

## WON THE \$30,000 AVIATION PRIZE

Frenchman Flew Six Hundred Miles From Paris to Madrid.

Crossed a Pass at an Elevation of Nearly 5,000 Feet.

Met With Great Reception When He Reached Madrid.

Paris, May 29.—Pierre Vedrine, the French aviator, arrived at the Spanish capital from Burgos at 8.06 o'clock this morning, being the first contestant to complete the third stage of the Paris-Madrid aviation race. He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from San Sebastian, in two hours and forty-five minutes. Gilbert and Garrios are still stalled in the mountain fastnesses, and it is not thought probable that they will be able to finish within the time limit.

Vedrine, on landing at the Getafe aerodrome, was so tired after his voyage he jumped from his aeroplane and hung himself on the ground to rest. A frantic crowd soon rushed up, however, and bore the victorious aviator on their shoulders to the judges. On reaching the judges' platform he was showered with roses and kissed repeatedly by the women.

Later, on complaining that he was still numb from his flight, he was removed to an infirmary, where he received medical attention and a short but much needed rest. On reappearing at the aerodrome the Frenchman smilingly delivered the messages which he had brought with him from Paris, and was congratulated on his magnificent flight by the civil governor of Madrid on behalf of King Alfonso.

Vedrine left the suburbs of Burgos in ideal weather this morning, and flew over Aranda de Duero, 45 miles south of Burgos, at a good height and at a great speed.

At Boquillas, where the airman was greeted by a great crowd of wildly shouting peasants, Vedrine buckled down to the task of crossing the dreaded Sierra Pass, which is 4,000 feet high. Higher and higher he climbed until he had attained an altitude of 6,500 feet. The bird man then, straight as an arrow, flew over the crags and snow-capped peaks until he reached the immense plains of San Augustin. Having left the mountain ranges behind him, Vedrine dropped closer to the earth and finally reached the aerodrome at Getafe, where he alighted with the greatest ease amid the plaudits of thousands of enthusiastic spectators.

The Paris-to-Madrid race was begun on May 21 under the auspices of the Petit Parisien, which offered a prize of \$20,000. In addition the Spanish Aero Club gave prizes amounting to \$10,000 and King Alfonso offered a special prize for the fastest speed over the Spanish section. The journey was divided into three stages, Paris to Angoulême, Angoulême to San Sebastian and San Sebastian to Madrid, a total distance of about 600 miles.

Twenty machines were entered for the race, but as a result of the tragic accident when the start was made from the Issy Les Mouligneux aviation field, which resulted in the death of M. Berteaux, the French Minister of War, and in serious injury to Premier Monis, all but three of the aviators withdrew. Of these three Pierre Vedrine, who reached the Spanish capital this morning, was the favorite. He covered the first stage of the contest, 270 miles, in 3 hours and 39 minutes, breaking all records for a long distance country flight. The running time of the southern express between Paris and Angoulême was beaten by Vedrine by one hour and 39 minutes.

## NO LIQUOR.

Such is the Order From Brigadier-General Cotton.

Notwithstanding the fact that Major-General Sir Percy Lake recommended last year in his interim report that the sale of malt liquors under strict supervision be allowed in the militia camps, standing orders for the Niagara camp, issued this week by Brigadier-General Cotton, state positively that no liquor of any sort is to be allowed in any officers' mess, canteen or other regimental institution within the camp.

The division of the camp into two parts this year, commencing on June 5 and 10, respectively, will relieve to a great extent the congestion which has been so noticeable in the last few years on the Niagara common. The infantry brigades will occupy their usual position on the old grounds, and during the first camp grounds will be fenced off and kept fresh for the troops which will attend during the following two weeks. The desire which was expressed by General Lake that the new camping grounds recently acquired by the Government on the lake shore should be used by the infantry, and the old grounds reserved entirely for the cavalry, will not materialize this year, owing principally to difficulty in securing suitable drinking water on the new grounds.

## FOR AVIATORS.

Bill in Parliament to Provide Against Disasters.

London, May 29.—Learning a lesson from the aeroplane disaster that caused the death of the French Minister of War, Winston Churchill yesterday introduced an aerial bill empowering the Home Secretary to make regulations for defining and closing certain areas over which it is thought to be dangerous for air craft to pass.

The bill is a temporary measure brought in with the special view of safeguarding the public who will witness the coronation ceremonies from reckless aviation. It is preliminary to a more comprehensive measure. Fines proposed for contravention of the regulations are heavy: on indictment, two years' imprisonment or a fine of £500; on summary convictions three months' imprisonment or a fine of £100.

## TO BUILD HOMES.

St. Catharines Manufacturers Take Action—A Centenarian.

St. Catharines despatch: Representatives of the larger manufacturing plants in the city this evening held a meeting at which plans for the organization of a club with the object of building homes for merchants were further advanced. Although the records in the city clerk's office show that over fifty houses were constructed this year already, the congestion has not yet been relieved.

