

D. R. BRANDETH requests a perusal of the following article:—

LIFE AND DEATH,

Every thing has two distinct principles to mature; one

THE PRINCIPLE OF LIFE

THE OTHER

THE PRINCIPLE OF DEATH.

So long as the principal of Life predominates, Health is enjoyed. When the principle of Death, Sickness takes place. How is this accounted for?

By the principle of Death, I mean the principle of decomposition or decay, which is each hour going on in the human frame from the hour of birth, to that of our final exit. While the natural outlets—the pores—the bowels—and all other ductories of the body, discharge these decayed particles as fast as they are generated, we are in a state of health; we are free from the presence of the disease.

When, from breathing an impure atmosphere, living in a vicinity of swamps, or where we are in the constant habit of coming in contact with bad smells—effluvia arising from obnoxious accumulations of animal or vegetable bodies in a state of putridity, being infected from a living body under the influence of disease in a malignant state; or in sedentary occupations; or, in short, any cause which promotes decomposition, fosters the stomach and bowels and the other excretories can remove, naturally; we are then in a state of disease. And should the cause which produces this state of the body remain, and nothing be done to drive the accumulated and accumulating impurities out of the body, the principle of death or decomposition, will become paramount, and the last glimmering of life depart from the once animated clay.

How then, shall we counteract these death dispensing influences? How?

PURGE!—Yes—I say Purge! The magic in that word shall yet be understood, if this hand or brain can accomplish so mighty an explanation. Yes, purged he that pain in the head, the back, the bowels, the foot, the stomach, the side, the throat. Does it arise from internal or external cause,—I still say purge!—For know this self-evident truth, that pain cannot exist, save by the presence of some impurity—some deposit of decomposed particles upon the organ or part where the pain is seated. And purging discharges this impurity by the bowels, and continuing the practice daily will cure every complication of disease; and will prevent any one from becoming seriously indisposed, even when in constant contact with the most malignant fevers which cannot by possibility seriously affect the body, if we are continually careful to preserve it in a pure state, by frequent and effectual purgation. *Hippocrates* says, "Purgation expels what must be expelled, and patients find relief; if, on the contrary, they are tormented by purgation, it is a proof there are yet matters which must be expelled."

The subscriber of this has resided in every variety of climate, and by always purging on the first appearance of sickness, has enjoyed for the last ten years, uninterrupted health. For we may call such the state of him who is never sick more than 6 or 8 hours, about the time it takes to secure the effect of a purgative. The purgative I make use of is my grandfather's pills, and they are, to my certain knowledge, the most judiciously balanced purge in existence. I have used them for 8 months daily, in doses of from 2 to 16 pills per day, to satisfy myself as to their innocency. It therefore, cannot be doubted. It is my opinion, that any person, be he ever so prostrated by disease, provided he is capable of taking exercise at all, may lengthen his life to 60 years, by continuing to assist his natural functions with the **BRANDETH VEGETABLE PILLS**. Death never can take place until the Principle of Decomposition runs out the lamp of life. And that would seldom be before 60 or 70 years, was this principle of purgation always resorted to on the first appearance of sickness.

In the hope that these remarks may be of some service, I am the public's obedient servant,

HEADACHE.

D. R. E. SPOHN, a German physician of much note, having devoted his attention for some years to the cure and removal of the causes of NERVOUS AND SICK HEADACHE, has the satisfaction to make known, that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint. There are many families who have considered Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they might not only alleviate, but actually eradicate by the use of his remedy. It is the result of scientific research, and is entirely of a different character from advertised patent medicine, and is not unpleasent to the taste. To be had of

PILES, DROPSY, SWELLINGS, ALLERGENS, RHEUMATISM. It is absolutely asserted on the most positive proof that the above complaints are arrested and cured by the timely use of Hay's Liniment. It is impossible to find room in this paper to present those proofs which are conclusive and convincing. They may be seen at length as below. The true article has a splendid engraved wrapper with agents' and proprietor's name, and may be had of

MORISON'S UNIVERSAL MEDICINE-

NOTICE.

THE Subscribers, general agents for Morison's Pills, have appointed William Whittaker, Sub-Agent for the Upper Town, No. 27, St. John Street.

LEGG & CO.

That the public may be able to form some idea of Morison's Pills by their great consumption, the following calculation was made by Mr. Wing, Clerk to the Stamp Office, Somerset House, in a period of six years, part only of the time that Morison's Pills have been before the public; the number of stamps delivered for that medicine amounted to three million, nine hundred and one thousand.

The object in placing the foregoing powerful argument in favour of Mr. Morison's system, and to which the public attention is directed, namely, that it was only by trying an innocuous purgative medicine to such an extent that the truth of the Hygeian system could possibly have been established. It is clear that all the medical men in England, or the world, put together, have not tried a system of vegetable purgation to the extent and in manner prescribed by the Hygeists. How, therefore, can they (much less individually) know any thing about the extent of its properties.
