

CROSSING OF THE AUGERAPP BIG RUSS GAIN

Means Breaking of Important German Defence Line in East Prussia.

WARSAW DRIVE

Gains Kaiser Nothing, While the Czar's Troops Are Making Progress.

London Cable.—The Russian army invading East Prussia from the west has forced its way across the River Augerapp and has driven the Germans from the town of Gross Medunishken on the west bank.

The Angerapp was a strong natural defence of which the Germans made effective use in blocking the Russian march toward Insterburg.

Simultaneously the Russian advance toward West Prussia had gained momentum, with the capture of Skempe, a town near the border, and about 32 miles southeast of Thorn.

PERVIOUS GERMAN ATTACKS. These successes of the Russian armies in the north come at a time when they are vitally needed, as it is plainly apparent from the general staffs' announcement that the Germans are attacking more fiercely west of Warsaw than at any time since the occupation of Lodz in early December.

RUSSIANS TAKE VILLAGES. It is apparent, however, that while the Germans are making every effort to get near Warsaw, the Russians, for the present, are satisfied to hold their positions and inflict as heavy losses on their adversaries as possible.

It is believed here that the Germans cannot break the Russian front. They are compelled to use such vast numbers of their troops on other fronts and in regions where the Russians maintain the offensive that it is impossible for them to find enough troops to crush the Russian west of Warsaw.

It is now revealed that the Germans have continued to send large reinforcements to the Austrian armies in the Carpathians. The German official reports mention the presence of German corps in the Carpathian passes, and it is reported to-day that 20,000 German troops are to be detached from Polish areas to assist the Austrians.

WHAT AMSTERDAM HEARS. From Amsterdam comes a despatch tonight quoting the "Austro-Hungarian press bureau" as saying that "The Austrian army, which previously had been directing efforts against Serbia, together with the Germans who were sent to reinforce them, are now said to be in the Carpathian passes."

The idea of an invasion of Serbia is reported to have been abandoned owing to the spring inundations, the freshets in the Drina, Save and Lower Danube Rivers rendering operations difficult.

The Hon. James Duff spoke regarding the nuisance and favored the paying of full value for sheep destroyed by dogs, at any rate in the case of ordinary sheep that were not pure bred or otherwise specially valuable.

BRITISH TOOK THE OFFENSIVE AT LA BASSEE

Brilliant Dash By Allies May End in the Recapture of Lille.

FRENCH GUNS WIN

Three Heavy Assaults by Invaders Result in Disaster.

Paris Cable.—The allies won important advantages to-day in Flanders and Northern France and defeated a German attack in Alsace. The report issued to-night by the French Government indicates that the allies have not merely checked German effort in the all-important region between the La Bassee Canal and the River Aisne, but have retained the offensive and have delivered heavy blows against the German line.

From the French point of view, the most satisfactory success was in the desperately-contested region just west of the City of Lille. Having maintained their occupation of Lille for many weeks, the Germans developed in the past two weeks offensive thrusts which put the allied line to great strain.

Once more the Government emphasizes the superiority of the French artillery. For months the German infantry occupying the heights north of the Aisne have been held at a distance by the effective fire of French cannon.

NEW PHASE OF HORN CASE. Washington, Des.—The German Embassy to-day entered into the case of Werner Horn, the German held for blowing up a railroad bridge on the Maine-Canada border, to the extent of enquiring at the State Department whether the British Ambassador had presented an application for the extradition of Horn, and the Irishman said to have been associated with him.

While it is regarded as more probable in the German Government will disavow all connection with and responsibility for Horn's act, it is admitted that Germany will assume full responsibility for it.

There was no proceedings by any member of the Government here in the case to-day. While it is regarded as more probable in the German Government will disavow all connection with and responsibility for Horn's act, it is admitted that Germany will assume full responsibility for it.

VEGETABLE MEN

Ontario Growers in Convention in Toronto.

Toronto, Despatch.—The annual meeting of the Ontario Vegetable Growers' Association for the presentation of financial reports and the election of officers was held at the Parliament Buildings yesterday. The secretary, Mr. J. Lockie Wilson, reported encouraging progress in membership and a satisfactory financial condition.

