which are being described, it helps to ~~show~~ put them
as it were, on a par with other classified phenomena, and
it supplies an alternative phrase which ~~adds~~ ^{adds} in
element of variety. In the same way the word
has been used in speaking of contract work, of
cement house work, of and of a hundred
other ^{other} forms, & customs in the industrial as well
as the scientific world. The contract system, the
cement house system, have no more of meaning
implied through the use of the additional word
~~the~~ "system" than if it had never been used at
all, and the same is true, so far at least
as popular usage has gone, with the terms
"Smearing" - "Smearing system."
