, unanimously decided to hold a European Economic Conference, during the first two weeks of March, at Genoa, Italy. The United States will receive a formal invitation to participate, and it is expected that country will be represented by several unofficial observers.

Grain Market Dull And Narrow With Light Volume

Demand for Cash Wheat Very Ordinary—Fractional Advances During Early Session

Winnipeg, Man., Jan. 6—The local markets, both cash and futures, were dull and narrow today with trade volume the lightest for many days. A fractional advance was recorded during the session when May touched 109½, a gain of half cent from yesterday's close. July gained ¼ cent but this was not maintained and both months closed with a loss of ¾. The demand for cash wheat was very ordinary. The demand from domestic millers and exporters is very light and only the extremely small receipts hold up the premiums. Premiums were unchanged today at 3½ over and 2 cents under for No. 1 and 2 Northern, respectively.

Coarse grains continued very steady on a light trade and outside of a little business in oats there was nothing doing.

Closing Quotations

Wheat, May 1,08¼ bid; July 1,06½ asked.
Oats, May 44⅜; July 44⅛ bid.
Barley, May 57½ bid.
Flax, May 1.80⅞ bid.
Rye, May 86.
Cash prices:—
Wheat, No 1 hard, 1.12; No 1 Northern 1.11⅜; No 2 Northern 1.06⅛; No 3 Northern 96¼; No 4, 87¼; No 6, 75¼; feed 69¼; track 1.08¼.

Ontario barley No 3 test, 47 pounds or better .57 to 60.
Buckwheat, No 1 nominal 78 to 80.
Rye, No 2, 86 to 88.
Manitoba flour, first patent 7.40; second patent 6.90.
Ontario flour 30 per cent patent, delivered $5; bulk seaboard millfeed, bran $26 to $27 per ton; shorts $28 to $29 per ton; good feed flour per ton $1.70 to $1.80.
Hay, extra, No 2, $21.50 to $22; mixed $18; straw car lots, $12; loose hay, per ton, No 1 $27.

His Slain Wife's Body Magnet For Syelles

Visits It in Hiding Place for Eleven Days, Then Gives Up.

New York, Jan. 5.—After having visited the body of his wife every day for eleven consecutive days "to see if she was comfortable" where he had sidden it in a cellar, Alexander Syelles of 334 Stockton street, Perth Amboy, found himself so uncomfortable about the matter that he walked into Perth Amboy police headquarters and confessed.

Syelles told Lieut. C. H. Morris he had quarrelled with his wife on Christmas Day because he thought she was drinking too much, and when she argued with him became enraged and choked her senseless. Then, Morris said Syelles told him, he got an ax and struck her two blows on the head, which killed her.

To visiting friends he explained that his wife had gone to Cleveland. But he was unable to stay away from the cellar where his wife's body lay.

"I couldn't think of my wife as dead," Syelles told Morris. "I had to go back and see if she was comfortable. So every day since I killed her I have gone back to the house and climbed down to the cellar to see if she looked as if she were in a comfortable position. If she did not look comfortable, sometimes I would shift the body a little bit."

Detectives found the body just as Syelles had described. He will be arraigned before Recorder Pickersgill on a charge of murder.

Syelles is a carpenter and is 39 years old. He said he was divorced from his first wife eight years ago. Four years later he married his second wife. She was 29 years old, and they had no children.

Stock Exchange Still Following Irregular Course

Traces of Involuntary Liquidation During Session—Easier Money Rates Prevailed.

New York, Jan. 6—The stock market today continued its recent irregular or reactionary course. Dealings diminished, however, and there were occasional traces of involuntary liquidation. Advices from out of town sources, including Chicago, were most reassuring, although the suspension of a small bank in St. Louis directed further attention to financial conditions in that section of the country. Such strength as was shown by the stock list resulted mainly from easier money rates. Call loans fell from four and a half to three and a half per cent. at midday, the latter figure reaching the lowest quotation in almost six months.

Time money rates also relaxed, thirty and sixty day loans being liberally made on mixed collateral at 4 3-4 per cent. In private transactions loans of this character extending, in some instances to ninety days, were reported at 4 1-2 per cent.

Few Strong Issues.

Oils, shippings and motors rebounded one to almost three points from yesterday's final prices but fell back for the most part in the pressure directed against General Asphalt and various specialties before the close.

American and Baldwin Locomotives, Mercantile Marine Preferred, American International and Mexican Petroleum were among the few conspicuously strong issues. Rails were a negligible factor, moving within fractional limits. Total sales amounted to 600,000 shares.

Substantial improvement accompanied the moderate dealings in foreign exchanges. The better tone was ascribed to latest developments at the arms conference in Washington and cables announcing that Germany and Russia are to participate in an international economic conference called by the Allied Supreme Council.

Liberty bonds added to their recent recovery and first mortgage rails strengthened on a substantial investment inquiry, but usual issues yielded and foreign issues showed no definite trend.

Total sales aggregated $17,750,000.

Raw Sugar Market Firmer With Sales of 5,000 Bags, Porto Rico

New York, Jan. 6—The early raw sugar market was firmer with sales of 5,000 bags of Porto Ricos to an operator at 3.48 for centrifugal, and, while no sales of Cubas were reported to local refiners, holders were asking higher prices. The Cuban Cane Sugar Corporation announced that, within the past few days, they had sold 350,000 bags of their sugar to American and English refiners.

The raw sugar futures market was firmer early on covering, prompted by the firmness in the spot market, but after showing advances of 4 to 2 points prices eased off under realizing and at midday were 2 to 4 points net lower. There were no changes in refined sugar with fine granulated listed at 480 to 490.

Refined sugars were without transactions.

Organize Sugar Export Corp'n

New York, Jan. 6—Organization, under the Webb Act, of a Sugar Export Corporation was announced today by Earl B. Babst, president of the American Sugar Refining Company.

The company starts, Mr Babst said, with a contract with leading Cuban producers on the same terms that were offered recently to all Cuban producers through their Sugar Finance Commission.

Mr Pabst is chairman of the board of the new corporation and Joseph A. Ball is president.

Ontario Gov't To Co-operate In Giving Aid To The Needy

Will Pay One-Third of Entire Cost of Municipal Works Undertaken to Provide Employment.

Toronto, Jan. 5—The Ontario Government, though Premier Drury was absent, announced its decision to co-operate with the municipalities of the Province in taking care of those who, through no fault of their own, are unable to get work and are, as a result, destitute. The decision was conveyed to representatives of the municipalities during a conference attended by an official of the Federal Government, who came with assurances that the Dominion would do its share.

The plan outlined is simply an extension of the arrangement under which the Province agrees to pay one-third the excess cost of municipal works, undertaken for the purpose of providing employment. Where employment cannot be found for a man and the municipality assumes the responsibility of taking care of his family, the Province assumes the responsibility, the province will pay one-third of the amount so spent. This aid, however, will not be given as a set-off for anything spent by the municipality in the way of cash doles, but will cover expenditures for food and fuel, underclothing and boots.

Moderate Setbacks In Wheat Prices

Chicago, Jan. 6—Moderate setbacks in the price of wheat took place today owing largely to absence of signs of any immediate big selling of accumulations at visible supply points.

The market closed weak at half a cent lower with May 111 to 111¼ and July 100⅝ to 100¾. Corn finished unchanged to ⅛ higher; oats a shade off to ⅛ advance and provisions up 2 to 7 cents.

Wheat, May 111; July 100⅝.
Corn, May 53¼; July 54⅝.
Oats, May 38¼; July 38⅝.
Pork, January 15.07.
Lard, January 8.75; May 9.12.