The following officers were elected: President, F. P. Reeves, of Humber Bay; first vice-president, C. J. Day, of the British Columbia; secretary-treasurer, J. Lockie Wilson, Toronto.

The executive committee will consist of the officers named and Thos. Delworth, of Weston. Mr. Delworth was also elected representative of the association to the Canadian National Exhibition.

SHORT ITEMS

U. S. Chambers of Commerce Strongly Condemn the Ship Purchase Bill.

The U. S. Chambers of Commerce have issued a statement in which they strongly condemn the proposed bill for the purchase of ships by the United States Government.

The bill, which was introduced in the House of Representatives last week, provides for the purchase of a large number of ships for the United States Navy.

The chambers of commerce in various parts of the United States have expressed their opposition to the bill, fearing that it will result in the loss of jobs for American shipbuilders.

They also fear that the bill will result in the loss of jobs for American sailors and other maritime workers.

SHEEP BREEDERS

Annual Meeting Complains of Dogs' Ravages.

Toronto, Des.—The chief matter discussed at the Ontario Sheep Breeders' Association last evening was the dog nuisance; the consensus of opinion was that the present law was sufficiently wide but was not thoroughly enforced.

Mr. Harding suggested that all dogs be licensed. The president of the association had sent out one hundred cards to farmers asking their reasons for not keeping sheep, and eighty-seven replies gave dogs as the reason. Mr. Harding said that too much was said about dogs and Mr. Wallace suggested that the Farmers' Institute should do more talking in the interest of the sheep industry.

The Hon. James Duff spoke regarding the nuisance and favored the paying of full value for sheep destroyed by dogs, at any rate in the case of ordinary sheep that were not pure bred or otherwise specially valuable.

CATTLE MEN PROSPEROUS

Breeders in Convention Report a Good Year.

Various Sections Elect Their Officers.

Toronto despatch.—That reciprocal relations had been made between the Jersey Cattle Club of the United States and the Canadian Jersey Cattle Club was announced by Secretary Bull, of the latter association, at the annual meeting yesterday.

As the result of this arrangement the secretary stated that the Canadian registrations would be accepted throughout the United States. The report was an optimistic one. It showed that during the past year the number of registrations had been large, and that up to the present there are 5,800 registrations on the books, while a credit balance is shown of \$1,500.

A larger number of Jerseys had been imported in 1914 than in any former year, and the breeders have succeeded in producing an exceptionally high-class grade of cattle. Addresses were made by Prof. Archibald and John Bright, of Ottawa, and the following officers were elected: President, S. J. Lyons, Norway; Vice-Presidents, D. O. Bull, J. L. Brampton, and F. L. Green, Greenwood; Secretary-Treasurer, Bartley A. Bull, Brampton; and a directorate of R. J. Fleming, Toronto; George T. Baggs, Edgley; H. A. Dolson, Cheltenham, and W. N. McEachern, Toronto.

At the annual meeting of the Holstein-Friesian Association President R. F. Hicks spoke very highly of the dairy industry. He said that it was an occupation which can be made to pay no matter how great the financial stringency, and strongly advised the farmers to take it up on a larger scale. He warned the breeders not to force the sale of their cattle as he could see no reason why the value of the animals could not be kept up to the present high scale, and declared that there was no necessity for sacrificing them.

The report of the association was a good one, and showed that 349 new members had been admitted during the year, which made the membership now 2,000. A credit balance of \$1,088.17 was given.

The Canadian Hereford Breeders' Association at their annual meeting elected the following officers: President, L. O. Clifford, Ottawa; president, W. H. Hunter, Orangeville; vice-president, Thomas Skippon, Hyde Park, Ont.; J. E. Marples, Hartney, Man.; W. H. Harrison, Montmarble, Alta.; J. H. Creswell, Edmonton, Alta.; J. A. Graham, Vancouver, B.C.; B. A. Alger, Eaton, Que.; W. W. Black, Amherst, N. S.; Provincial vice-presidents, and W. Readhead, and T. K. McConnell were added to the board of directors.

The Canadian Hereford Breeders' Association at their annual meeting elected the following officers: President, L. O. Clifford, Ottawa; president, W. H.
