Report of Auditors, G. B. Abrey and Lewis Bolton.

Paper—Micrometer Measurement of Distances, Wm. Ogilvie.

Discussion of Papers in last Annual Report.

Unfinished business.

Nomination of officers.

New Business.

Adjournment.

---

Full discussion after each paper.

Bring with you report of last meeting for reference.

Please attend all meetings promptly.

A meridian has been carefully laid down on the grounds of the Parliament Buildings for testing solars.

Annual Dinner at the Walker House on the evening of the second day.

To make the exhibition of instruments as complete as possible, the Committee requests each member to bring some surveying instrument to the meeting, or anything else that will be of interest to the profession.

The exhibition will continue both days.

Some interesting instruments have already been promised for exhibition.

If you have any matter referring to Land Surveying, Drainage, Engineering, Instruments, Legislation, or Publication to bring before the Association, communicate with the chairman of the committee to which the subject belongs, or to the secretary.

Annual subscription received at any time before April 1, 1887.

WILLIS CHIPMAN, *Sec-Treas.*

*Brockville, February 1, 1887.*

About three hundred programmes were mailed to the Land Surveyors of the Province.
