

SKIES RAINED SHOT AND SHELL AT YPRES

Vivid Letter from J. Whitehouse, St. John Man Who was Wounded, Says Canadians All Deserve Honor—Dr. Duval Now a Major, and Heroism May Win D. S. Medal.

Tuesday, May 18. That Dr. Duval deserved the Distinguished Service Medal when he was wounded in the opinion among the St. John men at the front. The details of his gallantry were told yesterday in a letter to his wife in St. John. He was hit by fragments of a shell that burst only twenty feet away when he was seeing to other wounded, but he must have been cheerful all through, for Staff-Sergeant Smith, writing on the incident, says that Dr. Duval said as he was being borne away: "I shall see the boys in Carleton before you."

Other items of deep interest to the whole province are told in the letters that came in yesterday's English mail. The most interesting of the incidents are given below:

A letter from Captain (Dr.) G. G. Corbett of this city to his sister-in-law, tells how her husband, Major (Dr.) J. L. Duval of the Medical Corps was injured, under circumstances which showed his heroism and which, according to his friends, should entitle him to the distinguished service medal. The letter follows:

No. 11 Stationary Hospital, Rouen, France, May 3, 1915.

"With you I can praise the Almighty as Joe's escape from death. Just as soon as I found out where he was I proceeded to get permission to go to him and obtained it."

"Last Sunday evening about 12:15 midnight, as Joe was removing the last patient from the advanced dressing post, a shell exploded about twenty feet from him, fracturing the tibia and fibula of the right leg, leaving a gaping wound. It is what we call a compound comminuted fracture. Also a fragment of the shell went through the muscles of the left thigh, went in at the front and out at the side; so both legs are out of commission. He was operated on and a fragment of shell taken out of the right leg. He is doing well. I spent two days with him and saw the legs and I think I can honestly say he felt better for my visit, and that he is improving."

"He probably will be invalided to England first and perhaps home. It will be six months before he will be real well. In three months he will be about on crutches probably he may be slightly lame in the right leg."

"It seems several officers had been given the chance to volunteer for this dangerous post; they refused, Joe was asked and he did not like the prospect, but said if they wanted him to go he was ready. So he went with the boys. They were also two days under shell fire. When he was wounded two other poor fellows were also. They fell on him, but he managed to drag himself away from underneath and so was put on his own ambulance wagon and brought home. I am awfully glad to know that he received his majority on March 17. There are some rumors that he may get the D. S. medal, but we have to wait. I hope he does."

His action has helped to cover our little section (St. John) with glory along with the brave, heroic acts of the Canadians, as you have seen in the papers. No other St. John boys are injured."

Sergeant Smith's Letter. The same mail brought the glad news to Mrs. J. F. Smith, of Lancaster street, Carleton, that her son, Frank Smith, who is in the Medical Corps, is alive and well. Nothing had been heard from him since April 18, and a cable with the answer prepaid was despatched last Tuesday night, but no reply was received. As he was with Dr. Duval, who had been wounded, it was feared that he had

scenes that would thrill the heart of any true son or daughter of the British Empire. We were driven from our trenches by the poisonous gases and when we emerged into the open it seemed as if the skies were raining shot and shell, but with death on all sides, no matter where you looked, you could see someone helping a stricken comrade to comparative safety. I think, if any special recognition is given, the only thing to do is to give it to every man, because every son of Canada during those trying days played the man."

Was Pretty Hot. A letter dated April 30 has been received by Mrs. Jack Markey, of Fredericton from her husband, who is with the Princess Patricia's. He tells of the good work being done by the Canadians. "I have just come back from our billets," he writes. "We took five lines of trenches from the Germans and captured 100 prisoners. It is pretty hot around here now."

Lace Through Battle. In a letter received yesterday by Mrs. T. E. Powers from her husband, Major Powers, he tells of heavy fighting which his unit had taken part in on the firing line in France. For eight days they had been in the thick of the fray, and during that time he had not had his clothes off. "Through there had been some severe fighting," he writes, "in his nature," all his men and himself had come through safely, except Lou LeLacheur, who had been wounded.

