## The Dean of American Dairying

ON THE

## De Laval Cream Separators

MR. H. B. GURLER is well deserving of the title the dairying public has come to affectionately give him—"The Dean of American Dairying." No man has given more unselfishly of his time and energies to the advancement of practical dairying, and no man's judgment of any feature of modern dairy practice or creamery operation can be more unreservedly accepted by everyone than that of Mr. Gurler. His opinion is simply the highest obtainable.

[Copy.] Clover Farm, De Kalb, Ill., March 9, 1901.

The De Laval Separator Co., New York:  
Gentlemen—It is now ten years since I made the acquaintance of the "Alpha" De Laval Separator at the Wisconsin Dairy School. I was convinced at that time that it was the leader in the race, and this opinion has been reinforced from year to year as I have had more experience with it. With me the "Alpha" is first and the others "nowhere."

Respectfully yours, H. B. GURLER.

New 1901 20th Century De Laval Catalogues—"Creamery" or "Dairy"—are now ready and may be had for the asking.

# NOW IS THE TIME

And the only time to do anything worth doing. If you have consistently studied the situation you know you need a combined churn in your creamery.

## THE VICTOR COMBINED CHURN AND BUTTER WORKER

Is the machine that will get you in line to compete with other creameries employing modern apparatus. It will increase your yield, improve the quality of your output and save you labor.

All this means more money in the treasury and larger dividends to the patrons. Let us quote you prices.
