

A strong man is strong cll over. No man can be etrong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY. THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

Thirty Years

Our Seven Colleges have been established during the past 30 years. The largest trainers in Canada. Owing to our connection all over Ontario, we do better for our graduates than any other School. You may stndy all at home or partly at home and finish at the College. Affiliated with the Commercial Educators' Association of Canada. It would be well for you to investigate before choosing. Exclusive right for Ontario of the world-famous Bliss Book-keeping System, which is unequalled. It is Actual Business from Start to Finish, and the student keeps same books as Chartered Banks and Wholesale Houses. Enter any time. Individual instruction. ter any time. Individual instruction.

nonths to the cells.

There is nothing particularly remarkable about the English way, though Englishmen in Canada may adopt different methods when their chance comes, The Roumanian plan may come in useful then. Here they hold a fair once a year which all the marriageable girls attend. Each is accompanied by a wagon, which contains her dowry of furniture, etc. Then the girls are drawn up in line, and the men from another, with the parents behind them. If a young man admires any particular girl, he goes to her, while the parents of each also begin to discuss the matter.

Should all be found satisfactory, the marriage takes place at once, and the bride accompanies her husband home. In Russia the marriageable maiden arrays herself in white, and with her parents goes to the winter gardens. The girl carries a silver spoon in her hand. When the parents observe a young man looking towards their daughter they hand the girl over to the marriage agent, who proceeds to make the necessary introduction and arrange the dowry.

Falling Hair.

Trs. Jas. Harris of Wappella, Sask., says:—
"I have found Parisian Sage to be the best scalp and hair tonic and dressing, I have ever used. My hair had been coming out in combs full and was very dry and brittle and the scalp was always itching and full of dandruff. I have used two bottles of Parisian Sage and it has stopped my hair from falling, the itching and dandruff have dissappeared and my hair is fine and soft and glossy. I would not be without this fine Hair Tonic for many times its price."
For women, men, or children Parisian Sage is without any doubt the finest preparation for the hair. Daintily performed, it is free from grease or stickiness and ought to be where every member of the family could use it daily. Large bottle 50 cents at all druggists or from the proprietors, The Giroux Mfg. Co., Fort Brie, Ont. postpaid. The girl with the Auburn hair is on every package. Sold and guaranteed by John Coats.

Some kinds of bore are sure to deal. Trs. Jas. Harris of Wappella, Sask.,

AXLE GREASE,
HARNESS OIL, WHIPS,
CURRY COMBS,
HALTERS, BRUSHES, SWEAT COLLARS, and also The greatest source of loss in the dairy industry is the feeding of unprofitable cows. For example: A certain cheese factory in one year paid one of its patrons \$877 for the product of eight less or \$868, for the milk from twentytwo cows. The latter dairyman boarded For Sale by - H. W. PLETSCH nearly three times as many cows as the other to get less gross return, In another locality some herd owners secured an average of 300 lbs. of butter fat per cow, while others at the same place and in the same time averaged only 80 lbs. per cow. An income of \$100 per cow, as in the better herd, gives some margin for profit, but how can \$26 a head result in anything but loss? Probably some animals in the poor herds mentioned were profitable producers, but it is safe to say that the owners would have been better off at the end of the year if, before the year began, they had carefully studied their cows and sold one-half of them. It is probable also that in the better herds some weeding out might have been done to advantage, for great individual differences are in 1910 was \$1972.80. In 1900 under the found even in tested herds bred for system of 18 county councillors the cost years along one line of productivity. for sessional indemnity was only \$944.20. Until the feeder knows his cows through This adds \$1028.60 to the taxes of rateand Spot ..- Weekly Sun.

Bad Class Of Citizen.

