Suppose This Were YOUR Home!

Carefully consider fire protection when you build or remodel your home.

Every waking and sleeping moment you and your family spend in an inflammable house you risk your lives.

Build for safety by using Gypsum Board and Gypsum Plaster.

Then all your partitions and ceilings will be made of material that can't burn—Gypsum.

Tight joints, no cracks or crevices, air-space insulation between walls (all features of this type of construction), positively prevent the spread of heat and flames.

Added advantages of Gypsum Board and Plaster are their sanitary and sound-proof qualities.

Ask for the Gypsum Board booklet—it's free.

Burned Ontario Needs Help

Many weeks after the big fire the people slept on boards and in a few cases mattresses were available. The picture shows the first bed to be given out at one of the Relief Committee's stations. Hundreds of families in Northern Ontario need beds, clothing and food.

Locals

Mrs. John Prudham spent the week end in Galt with her son, Harry.

Mr. Chas. Prudham is spending a few days in the village before returning to Drayton.

Mr. Geo. Allison returned on Monday after a ten day visit at Bartonville and St. Davids.

Nature's Provisions and Problems

God has provided abundantly for us on this continent from the icy stillness of the frozen north to the warm animated air of the southern tip of Florida. Wherever he is, the true Christian as the truth of God's providence dawns upon him will fall on his knees in deepest gratitude and adoration. In farthest north the dog teams race over the crisp snow with the speed of airplanes, the traveller is covered warmly with northern furs, when night comes the northern lights play their sweet music amid scenes of unutterable beauty, while during the summer, short as they are, vegetable growth springs up with greatest rapidity. In the Sunny South there are, before cultivation, still deserts where one would wonder if a fly could live. Yet lying all around, and in some places springing up in abundant growth, are all the elements and requisites for entrancing the senses and nourishing the body. In the North and in the South nature's provisions and problems give abundant opportunity for man's intelligence and man's ingenuity. The great heat in the south, if properly dealt with, is a great blessing. Shade is the refuge. The scripture speaks of the blessing of the "shadow of a great rock in a weary land". This text can be fully understood when you take the thermometer from the sun where it stands at 120 and bring around the corner to the shade where it reads 70 or 75 degrees. The lesson is obvious, do your work in the early morning or late evening, there is always a way. Then again the sunlight seems to lack violet rays, and so there is never any sun-stroke. Further, certain fruits are cooling. Grape-fruit seems to chill the teeth. Other fruits which can not at present be shipped, like limes, large lemons and mangoes, refresh one in the heated term. In the North, the heavenly lights scintillate; in the South, lights glow softly. There is the tender blue dome at mid-day across which like the wings of angels float the filmy clouds. At sunset purple and yellow and gold predominate. The evenings grow hushed and quiet as the King of the day sinking beneath the billowy waves of the ocean, bids us good night. Let us drop from the sky to the earth again. There are dangers in the South. Are there alligators? There are, I have never seen one out of captivity. Niggers hunt them. Locate him. He loves a watery hole. Have a noose ready in front of him. Get behind him and force him forward. It is little trouble to catch him, but requires stout arms. Why do niggers hunt him? His skin makes purses and valises. His flesh tastes like pork—so the niggers say. H. J. LEAKE.

Literary Club

The Literary Committee of the Community Club met at the Public School on Tuesday afternoon, Dec. 5th. All members were present. Mr. W. G. Spencer, Convenor, acted as chairman. Miss May Langford was elected Secretary. It was decided that as soon as possible after the official opening of the Memorial Hall a Literary Concert will be arranged. These concerts will be held at intervals of four or five weeks throughout the year.
