Substantially in genuine habitant costume, singing songs and dancing in a style highly appreciated by the audience; one of the dramatic person, in the course of the piece gave a description of the preceding performances of the evening, that called forth much laughter.

We have said enough to prove that the quality of the performances was good and to show that the quantity was sufficient to satisfy the most insatiable, we need merely mention the fact that the entertainment commenced at seven in the evening and terminated at two the following morning—seven hours, by Stairsbury clock 1 1/2.

On Tuesday the ceremony of investing His Excellency Lieutenant General Sir John Colborne, with the Order of the Grand Cross of the Bath, took place at the residence of Major General Sir James Macdonell. By desire of Sir John the ceremony was private, the officers of the Staff and Regiments alone being present. In the afternoon Sir James Macdonell entertained Sir John Colborne and a numerous party at dinner. — *Mercure.*

A report was current on Wednesday, that the suspended Judges, whose reinstatement it had been previously and confidently asserted by their friends, would follow the arrival of the new Governor General, are not so immediately to be reinstated on the Bench. Their return to office, if the reports we allude to are correct, is by no means fully arranged. — *Ibid.*

A Rochester paper of the 15th October, contains an account of a bullet having been fired at McKenzie whilst standing at his window in the third story of the goal of that place. — It was probably the work of an accomplice who fired at the window, the prisoner being aware of the proceeding and keeping himself safe. Poor patriot McKenzie finds he has ceased to excite any interest, and is driven to this shift to keep his name before the public. — *Ibid.*

CALEDONIA SPRINGS.
 THE favorable opinion I formerly entertained of the waters of the Caledonia Springs is more than confirmed, as well from the benefits I personally derived from their use, as from what I observed of their effects on others. The water should be drank in moderate quantities before breakfast, and persevered in for some weeks at least.