John Winney, aged one hundred and one years, has taken up his residence at the County Industrial Home at his own request. He was born in England in 1810, but resided in Grimsby for years. Two weeks ago Reeve William Mitchell sent him to Muskoka, where he once lived, but the old man returned a few days ago, saying he could not live in the north, the conditions had so changed. The old man has a son seventy-five years, and two grandsons both over fifty years, living in Grimsby.

## RESIGNATION OF PRESIDENT DIAZ

Mexican Chamber of Deputies Accepted His Resignation.

Text of Letter of Resignation Somewhat Pathetic Affair.

Madero's Personal Representative Assumes Military Control.

Mexico City, May 29.—President Porfirio Diaz, in a letter read by the President of the Chamber of Deputies, this afternoon resigned the Presidency of the Republic of Mexico, and at 4.54 o'clock the acceptance of the resignation by the deputies was announced. Vice-President Ramon Corral's resignation was also accepted, and Minister of Foreign Affairs Francisco Leon de la Barra was chosen provisional President to serve until a general election can be held.

Everyone had expected an uproar when the announcements should be made, but within the Chamber the words announcing the event were followed by silence. In the streets, black with people, the news that Diaz was no longer the President was the signal for wild shouting and manifestations. There was no violence.

Of scarcely less popular interest than the resignations was the assumption of military control of the Federal district by Alfredo Robles Dominguez, Madero's personal representative, insuring the handing of popular demonstrations by a leader of the new regime.

Personally, Dominguez commands only a small body of local rebels, but the Federal garrison is under orders to make no move whatever without his approval. Senor Dominguez said that he could bring 5,000 organized rebels troops into the city within three hours.

THE PRESIDENT'S LETTER. The President's letter of resignation read as follows:

"Sir,—The Mexican people, who generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations; that some people, sir, have revolved in armed military hands, stating that my presence in the exercise of the supreme executive power is the cause of this insurrection."

"I do not know of any fact imputable to me, which could have caused this social phenomenon, but permitting, though not admitting, that I may be unwittingly culpable, such a possibility makes me the least able to reason out and decide my own culpability. Therefore, respecting as I have always respected the will of the people, and in accordance with article 82 of the Federal constitution, I come before the supreme representatives of the nation in order to resign, unreservedly, the office of constitutional President of the Republic, with which the national vote honored me, which I do with all the more reason, since in order to continue in office, it would be necessary to shed Mexican blood, endangering the credit of the country, dissipating its wealth, exhausting its resources and exposing its policy to international complications."

"I hope, gentlemen, that when the passions which are inherent to all revolutions, have been calmed, a more conscientious and justified study will bring out in the national mind a correct acknowledgment, which will allow me to die, carrying engraved in my soul a just impression of the estimation of my life, which throughout I have devoted and will devote to my countrymen."

"With all respect," Provisional President de la Barra, President-elect, acknowledged his elevation to that high office in an open letter to the Mexican people to-night. He declared he would not be a candidate for either President or Vice-President, when a general election should be held.

## MAN DROWNED.

Fell From Tug While Asleep, Ero her Unaware of Tragedy.

Welland, Ont., despatch: Edward Vanderveer, an Escherman, aged twenty-seven years, was drowned in Lake Erie, off Windmill Point, under peculiar circumstances on the afternoon of Victoria Day. At the time of the accident he was with his brother Aaron on a gas-line fishing boat. He was sitting on the rail. His brother thinks he fell into a doze and dropped into the water. He is said to have been a good swimmer.

The two men left Port Colborne harbor at noon with a cargo of fish for the Buffalo market. They had sold their cargo and were returning home shortly after 4 o'clock. Aaron was attending to the engine and Edward was sitting on the rail, steering.

Aaron made the following statement: "I noticed that the boat was following her own way and, looking up, saw that Ed was asleep. I wakened him up, and then I turned to work on the canvas. It might have been half an hour afterward that I noticed the boat drifting again and, looking back, I saw that he was gone. I seized the tiller, and turned her over so hard I broke the shoe off her. I cruised around for over an hour in the hope of picking him up, but saw no trace. Quite a sea was running, but not nearly so heavy as we have often been out in."

The young man was in his 27th year and leaves a widow and three children.

## VICE IN THE WEST

War Cry Editor Shocked by Depravity of Young Girls.

Calgary, Alberta, May 29.—"Your Western country gives my nerves a jar, when I look over the population and see the startling number of depraved young women in your midst."

This was the praise that Brigadier Graves, of the Salvation Army, editor of the War Cry, used in an interview today. "Young girls below the age of 16 become mothers, and upon investigation I find that it is not thoughtless boys who are responsible, but men who should be punished with the maximum penalty."

The subject mentioned above was not prompted by the reporter, but during the short time that the Salvation Army editor was talking he found it impossible to forget the most startling conditions that he found in the great west.

"It was an awful thing to see the juvenile falling into the pit of disgrace," he continued, "but when you see so much as you see here in the west I cannot help mentioning the facts, even if you do not wish to publish it. Western Canada juvenile girls are falling in greater numbers than those of the East in its respect."

He will leave to-morrow for Vancouver and will return in a few weeks to Moosejaw and Regina.
