

upon each side of the crossing, or by establishing electric connection by any other device or method which will indicate whether or not the bell is in good working order; and that if the bell fails to ring, or rings continuously, a flagman at once be placed at such crossing, whose duty it shall be properly to protect the same until such bell is repaired; and notice of such non-repair be at once given to the Station Agent nearest to such bell, whose duty it shall be to report the matter at once to the department having charge of the operation and repair of such bells."

(2.) "That failure to comply with the provisions of this Order shall subject the defaulter to a fine of \$50.00, payment of which may be ordered by the Board upon proof of the offence."

29. Section Foremen on Automatic Block Signal territory will maintain all bonding and insulated joints. They will receive instructions for the proper maintenance of same from the signal maintainer. In the event of other repairs being made to the Signal System by Section Foremen, advice of such repairs must be sent to the signal maintainer, stating nature and extent of such repairs.

30. They will immediately report by wire to Orders of "Chief Dispatcher" and defects or improper work-
ing of the Signal System.

31. The operations or material of Interlocking line of any and Block Signal Plants must not be interfered with by trackmen. Repairs which require the removal of any signal apparatus must be made under the direction of the Signal Repairmen.
