THESE truly valuable WATERS are distinguished for the large quantity of Bronine and lodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the greatest degree in the most oppressive heat of Sumpare, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to impaove and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of cases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, show the happy results arising from their application:—

2nd. Of reaching California at the commencement of the fire and profitable season, and of having a home on arrival there; the Vessel affords such; 3rd. Of owning for each share a 64th part of a most superior Steamer, which, if desired, will command a ready sale, and without doubt to advantage, or, if preferred, can be run with a large profit to her owners, as the following extract will shew.

Practice of the Pacific Steamers.—A correspondent of the New York Sun says, that the Steamships running between Pansana and San Francisco, carry on an average 150 Cabin Passengers each way, at \$300 each, and 250 Steerage Passengers at \$130, each, thus realizing \$165,000. The expenses do not exceed \$55,700, so that the profits of the voyage, on Passengers alone, is \$193,300.—Add to this the Freight, say \$8,000, and the total profit amounts to \$117,300.

Tickets may be secured on early application to either

Sin,—I observe with pleasure that the Mineral Waters, at their source at Point du Jour, Parish of the Assomption, (L'assomption,) see acquiring the celebrity they deserve. For myself, who am, perhaps, one of the first that alinded to them in the newspapers, in the year 1836, I can testify, that since then I have had occasion to try various Mineral Waters, nevertheless I have never doubted that the preference must be given to those of Point du Jour—having myself had much experience.

The Proprietors have their Depot established at No. 6, Jacques Cartier Place, next door to the Hotel of Serafino Giraldi, Esq. The distance for conveying the Waters to the Depot is so trifling, that we are establed to have a constant supply fresh, and are consequently in possession of a better market than any other person. Prices, 74d. per gallon, and 2s. the dozen, (in bottles.) Sick persons, unable to pay for it, can have some gratis, by producing a certificate from their Physician, since we are unwilling that any should be deprived of these healing and wonderful Waters, prepared by Providence for his creatures, which are apparently designed for the alleviation and cure of many protracted and dangerous diseases.