Clifford Joseph Magee, a farm laborer That Hanover is growing is evidenced who has been living in Carrick for some by the size of the police court record of time, blew into Walkerton on Saturday late. Constable Wm. Beamish is kept in an apparently listless state. Having on the move and he was forced to purno particular mission in town and not chase a brand new set of hand cuffs as being able to satisfy the authorities here his others were put out of business last as to the why and wherefore of his Friday night. At mid-night on the night coming, he was arrested and backed in- mentioned the constable was awakened to the police court and made stand a trial for vagrancy. Being adjudged of the offence, he was committed for six that a shady customer was prowling around Reeve Mearns' place. "night hawk" proved to be of the tramp The marriage of Mr. John Arscott and variety, a great big chap who prides himself on his nom de plume of "Sum mer Coon." He agreed to get out of town if let go, and started down the Durham Road toward Walkerton. The constable followed him up, however, and found him attempting to enter one of the houses down that way. When brought to task by the constable this time he showed fight, but as the Hanover guardian of the peace is some wrestler, Summer Coon soon found a pair of bracelets encircling his wrists. He was taken to the council chamber where he promised faithfully to leave the town. He appeared to do so, but Chris. Eberth sald he slept in his barn that night. County Constable Martin brought him before Magistrate Telford next morning, and he was "deported."

The Sheldon Case Again

-Hanover Post.

A case of interest to all who either lost or won as a result of the operation. of Charles D. Shelcon, quandam wizaru of finance, will occupy the strength of the Superior Court in Montreal during the November term. The action is that of Arthur Wilks, curator of the Sheldon estate, against Matthew's; suit being entered for \$13000, the allegations being that this amount was wi hrawn by the defendant from the Sheldon office at a time when Sheldon was really insolvent. The proceedings in the case will be eagerly followed by a large number of ex-Sheldonites as the action is in the nature of a test case, and upon the issue in the present instance will depend what steps will be taken in regard to the others, who, like the defendant in the present action, are alleged to have withdrawn moneys from the Sheldon office, a short time prior to the disappearance of the financier.

Diphtheria At The Jail.

The prisoners at the Walkerton jail who have to subsist on 7c. a day would seem to have troubles of their own without adding a stone to Gibraltar by increasing them. But in keeping with the teaching that to those that hath will be given, an additional supply of tribulation came unsolicited unto them when Walter Prime, an alleged lunatic from Southampton, was brought into the jail

Some kinds of hogs are sure to drop into the busy barber shop on Saturday, when people there await their turn to take the chair and have the gentle barber prune the whiskered tassel and festoon. And when a hog gets in a chair the barber has to cut his hair and treat him to a dry shampoo and dye his stragcows, while it gave another patron \$9 gling galways blue. It takes the barber half a day to curry down his swinish jay, and righteous wrath doth in them burn. You've seen the porker in the car who wants all comforts that there are; he occupies a pair of seats; on one he piles his grips and feet and on the next his carcase lies, while to a book he glues his eyes, thus to avoid by hoggish guile, the gaze of people in the aisle who stand on feet that ache and smart, and curse the hog from heels to heart. Oh, hogs that roam on tootsies four you're surly creatures to adore, compared with hogs on trilbys two who root their way this world through.-Walt Mason.

Items of Interest

The amount paid the 3. Reeves and Deputies of this county for attending Until the feeder knows his cows through the scales and the Babcock test, he can never claim to be doing a dairy "business" he is merely doing dairy "guess work," and many are feeding into Polly all the profits he should make from Bess and Spot.—Weekly Sun

THREE COOKS AND THREE REASONS

GURNEY-OXFORD RANGE

For no matter how much or how little cooking is done; no matter what the experience given or required, there are certain prime requisites for every kitches range. Whether the cook be a professional chef or the young bride with only "him" to please, the stove must furnish these three essentials—steadiness and control of heat, even baking facilities, and a grate that gives plenty of air to the fire with a saving of fuel and convenience in handling.

For these three problems—on which all cooks are agreed—the GURNEY-OXFORD RANGE has three answers, three good reasons why.

THE OXFORD ECONOMIZER is a small lever for the steady maintenance of heat, licensed for use only on Gurney-Oxfords. It effects a remarkable saving in fuel as well as labor. Nothing can go up the chimney but smoke and odor.

The Divided Flue Strig distributes the heat evenly, front as well as back of oven, thus securing against failure in baking. There is no better test of practical stove work than this oven control.
