BANKERS,

THE NORTHERN BANK.

Vancouver is growing marvellously

COBALT SMELTERS.

At present there are no refining works in Canada cap-
able of treating the rich silver cobalt ores of the Cobalt dis-
trict, but this will soon be remedied. A new smelter at
North Bay is nearing completion; the North American Co-
balt Refining Company are about to erect a large smelter,
probably at St. Catharines, and the Ontario Government
has been approached with a view of obtaining a subsidy for
a projected million-dollar Smelter in the Cobalt district.
Much, if not all, of the necessary machinery will be import-
ed. Cobalt, indeed, is fast becoming an important centre
for makers of machinery and tools for mining generally.—

Cable "Keenview."

P. O. Box 1149.

The Seamen Kent Co. have prepared plans for a new
dock, in connection with their factory at Port Arthur, and
have written the Minister of Public Works, suggesting that
the harbor be dredged at that point. The dock will prob-
ably be used by other manufacturers as well.

A mining deal of much interest to the citizens of Hull,
was carried out recently, when a charter was issued to the
Raven Lake Mining Company, which has the mining privi-
leges on certain property on the Quebec side of the Ottawa
River, and also two lots in the Township of Cobalt. The
company has been capitalized at \$500,000. The provisional
directors are J. N. Fortin, J. E. Gravelle, H. A. Goyette, A.
D. Dupuis, J. Renaud and J. Cronin.
