

OTTAWA, 10th February, 1904

Sir,

With reference to my letter of yesterday's date I beg to say Dr Graham's report on the outbreak of small-pox at the ^{Regina} ~~Regina~~ Industrial school has just been received from your office, and as there is a wide difference between his statements and those of the Principal, the Department is still of opinion that it would be well to have an enquiry made.

I have the honor to be, Sir,

Your obedient servant,

RECEIVED

Acting Deputy Superintendent General
of Indian Affairs ,

Hon. David Laird,

Indian Commissioner,

Winnipeg, Man:

Indian Affairs. (RG 10, Volume 3927, file 116,836-1A)
