

(b) Industrial Standardization

IT WAS AGREED to adopt the resolutions on the subject of Industrial Standardization, which were recommended to the Conference by the Committee, as follows:

I. The Conference recommends that, with a view to assisting the co-ordination of the work of national standardization, the following principles, as far as practicable, be observed:

- (a) That the specifications should be in accordance with the needs of industry and fulfil a generally recognized want;
- (b) That the community interests of producer and consumer should be maintained throughout;
- (c) That the specifications should be arrived at by general consent;
- (d) That periodical review and revision should be undertaken to prevent crystallization and keep the specifications abreast of progress;
- (e) That full information regarding the initiation of any specification and progress in its preparation should without delay be circulated by the originating body to the corresponding bodies in other parts of the Commonwealth.

II. Having regard to the disadvantages which are apt to occur when a statutory provision embodies a standard specification verbatim, whether in whole or in part, instead of confining itself to a reference to a national standard specification, the Conference recommends that each Government of the Commonwealth in co-operation with its central standardizing body should bring under review the position with regard to such statutory provisions, in order that it may be possible to keep these standards in line with industrial and scientific progress without the necessity of fresh legislation.

III. With a view to facilitating the general adoption of standard specifications throughout the Commonwealth, the Conference recommends that the Governments concerned take into favourable consideration the provision of free entry to standard specifications and other documents circulated between the central standardizing bodies.

IV. In order to provide the various parts of the Commonwealth with an accurate means of exchange of colour information and to secure a basic standard in trade practice, the Conference recommends that each central standardizing body should at an early date consider the issue of a standard schedule of colours.

V. As an immediate step towards the promotion of intra-Commonwealth trade through the adoption of commercial standard specifications, the Conference recommends that, in respect of steel, timber, industrial