Not only for the good news contained in the letter was it prized by Mrs. Powers, but she has well established reasons for looking upon it as an appreciative token from the trenches for, nearly folded in its pages, was a piece of valuable lace which the major had purchased at a town in France. He had placed it in his pocket, and it came through the famous battle of Langemarck with him. For eight days it remained in his uniform, and at the end of that time when he had a chance to write he enclosed it with his letter and his wife now has it as a valuable souvenir from the scene of action.

Word received by Frank Donahue of 30 Brussels street gave further details concerning the injuries received by his brother, John, in France. The news was contained in a letter from

passed over to the silent majority. In a letter dated April 28, he says: "Since I last wrote you, our boys have gone through hell—l. A few in my own corps have been regarded. I am sorry I cannot mention the names, but the regulations forbid it. The captain (the allusion being to Dr. Duval) was hit. He was a regular brick, though, and the last thing he said to me when he was carried to the ambulance was: 'Well, Frank, I will see the boys in Carleton before you.' "Canadians deserve all the credit they got, although a great part of us are gone. Canada's men will be proud of their first contingent, for the boys are ready and anxious to get into the fray whenever they are called on, for revenge of their comrades if nothing more."

Staff-Sergeant Smith was within a couple of feet of Dr. Duval when the letter was wounded.

Other letters received indicate that the other St. John boys in the Medical Corps are also safe and sound.

John Whitehouse Wounded. John Whitehouse, who was wounded in the attack on Langemarck, sends a thrilling first hand account of the terrible attack; but his letter shows the indomitable spirit that led the men to stand an attack so fierce. He says in a letter to a friend:

"I suppose you have been reading in the papers of the gallant fight maintained at Ypres, and I suppose that everybody cannot mention the names, but the regulations forbid it. The captain (the allusion being to Dr. Duval) was hit. He was a regular brick, though, and the last thing he said to me when he was carried to the ambulance was: 'Well, Frank, I will see the boys in Carleton before you.' "Canadians deserve all the credit they got, although a great part of us are gone. Canada's men will be proud of their first contingent, for the boys are ready and anxious to get into the fray whenever they are called on, for revenge of their comrades if nothing more."

Allan Poole of Woodstock, son of Charles G. Connell, the well known former druggist of Woodstock, now of Digby, N. S. Hector McDonald Cameron, who was killed in action at Langemarck, aged 15 years, went to school in Woodstock while visiting his sister, Mrs. A. H. Sim.

Were Knights of Pythias. Frederick Charles Gunn, of the 8th Moncton Battery, who died in a hospital in France of wounds received at Langemarck, was a well known member of the International Association of Musicists and also of Westmorland Lodge No. 8, Knights of Pythias. He was a valued member of the choir of St. John's Presbyterian church, Moncton, and also occasionally assisted the choir of First Baptist church. He was about twenty-seven or twenty-eight years of age. Mr. Gunn's home is in Chatham and his parents live there. He is the first Moncton K. P. to lose his life during the present war. Gordon Ernest Turner, I. C. R. brakeman was the first Moncton K. P. to be wounded during the present war.

He was a son of Jas. Murray, formerly with Major Anderson, has been killed while serving in Flanders with the Moncton battery. He was a veteran Russian artilleryman, but was in Moncton at the time of enlistment. He saw considerable service in Manchuria during the Russo-Japanese war.

A postcard received from Frank L. Ross, of Waterloo street, who is with the No. 10 Company Army Services Corps, says that after landing at Arromanches the divisional train went to Sandling Park camp, about seven miles from Folkestone. He adds: "This is a fine place; there are about 20,000 troops here. We are staying in huts, about thirty men to a hut, and all are fine."

Fred C. Murray, of the Canadian Bank of Commerce, Moncton, has received a letter stating that his brother, Iver H. Murray, of the 4th Battalion, was killed on April 25 by a shell which exploded in a dugout in which he was stationed. He was a son of Mrs. Murray, formerly station agent of Shediac.
